

Investing in Florida's future

We're committed to providing electricity you can count on at a great value now and in the future. Today, the service we provide is cleaner and more reliable than ever before. And, our typical customer bill is lower than it was a decade ago – down about 15 percent compared with 2006 – and among the lowest in the nation. The value we provide you is the direct result of smart, long-term investments we've made in advanced technologies and cost-saving efficiencies.

To help us continue providing outstanding service for you, we have requested that the Florida Public Service Commission begin the process to set new customer base rates for 2017 through 2020.

Investments supported by customer base rates will continue to improve the efficiency of our system, which helps us hold down fuel and other costs that contribute to your total bill. And, additional investments in building a stronger, smarter electric system are crucial as we continue to improve the reliability of our service for you, including fewer outages and restoring your service faster if outages occur.

Safety check your home

Did you know regular inspections of power cords, plugs, outlets, light bulbs, circuit breakers/fuses, ground fault circuit interrupters (GFCIs) and entertainment/ computer equipment can help keep your home safe? At FPL, your safety is always our priority.

For more safety tips, visit: >>> FPL.com/homesafety

Ask the Energy Expert Is it worth it to change the incandescent bulbs in my house to LEDs? - Vera S., Palm City, Fla. LED bulbs can do everything old incandescent bulbs do, and more. While they can cost a little more upfront, LED bulbs create savings for you in the long run by using four times less energy and lasting up to 10 times longer. Read more at: **PPLblog.com/LED**

More ways to manage your bill

FPL has many convenient and secure ways to manage your bill — and we're always looking to provide you with more options. From receiving your bill by email to paying it online or in person, we're expanding your choices to help save you time and give you peace of mind.
