

## INDEX OF STANDARD FORMS

	<u>Sheet No.</u>
Standard Offer Contract – Renewable Energy	9.030
Interconnection Agreement for Customer Owned Renewable Generation Tier 1 (10 kW or less)	9.050
Interconnection Agreement for Customer Owned Renewable Generation Tier 2 (10 – 100 kW)	9.055
Interconnection Agreement for Customer Owned Renewable Generation Tier 3 (101 kW – 2MW)	9.065
Street Lighting Agreement	9.100
Street Lighting Fixture Vandalism Option Notification	9.110
Premium Lighting Agreement	9.120
Recreational Lighting Agreement	9.130
LED Lighting Agreement	9.140
Residential Unconditional Guaranty	9.400
Non-Residential Unconditional Guaranty	9.410
Performance Guaranty Agreement for Residential Subdivision Development	9.420
Irrevocable Bank Letter of Credit for Performance Guaranty Agreement	9.425
Surety Bond for Performance Guaranty Agreement	9.427
Irrevocable Bank Letter of Credit	9.430
Irrevocable Bank Letter of Credit Evidence of Authority	9.435
Surety Bond	9.440
General Service Constant Usage Agreement	9.470
Commercial/Industrial Service Rider	9.475
Commercial/Industrial Load Control Customer Request for Approval	9.480
Commercial/Industrial Load Control Program Agreement	9.490
Commercial/Industrial Demand Reduction Rider Customer Request for Approval	9.494
Commercial/Industrial Demand Reduction Rider Agreement	9.495
FPL Residential Conservation Service Receipt of Services	9.500
Agreement for Curtailable Service	9.600
Curtailable Customer Request for Approval	9.610
Agreement for General Demand Service	9.650
Common Use Facilities Rider	9.660
Condominium Exemption from Individual Electric Metering – Attestation of Compliance	9.665
Economic Development Rider Service Agreement	9.670
Demand Side Management Adjustment Rider Declaration Form	9.680

Underground Distribution Facilities Installation Agreement	9.700
Underground Road/Pavement Crossing Agreement	9.715
Underground Facilities Conversion Agreement	9.720
Underground Facilities Conversion Agreement – Governmental Adjustment Factor Waiver	9.725
Long-Term Rental Agreement for Distribution Substation Facilities	9.730
Facilities Rental Service Agreement	9.750
Electric Service and Meter Socket Requirements	9.760
Easement (Individual)	9.770
Underground Easement (Individual)	9.773
Easement (Business)	9.775
Underground Easement (Business)	9.778
Momentary Parallel Operation Interconnection Agreement	9.780
Interconnection Agreement For Qualifying Facilities	9.800
Residential Optional Supplemental Power Services Agreement	9.811
Non-Residential Optional Supplemental Power Services Agreement	9.820
Existing Facility Economic Development Rider Service Agreement	9.870
Standby and Supplemental Service Agreement	9.910
Interruptible Standby and Supplemental Service Agreement	9.920
Medically Essential Service	9.930
Medically Essential Service Notice of Exclusion from Disclosure	9.932
Performance Guaranty Agreement	9.946
Performance Guaranty Agreement for Incremental Capacity	9.950

RESERVED FOR FUTURE USE

RESERVED FOR FUTURE USE

**STANDARD OFFER CONTRACT FOR THE PURCHASE OF  
CAPACITY AND ENERGY FROM A RENEWABLE ENERGY FACILITY OR A QUALIFYING  
FACILITY WITH A DESIGN CAPACITY OF 100 KW OR LESS (2026 AVOIDED UNIT)**

THIS STANDARD OFFER CONTRACT (the "Contract") is made and entered this \_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (herein after "Qualified Seller" or "QS") a corporation/limited liability company organized and existing under the laws of the State of \_\_\_\_\_ and owner of a Renewable Energy Facility as defined in section 25-17.210 (1) F.A.C. or a Qualifying Facility with a design capacity of 100 KW or less as defined in section 25-17.250, and Florida Power & Light Company (hereinafter "FPL") a corporation organized and existing under the laws of the State of Florida. The QS and FPL shall be jointly identified herein as the "Parties". This Contract contains five Appendices; Appendix A, QS-2 Standard Rate for Purchase of Capacity and Energy; Appendix B, Pay for Performance Provisions; Appendix C, Termination Fee; Appendix D, Detailed Project Information and Appendix E, contract options to be selected by QS.

**WITNESSETH:**

WHEREAS, the QS desires to sell and deliver, and FPL desires to purchase and receive, firm capacity and energy to be generated by the QS consistent with the terms of this Contract, Section 366.91, Florida Statutes, and/or Florida Public Service Commission ("FPSC") Rules 25-17.082 through 25-17.091, F.A.C. and FPSC Rules 25-17.200 through 25.17.310.F.A.C.

WHEREAS, the QS has signed an interconnection agreement with FPL (the "Interconnection Agreement"), or it has entered into valid and enforceable interconnection/transmission service agreement(s) with the utility (or those utilities) whose transmission facilities are necessary for delivering the firm capacity and energy to FPL (the "Wheeling Agreement(s)");

WHEREAS, the FPSC has approved the form of this Standard Offer Contract for the Purchase of Firm Capacity and Energy from a Renewable Energy Facility or a Qualifying Facility with a design capacity of 100 KW or less; and

WHEREAS, the Facility is capable of delivering firm capacity and energy to FPL for the term of this Contract in a manner consistent with the provisions of this Contract; and

WHEREAS, Section 366.91(3), Florida Statutes, provides that the "prudent and reasonable costs associated with a QS energy contract shall be recovered from the ratepayers of the contracting utility, without differentiating among customer classes, through the appropriate cost-recovery clause mechanism" administered by the FPSC.

NOW, THEREFORE, for mutual consideration the Parties agree as follows:

(Continued on Sheet No. 9.031)

(Continued from Sheet No. 9.030)

**1. QS Facility**

The QS contemplates, installing operating and maintaining a \_\_\_\_\_ KVA \_\_\_\_\_ generating facility located at \_\_\_\_\_ (hereinafter called the "Facility"). The Facility is designed to produce a maximum of \_\_\_\_\_ kilowatts ("KW") of electric power at an 85% lagging to 85% leading power factor. The Facility's location and generation capabilities are as described in the table below.

<b>TECHNOLOGY AND GENERATOR CAPABILITIES</b>	
<b>Location: Specific legal description (e.g., metes and bounds or other legal description with street address required)</b>	<b>City: County:</b>
<b>Generator Type (Induction or Synchronous)</b>	
<b>Type of Facility (Hydrogen produced from sources other than fossil fuels, biomass as defined in Section 25-17.210 (2) F.A.C. , solar energy, geothermal energy, wind energy, ocean energy, hydroelectric power, waste heat from sulfuric acid manufacturing operations: or &lt;100KW cogenerator)</b>	
<b>Technology</b>	
<b>Fuel Type and Source</b>	
<b>Generator Rating (KVA)</b>	
<b>Maximum Capability (KW)</b>	
<b>Minimum Load</b>	
<b>Peaking Capability</b>	
<b>Net Output (KW)</b>	
<b>Power Factor (%)</b>	
<b>Operating Voltage (kV)</b>	
<b>Peak Internal Load KW</b>	

The following sections (a) through (e) are applicable to Renewable Energy Facilities ("REFs") and section (e) is only applicable to Qualifying Facilities with a design capacity of 100 KW or less:

- (a) If the QS is a REF, the QS represents and warrants that (i) the sole source(s) of fuel or power used by the Facility to produce energy for sale to FPL during the term of this Contract shall be such sources as are defined in and provided for pursuant to Sections 366.91(2) (a) and (b), Florida Statutes, and FPSC Rules 25-17.210(1) and (2), F.A.C.; (ii) Fossil fuels shall be limited to the minimum quantities necessary for start-up, shut-down and for operating stability at minimum load; and (iii) the REF is capable of generating the amount of capacity pursuant to Section 5 of this Agreement without the use of fossil fuels.
- (b) The Parties agree and acknowledge that if the QS is a REF, the QS will not charge for, and FPL shall have no obligation to pay for, any electrical energy produced by the Facility from a source of fuel or power except as specifically provided for in paragraph 1(a) above.

(Continued on Sheet No. 9.032)

(Continued from Sheet No. 9.031)

- (c) If the QS is a REF, the QS shall, on an annual basis and within thirty (30) days after the anniversary date of this Contract and on an annual basis thereafter for the term of this Contract, deliver to FPL a report certified by an officer of the QS: (i) stating the type and amount of each source of fuel or power used by the QS to produce energy during the twelve month period prior to the anniversary date (the "Contract Year"); and (ii) verifying that one hundred percent (100%) of all energy sold by the QS to FPL during the Contract Year complies with Sections 1(a) and (b) of this Contract.
- (d) If the QS is a REF, the QS represents and warrants that the Facility meets the renewable energy requirements of Section 366.91(2)(a) and (b), Florida Statutes, and FPSC Rules 25-17.210(1) and (2)-, F.A.C., and that the QS shall continue to meet such requirements throughout the term of this Contract. FPL shall have the right at all times to inspect the Facility and to examine any books, records, or other documents of the QS that FPL deems necessary to verify that the Facility meets such requirements.
- (e) The Facility (i) has been certified or has self-certified as a "qualifying facility" pursuant to the Regulations of the Federal Energy Regulatory Commission ("FERC"), or (ii) has been certified by the FPSC as a "qualifying facility" pursuant to Rule 25-17.080(1). A QS that is a qualifying facility with a design capacity of less than 100 KW shall maintain the "qualifying status" of the Facility throughout the term of this Contract. FPL shall have the right at all times to inspect the Facility and to examine any books and records or other documents of the Facility that FPL deems necessary to verify the Facility's qualifying status. On or before March 31 of each year during the term of this Contract, the QS shall provide to FPL a certificate signed by an officer of the QS certifying that the Facility has continuously maintained qualifying status.

