

EnergyNotes
FOR YOUR BUSINESS

Moving Florida forward

What if you could grab the sun and pass its energy on to others? That's what we do here at FPL. At our three solar energy centers throughout Florida, we grab the sun, turn it into electricity and pass it on to you.

It's all part of our commitment to helping Florida grow and making it an even better place to live and work. That's why we're also investing in science and technology education for our future generations and workforce. And, we're working together with you through our PoweringFlorida® initiative to help businesses create new jobs here at home. Learn more about how we're changing Florida's energy today to create a better tomorrow for all of us:

The best rate for your business

No matter what you buy, you always want to know that you're getting the best price. We can help you rest easy by evaluating your electric rate and specific energy needs. Through a free Business Energy Evaluation, an FPL Energy Expert will help you find if there are ways you could save energy or money at your business, and this includes a rate analysis. Schedule your evaluation today:

Did you know?

You can get answers about power outages straight from your smartphone. We work hard to keep your lights on. But, if they do go out, we want you to have the information you need right at your fingertips. Report an outage or learn when crews will restore your power:

Ask the Energy Expert

Q What's the cost of running a soda vending machine? It is an older machine and I need to know if it pays for itself.

- Tina D., Port St. Lucie

A A typical refrigerated vending machine costs \$250 to \$440 to run annually. Our FPL Energy Expert explains how you can cut those yearly costs in half:

* Monday-Friday

Time-of-use reminder

If your business is on a time-of-use rate, don't forget that the on-peak hours change next month. From April 1 to Oct. 31, on-peak hours are Monday through Friday from noon to 9 p.m., excluding select holidays.

Storm charge adjustment

You will see a slight increase in the storm charge portion of your bill as part of a routine adjustment effective this month. This charge, which helps pay for previous hurricane restoration costs and builds the reserve for future storms, is adjusted periodically during the year following Florida Public Service Commission review and approval. The storm charge will be \$1.82 per 1,500 kWh for small, non-demand business customers. View all rate classes:
