FOR YOUR BUSINESS

Preparing the workforce of tomorrow

Together, we're making the most of Florida's sunshine

We're partnering with schools and businesses, such as Miami Jackson Senior High School, to help our state's next generation learn about solar energy. In fact, by the end of 2014, more than 100 schools and educational facilities will be using Florida's sunshine to produce electricity. It's all part of FPL's Solar for Schools initiative, which includes solar installations and educational tools for teachers.

"Through this partnership, we've saved energy and money, while also delivering something far more important – educational opportunities for students," said Miami-Dade County Public Schools Superintendent Alberto Carvalho.

Energy Answers

Q I am a realtor and I want to see last year's billing and payment breakdown. How do I get a printout of activity in 2013?

- Anna H.

A Your upgraded online bill allows you to view, print and download detailed bills in a one-page format. You can also access 24 months of billing and payment activity. Learn more about the upgrades we've made:

Phone scam warning – be on alert

Phone scammers posing as FPL employees continue to target customers using a false phone number that could appear to be FPL on a caller ID. They threaten to shut off power unless a payment is made immediately using a prepaid credit card. These calls are not from FPL. We will never call and ask for credit card information or any personal information unless you initiate the contact.