**2. Term of Contract**

Except as otherwise provided herein, this Contract shall become effective immediately upon its execution by the Parties (the "Effective Date") and shall have the termination date stated in Appendix E, unless terminated earlier in accordance with the provisions hereof. Notwithstanding the foregoing, if the Capacity Delivery Date (as defined in Section 5.5) of the Facility is not accomplished by the in-service date of the avoided unit, or such later date as may be permitted by FPL pursuant to Section 5 of this Contract, FPL will be permitted to terminate this Contract consistent with the terms herein without further obligations, duties or liability to the QS.

**3. Minimum Specifications**

Following are the minimum specifications pertaining to this Contract:

- 1. The avoided unit ("Avoided Unit") options on which this Contract is based are detailed in Appendix A.
- 2. This offer shall expire on April 1, 2020.
- 3. The date by which firm capacity and energy deliveries from the QS to FPL shall commence is the in-service date of the Avoided Unit (or such later date as may be permitted by FPL pursuant to Section 5 of this contract) unless the QS chooses a capacity payment option that provides for early capacity payments pursuant to the terms of this Contract.
- 4. The period of time over which firm capacity and energy shall be delivered from the QS to FPL is as specified in Appendix E; provided, such period shall be no less than a minimum of ten (10) years after the in-service date of the Avoided Unit.
- 5. The following are the minimum performance standards for the delivery of firm capacity and energy by the QS to qualify for full capacity payments under this Contract:

	On Peak *	All Hours
Availability	94.0%	94.0%

\* QS Performance and On Peak hours shall be as measured and/or described in FPL's Rate Schedule QS-2 attached hereto as Appendix A

(Continued on Sheet No. 9.032.1)

(Continued from Sheet No. 9.032)

3.2 QS, at no cost to FPL, shall be responsible to:

3.2.1 Design, construct, and maintain the Facility in accordance with this Contract, applicable law, regulatory, and governmental approvals, any requirements of warranty agreements or similar agreements, prudent industry practice, insurance policies, and the Interconnection Agreement or Wheeling Agreement.

3.2.2 Perform all studies, pay all fees, obtain all necessary approvals and execute all necessary agreements (including the Interconnection Agreement or the Wheeling Agreement(s)) in order to schedule and deliver the firm capacity and energy to FPL.

3.2.3 Obtain and maintain all permits, certifications, licenses, consents or approvals of any governmental or regulatory authority necessary for the construction, operation, and maintenance of the Facility (the "Permits"). QS shall keep FPL reasonably informed as to the status of its permitting efforts and shall promptly inform FPL of any Permits it is unable to obtain, that are delayed, limited, suspended, terminated, or otherwise constrained in a way that could limit, reduce, interfere with, or preclude QS's ability to perform its obligations under this Contract (including a statement of whether and to what extent this circumstance may limit or preclude QS's ability to perform under this Contract.)

3.2.4 Demonstrate to FPL's reasonable satisfaction that QS has established Site Control, an agreement for the ownership or lease of the Facility's site, for the Term of the Contract.

3.2.5 Complete all environmental impact studies and comply with applicable environmental laws necessary for the construction, operation, and maintenance of the Facility.

3.2.6 At FPL's request, provide to FPL electrical specifications and design drawings pertaining to the Facility for FPL's review prior to finalizing design of the Facility and before beginning construction work based on such specifications and drawings, provided FPL's review of such specifications and design shall not be construed as endorsing the specification, and design thereof, or as any express or implied warranties including performance, safety, durability or reliability of the Facility. QS shall provide to FPL reasonable advance notice of any changes in the Facility and provide to FPL specifications and design drawings of any such changes.

3.2.7 Within fifteen (15) days after the close of each month from the first month following the Effective Date until the Capacity Delivery Date, provide to FPL a monthly progress report (in a form reasonably satisfactory to FPL) and agree to regularly scheduled meetings between representatives of QS and FPL to review such monthly reports and discuss QS's construction progress. The Monthly Progress Report shall indicate whether QS is on target to meet the Capacity Delivery Date. If, for any reason, FPL has reason to believe that QS may fail to achieve the Capacity Delivery Date, then, upon FPL's request, QS shall submit to FPL, within ten (10) business days of such request, a remedial action plan ("Remedial Action Plan") that sets forth a detailed description of QS's proposed course of action to promptly achieve the Capacity Delivery Date. Delivery of a Remedial Action Plan does not relieve QS of its obligation to meet the Capacity Delivery Date.

3.3 FPL shall have the right, but not the obligation, to:

3.3.1 Inspect during business hours upon reasonable notice, or obtain copies of all Permits held by QS.

3.3.2 Consistent with Section 3.2.6. notify QS in writing of the results of the review within thirty (30) days of FPL's receipt of all specifications for the Facility, including a description of any flaws perceived by FPL in the design.

