FOR YOUR HOME & FAMILY

## Rain or shine, we're making clean energy for you

When the "Sunshine State" lives up to its name, it's a beautiful thing. But, we all know there are plenty of cloudy and rainy days here. That's why at our Martin Next Generation Clean Energy Center, we've teamed up Florida's sunshine with affordable, American-produced natural gas to deliver reliable electricity to you around the clock, in good weather and bad.

During the day, we take the sun's rays and turn the solar energy into electricity to power your home. At night or when it's cloudy, U.S. natural gas steps in to continue delivering clean energy you can count on. Learn how this first-of-its-kind idea is part of our ongoing work to change tomorrow for the better:

### The easiest way to save

More than 800,000 customers are already saving money on their electric bills with On Call® and you can, too.

See how you could save by allowing us to occasionally "switch off" select equipment of your choice – like your A/C, water heater or pool pump – only when needed.

## Always working for you

We're always working to strengthen power lines serving neighborhoods and key community facilities like hospitals, 911 centers and grocery stores to better withstand severe weather. See what we've done in your area:

## Ask the Energy Expert

**Q** Which thermostats are best for use in Florida?  
- L. Monroe, Cocoa Beach

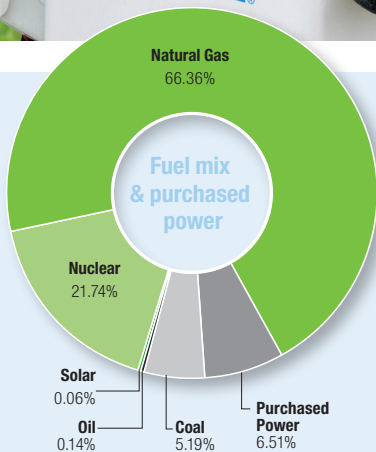

**A** Many of you are curious about those new "smart" thermostats popping up in local home improvement stores. They can help you monitor and control your home's largest energy user – air conditioning – straight from a smartphone. But the jury is still out on whether they can help you save energy here in Florida. See what we've learned so far:

## Did you know?

We use mostly American-produced clean fuel sources to generate the electricity you use in your home.

*Sources of electricity generation for the 12 months that ended on Nov. 30, 2013*

## Free tax help available

Doing your taxes can be confusing and costly. That's why we wanted you to know about free income tax assistance that may be available to you.

Low- to moderate-income Floridians may qualify for tax help through the IRS Volunteer Income Tax Assistance or Tax Counseling for the Elderly programs. Be sure to ask about the Earned Income Tax Credit as well. Call 1-800-829-1040 or visit: >> [IRS.gov](http://IRS.gov)

## FPL E-Mail Bill® can help in tax season

Claiming home office deductions or reviewing finances from 2013? FPL E-Mail Bill helps you get easy online access to 24 months of payment history and six months of detailed bills.