3.3.3 Inspect the Facility's construction site or on-site QS data and information pertaining to the Facility during business hours upon reasonable notice.

(Continued on Sheet No. 9.033)

(Continued from Sheet No. 9.032.1)

**4. Sale of Energy and Capacity by the QS**

4.1 Consistent with the terms hereof, the QS shall sell and deliver to FPL and FPL shall purchase and receive from the QS at the Delivery Point (defined below) all of the energy and firm capacity generated by the Facility. FPL shall have the sole and exclusive right to purchase all energy and capacity produced by the Facility. The purchase and sale of energy and firm capacity pursuant to this Contract shall be a ( ) net billing arrangement or ( ) simultaneous purchase and sale arrangement; provided, however, that no such arrangement shall cause the QS to sell more energy and firm capacity than the Facility's net output. The billing methodology may be changed at the option of the QS, subject to the provisions of FPL Rate Schedule QS-2. For purposes of this Contract, Delivery Point shall be defined as either: (a) the point of interconnection between FPL's system and the transmission system of the final utility transmitting energy and firm capacity from the Facility to the FPL system, as specifically described in the applicable Wheeling Agreement, or (b) the point of interconnection between the Facility and FPL's transmission system, as specifically described in the Interconnection Agreement.

4.2 The QS shall not rely on interruptible standby service for the start up requirements (initial or otherwise) of the Facility.

4.3 The QS shall be responsible for all costs, charges and penalties associated with development and operation of the Facility.

4.4 The QS shall be responsible for all interconnection, electric losses, transmission and ancillary service arrangements and costs required to deliver, on a firm basis, the firm capacity and energy from the Facility to the Delivery Point.

**5. Committed Capacity/Capacity Delivery Date**

5.1 The QS commits to sell and deliver firm capacity to FPL at the Delivery Point, the amount of which shall be determined in accordance with this Section 5 (the "Committed Capacity"). Subject to Section 5.3 the Committed Capacity shall be \_\_\_\_\_ KW, delivery date no later than the in-service date of the Avoided Unit or as otherwise specified in Appendix E (the "Guaranteed Capacity Delivery Date").

5.2 Testing of the capacity of the Facility (each such test, a "Committed Capacity Test") shall be performed in accordance with the procedures set forth in Section 6. The Demonstration Period (defined herein) for the first Committed Capacity Test shall commence no earlier than six (6) months prior to the Capacity Delivery Date and testing must be completed by 11:59 p.m. on the date prior to the Guaranteed Delivery Date. The first Committed Capacity Test shall be deemed successfully completed when the QS demonstrates to FPL's satisfaction that the Facility can make available capacity of at least one hundred percent (100%) of the Committed Capacity set forth in Section 5.1. Subject to Section 6.1, the QS may schedule and perform up to three (3) Committed Capacity Tests to satisfy the capacity requirements of the Contract.

5.3 FPL shall have the right to require the QS, by notice no less than ten (10) business days prior to such proposed test, to validate the Committed Capacity of the Facility by means of subsequent Committed Capacity Tests as follows: (a) once per each Summer period and once per each Winter period at FPL's sole discretion, (b) at any time the QS is unable to comply with any material obligation under this Contract for a period of thirty (30) days or more in the aggregate as a consequence of an event of Force Majeure, and (c) at any time the QS fails in three consecutive months to achieve an Annual Capacity Billing Factor, as defined in Appendix B (the "ACBF"), equal to or greater than 70%. The results of any such test shall be provided to FPL within seven (7) days of the conclusion of such test. On and after the date of such requested Committed Capacity Test, and until the completion of a subsequent Committed Capacity Test, the Committed Capacity shall be deemed as the lower of the tested capacity or the Committed Capacity as set forth in Section 5.1.

5.4 Notwithstanding anything to the contrary herein, the Committed Capacity shall not exceed the amount set forth in Section 5.1 without the prior written consent of FPL, such consent not unreasonably withheld.

5.5 The "Capacity Delivery Date" shall be defined as the first calendar day immediately after the date following the last to occur of (a) the Facility's successful completion of the first Committed Capacity Test but no earlier than the commencement date for deliveries of firm capacity and energy (as such is specified in Appendix E) and (b) the satisfaction by QS of the following Delivery Date Conditions (defined below).

(Continued on Sheet No. 9.033.1)

(Continue from Sheet No. 9.033)

5.5.1 A certificate addressed to FPL from a Licensed Professional Engineer (reasonably acceptable to FPL in all respects) stating: (a) the nameplate capacity rating of the Facility at the anticipated time of commercial operation, which must be at least 94% of the Expected Nameplate Capacity Rating; (b) that the Facility is able to generate electric energy reliably in amounts expected by this Agreement and in accordance with all other terms and conditions hereof; (c) that Start-Up Testing of the Facility has been completed; and (d) that, pursuant to Section 8.4, all system protection and control and Automatic Generation Control devices are installed and operational.

5.5.2 A certificate addressed to FPL from a Licensed Professional Engineer (reasonably acceptable to FPL in all respects) stating, in conformance with the requirements of the Interconnection Agreement, that: (a) all required interconnection facilities have been constructed; (b) all required interconnection tests have been completed; and (c) the Facility is physically interconnected with the System in conformance with the Interconnection Agreement and able to deliver energy consistent with the terms of this Agreement.

5.5.3 A certificate addressed from a Licensed Professional Engineer (reasonably acceptable to FPL in all respects) stating that QS has obtained or entered into all permits and agreements with respect to the Facility necessary for construction, ownership, operation, and maintenance of the Facility (the "Required Agreements"). QS must provide copies of any or all Required Agreements requested by FPL.

5.5.4 An opinion from a law firm or attorney, registered or licensed in the State of Florida (reasonably acceptable to FPL in all respects), stating, after all appropriate and reasonable inquiry, that: (a) QS has obtained or entered into all Required Agreements; (b) neither QS nor the Facility is in violation of or subject to any liability under any applicable law; and (c) QS has duly filed and had recorded all of the agreements, documents, instruments, mortgages, deeds of trust, and other writings described in Section 9.7.

5.5.5 FPL has received the Completion/Performance Security ((a) through (e), the "Commercial Operation Conditions").

FPL shall have ten (10) Business Days after receipt either to confirm to QS that all of the Delivery Date Conditions have been satisfied or have occurred, or to state with specificity what FPL reasonably believes has not been satisfied.

5.6 The QS shall be entitled to receive capacity payments beginning on the Capacity Delivery Date, provided, the Capacity Delivery Date occurs on or before the in-service date of the Avoided Unit (or such later date permitted by FPL pursuant to the following sentence). If the Capacity Delivery Date does not occur on or before the Guaranteed Capacity Delivery Date, FPL shall be entitled to the Completion/Performance Security (as set forth in Section 9) in full, and in addition, has the right but not the obligation to allow the QS up to an additional five (5) months to achieve the Capacity Delivery Date. If the QS fails to achieve the Capacity Delivery Date either by (a) the Guaranteed Delivery Date or b) such later date as permitted by FPL, FPL shall have no obligation to make any capacity payments under this Contract and FPL will be permitted to terminate this Contract, consistent with the terms herein, without further obligations, duties or liability to the QS.

(Continue on Sheet No. 9.034)

(Continued from Sheet No. 9.033)

## 6. Testing Procedures

6.1 The Committed Capacity Test must be completed successfully within a sixty-hour period (the "Demonstration Period"), which period, including the approximate start time of the Committed Capacity Test, shall be selected and scheduled by the QS by means of a written notice to FPL delivered at least thirty (30) days prior to the start of such period. The provisions of the foregoing sentence shall not apply to any Committed Capacity Test required by FPL under any of the provisions of this Contract. FPL shall have the right to be present onsite to monitor any Committed Capacity Test required or permitted under this Contract.

6.2 Committed Capacity Test results shall be based on a test period of twenty-four (24) consecutive hours (the "Committed Capacity Test Period") at the highest sustained net KW rating at which the Facility can operate without exceeding the design operating conditions, temperature, pressures, and other parameters defined by the applicable manufacturer(s) for steady state operations at the Facility. If the QS is a REF the Committed Capacity Test shall be conducted utilizing as the sole fuel source fuels or energy sources included in the definition in Section 366.91, Florida Statutes. The Committed Capacity Test Period shall commence at the time designated by the QS pursuant to Section 6.1 or at such other time requested by FPL pursuant to Section 5.3; provided, however, that the Committed Capacity Test Period may commence earlier than such time in the event that FPL is notified of, and consents to, such earlier time.

6.3 For the avoidance of doubt, normal station service use of unit auxiliaries, including, without limitation, cooling towers, heat exchangers, and other equipment required by law, shall be in service during the Committed Capacity Test Period. Further, the QS shall affect deliveries of any quantity and quality of contracted cogenerated steam to the steam host during the Committed Capacity Test Period.

6.4 The capacity of the Facility shall be the average net capacity (generator output minus auxiliary) measured over the Committed Capacity Test Period.

6.5 The Committed Capacity Test shall be performed according to prudent industry testing procedures satisfactory to FPL for the appropriate technology of the QS.

6.6 Except as otherwise provided herein, results of any Committed Capacity Test shall be submitted to FPL by the QS within seven (7) days of the conclusion of the Committed Capacity Test.

## 7. Payment for Electricity Produced by the Facility

### 7.1 Energy

FPL agrees to pay the QS for energy produced by the Facility and delivered to the Delivery Point in accordance with the rates and procedures contained in FPL's approved Rate Schedule QS-2, attached hereto as Appendix A, as it may be amended from time to time and pursuant to the election of energy payment options as specified in Appendix E. The Parties agree that this Contract shall be subject to all of the provisions contained in Rate Schedule QS-2 as approved and on file with the FPSC.

### 7.2 Firm Capacity

FPL agrees to pay the QS for the firm capacity described in Section 5 in accordance with the rates and procedures contained in Rate Schedule QS-2, attached hereto as Appendix A, as it may be amended and approved from time to time by the FPSC, and pursuant to the election of a capacity payment option as specified in Appendix E. The QS understands and agrees that capacity payments will be made under the early capacity payment options only if the QS has achieved the Capacity Delivery Date and is delivering firm capacity and energy to FPL. Once elected by the QS, the capacity payment option cannot be changed during the term of this Contract.

### 7.3 Payments

Payments due the QS will be made monthly and normally by the twentieth business day following the end of the billing period. A statement of the kilowatt-hours sold by the QS and the applicable avoided energy rate at which payments are being made shall accompany the payment to the QS.

(Continued on Sheet No. 9.035)

(Continued from Sheet No. 9.034)

**8. Electricity Production and Plant Maintenance Schedule**

8.1 During the term of this Contract, no later than sixty (60) days prior to the Capacity Delivery Date and prior to April 1 of each calendar year thereafter, the QS shall submit to FPL in writing a detailed plan of: (a) the amount of firm capacity and energy to be generated by the Facility and delivered to the Delivery Point for each month of the following calendar year, and (b) the time, duration and magnitude of any scheduled maintenance period(s) and any anticipated reductions in capacity.

8.2 By October 31 of each calendar year, FPL shall notify the QS in writing whether the requested scheduled maintenance periods in the detailed plan are acceptable. If FPL objects to any of the requested scheduled maintenance periods, FPL shall advise the QS of the time period closest to the requested period(s) when the outage(s) can be scheduled. The QS shall schedule maintenance outages only during periods approved by FPL, such approval not unreasonably withheld. Once the schedule for maintenance has been established and approved by FPL, either Party may request a subsequent change in such schedule and, except when such event is due to Force Majeure, request approval for such change from the other Party, such approval not to be unreasonably withheld or delayed. Scheduled maintenance outage days shall be limited to seven (7) days per calendar year unless the manufacturer's recommendation of maintenance outage days for the technology and equipment used by the Facility exceeds such 7 day period, provided, such number of days is considered reasonable by prudent industry standards and does not exceed two (2) fourteen (14) day intervals, one in the Spring and one in the Fall, in any calendar year. The scheduled maintenance outage days applicable for the QS are \_\_\_\_\_ days in the Spring and \_\_\_\_\_ days in the Fall of each calendar year, provided the conditions specified in the previous sentence are satisfied. In no event shall maintenance periods be scheduled during the following periods: June 1 through and including October 31st and December 1 through and including February 28 (or 29<sup>th</sup> as the case may be).

8.3 The QS shall comply with reasonable requests by FPL regarding day-to-day and hour-by-hour communication between the Parties relative to electricity production and maintenance scheduling.

**8.4 Dispatch and Control**

8.4.1 The power supplied by the QS hereunder shall be in the form of three-phase 60 Hertz alternating current, at a nominal operating voltage of \_\_\_\_\_,000 volts ( \_\_\_\_\_ kV) and power factor dispatchable and controllable in the range of 85% lagging to 85% leading as measured at the Delivery Point to maintain system operating parameters, as specified by FPL.

8.4.2 At all times during the term of this Contract, the QS shall operate and maintain the Facility: (a) in such a manner as to ensure compliance with its obligations hereunder, in accordance with prudent engineering and operating practices and applicable law, and (b) with all system protective equipment in service whenever the Facility is connected to, or is operated in parallel with, FPL's system. The QS shall install at the Facility those system protection and control devices necessary to ensure safe and protected operation of all energized equipment during normal testing and repair. The QS shall have qualified personnel test and calibrate all protective equipment at regular intervals in accordance with good engineering and operating practices. A unit functional trip test shall be performed after each overhaul of the Facility's turbine, generator or boilers and the results shall be provided to FPL prior to returning the Facility to service. The specifics of the unit functional trip test will be consistent with good engineering and operating practices.

8.4.3 If the Facility is separated from the FPL system for any reason, under no circumstances shall the QS reconnect the Facility into FPL's system without first obtaining FPL's prior written approval.

8.4.4 During the term of this Contract, the QS shall employ qualified personnel for managing, operating and maintaining the Facility and for coordinating such with FPL. If the Facility has a Committed Capacity greater than 10 MW then, the QS shall ensure that operating personnel are on duty at all times, twenty-four (24) hours a calendar day and seven (7) calendar days a week. If the Facility has a Committed Capacity equal to or less than 10 MW then the QS shall ensure that operating personnel are on duty at least eight (8) hours per day from 8 AM EST to 5 PM EST from Monday to Friday, with an operator on call at all other hours.

8.4.5 FPL shall at all times be excused from its obligation to purchase and receive energy and capacity hereunder, and FPL shall have the ability to require the QS to curtail or reduce deliveries of energy, to the extent necessary (a) to maintain the reliability and integrity of any part of FPL's system, (b) in the event that FPL determines that a failure to do so is likely to endanger life or property, or (c) is likely to result in significant disruption of electric service to FPL's customers. FPL shall give the QS prior notice, if practicable, of its intent to refuse, curtail or reduce FPL's acceptance of energy and firm capacity pursuant to this Section and will act to minimize the frequency and duration of such occurrences.

(Continued on Sheet No. 9.036)

(Continued from Sheet No. 9.035)

8.4.6 After providing notice to the QS, FPL shall not be required to purchase or receive energy from the QS during any period in which, due to operational circumstances, the purchase or receipt of such energy would result in FPL's incurring costs greater than those which it would incur if it did not make such purchases. An example of such an occurrence would be a period during which the load being served is such that the generating units on line are base load units operating at their minimum continuous ratings and the purchase of additional energy would require taking a base load unit off the line and replacing the remaining load served by that unit with peaking-type generation. FPL shall give the QS as much prior notice as practicable of its intent not to purchase or receive energy and firm capacity pursuant to this Section.

8.4.7 If the Facility has a Committed Capacity less than 75 MW, control, scheduling and dispatch of firm capacity and energy shall be the responsibility of the QS. If the Facility has a Committed Capacity greater than or equal to 75 MW, then control, scheduling and dispatch of firm capacity and energy shall be the responsibility of the QS, except during a "Dispatch Hour", i.e., any clock hour for which FPL requests the delivery of such capacity and energy. During any Dispatch Hour: (a) control of the Facility will either be by Seller's manual control under the direction of FPL (whether orally or in writing) or by Automatic Generation Control by FPL's system control center as determined by FPL, and (b) FPL may request that the real power output be at any level up to the Committed Capacity of the Facility, provided, in no event shall FPL require the real power output of the Facility to be below the Facility's Minimum Load without decommitting the Facility. The Facility shall deliver the capacity and energy requested by FPL within \_\_\_\_\_ minutes, taking into account the operating limitations of the generating equipment as specified by the manufacturer, provided such time period specified herein is considered reasonable by prudent industry standards for the technology and equipment being utilized and assuming the Facility is operating at or above its Minimum Load. Start-up time from Cold Shutdown and Facility Turnaround time from Hot to Hot will be taken into consideration provided such are reasonable and consistent with prudent industry practices for the technology and equipment being utilized. The Facility's Operating Characteristics have been provided by the QS and are set forth in Appendix D, Section IV of Rate Schedule QS-2.

8.4.8 If the Facility has a Committed Capacity of less than 75 MW, FPL may require during certain periods, by oral, written, or electronic notification that the QS cause the Facility to reduce output to a level below the Committed Capacity but not lower than the Facility's Minimum Load. FPL shall provide as much notice as practicable, normally such notice will be of at least four (4) hours. The frequency of such request shall not exceed eighteen (18) times per calendar year and the duration of each request shall not exceed four (4) hours.

8.4.9 FPL's exercise of its rights under this Section 8 shall not give rise to any liability or payment obligation on the part of FPL, including any claim for breach of contract or for breach of any covenant of good faith and fair dealing.

## 9. Completion/Performance Security

The security contemplated by this Section 9 constitutes security for, but is not a limitation of, QS's obligations hereunder and shall not be FPL's exclusive remedy for QS's failure to perform in accordance with this Agreement.

9.1 As security for the achievement of the Guaranteed Capacity Delivery Date and satisfactory performance of its obligations hereunder, the QS shall provide FPL either: (a) an unconditional, irrevocable, standby letter of credit(s) with an expiration date no earlier than the end of the first (1st) anniversary of the Capacity Delivery Date (or the next business day thereafter), issued by a U.S. commercial bank or the U.S. branch of a foreign bank having a Credit Rating of A- or higher by S&P or A3 or higher by Moody's (a "Qualified Issuer"), in form and substance acceptable to FPL (including provisions (i) permitting partial and full draws and (ii) permitting FPL to draw in full if such letter of credit is not renewed or replaced as required by the terms hereof at least thirty (30) business days prior to its expiration date) ("Letter of Credit"); (b) a bond, issued by a financially sound Company acceptable to FPL and in a form and substance acceptable to FPL, ("Bond"); or (c) a cash collateral deposited with FPL ("Cash Collateral") (any of (a), (b), or (c), the "Completion/Performance Security"). Completion/Performance Security shall be provided in the amount and by the date listed below:

(a) \$50.00 per kW (for the number of kW of Committed Capacity set forth in Section 5.1) to be delivered to FPL within five (5) business days of the Effective Date; and

(b) \$100.00 per kW (for the number of kW of Committed Capacity set forth in Section 5.1) to be delivered to FPL two years before the Guaranteed Capacity Delivery Date.

"Credit Rating" means with respect to any entity, on any date of determination, the respective ratings then assigned to such entity's unsecured, senior long-term debt or deposit obligations (not supported by third party credit enhancement) by S&P, Moody's or other specified rating agency or agencies or if such entity does not have a rating for its unsecured, senior long-term debt or deposit obligations, then the rating assigned to such entity as its "corporate credit rating" by S&P.

(Continued on Sheet No. 9.037)

(Continued from Sheet No. 9.036)

“Moody’s” means Moody’s Investors Service, Inc. or its successor.

“S&P” means Standard & Poor’s Ratings Group (a division of The McGraw-Hill Companies, Inc.) or its successor.

9.2 The specific security instrument provided for purposes of this Contract is:

- ( ) Letter of Credit.
- ( ) Bond.
- ( ) Cash Collateral.

9.3 FPL shall have the right to monitor (a) the financial condition of the issuer of a Letter of Credit in the event any Letter of Credit is provided by the QS, and (b) the insurer, in the case of any Bond. In the event the issuer of a Letter of Credit no longer qualifies as Qualified Issuer or the issuer of a Bond is no longer financially sound, FPL may require the QS to replace the Letter of Credit or the Bond, as applicable. Such replacement Letter of Credit or bond must be issued by a Qualified Issuer or a financially sound issuer, as applicable, within ten (10) business days following written notification to the QS of the requirement to replace. Failure by the QS to comply with the requirements of this Section 9.3 shall be grounds for FPL to draw in full on the existing Letter of Credit or bond and to exercise any other remedies it may have hereunder.

9.4 Notwithstanding the foregoing provisions of this Section 9, pursuant to FPSC Rule 25-17.091(4), F.A.C., a QS qualifying as a “Solid Waste Facility” pursuant to Section 377.709(3) or (5), F.S., respectively, may use an unsecured written commitment or promise to pay in a form reasonably acceptable to FPL, by the local government which owns the Facility or on whose behalf the QS operates the Facility, to secure its obligation to achieve on a timely basis the Capacity Delivery Date and the satisfactory performance of its obligations hereunder.

9.5 FPL shall be entitled to draw the Completion/Performance Security to satisfy any obligation or liability of QS arising pursuant to this Contract.

9.5.1 If the QS fails to achieve the Capacity Delivery Date on or before the in-service date of the Avoided Unit or such later date as permitted by FPL pursuant to Section 5.6, FPL shall be entitled immediately to receive, draw upon, or retain, as the case may be, one-hundred (100%) of the Completion/ Performance Security as liquidated damages free from any claim or right of any nature whatsoever of the QS, including any equity or right of redemption by the QS. The Parties acknowledge that the injury that FPL will suffer as a result of delayed availability of Committed Capacity and energy is difficult to ascertain and that FPL may accept such sums as liquidated damages and resort to any other remedies which may be available to it under law or in equity.

9.5.2 In the event that FPL requires the QS to perform one or more Committed Capacity Test(s) at any time on or before the first anniversary of the Capacity Delivery Date pursuant to Section 5.3 and, in connection with any such Committed Capacity Test(s), the QS fails to demonstrate a Capacity of at least one-hundred percent (100%) of the Committed Capacity set forth in Section 5.1, FPL shall be entitled immediately to receive, draw upon, or retain, as the case may be, one-hundred percent (100%) of the Completion/Performance Security as liquidated damages free from any claim or right of any nature whatsoever of the QS, including any equity or right of redemption by the QS.

9.5.3 QS shall promptly, but in no event more than five (5) business days following any draws on the Completion/Performance Security, replenish the Completion/Performance Security to the amounts required herein.

9.6 The QS, as the Pledgor of the Completion/Performance Security, hereby pledges to FPL, as the secured Party, as security for the achievement of the Capacity Delivery Date and satisfactory performance of its obligations hereunder, and grants to FPL a first priority continuing security interest in, lien on and right of set-off against all Completion/Performance Security transferred to or received by FPL hereunder. Upon the transfer or return by FPL to the QS of Completion/Performance Security, the security interest and lien granted hereunder on that Completion/Performance Security will be released immediately and, to the extent possible, without any further action by either party.

(Continued on Sheet No. 9.038)

(Continued from Sheet No. 9.037)

9.7 In lieu of any interest, dividends or other amounts paid or deemed to have been paid with respect to Cash Collateral held by FPL (all of which may be retained by FPL), FPL will transfer to the QS on a monthly basis the Interest Amount, as calculated by FPL.

“Interest Amount” means, with respect to each monthly period, the aggregate sum of the amounts of interest calculated for each day in that monthly period on the principal amount of Cash Collateral held by FPL on that day, determined by FPL for each such day as follows:

- (x) the amount of that Cash Collateral on that day; multiplied by
- (y) the Interest Rate in effect for that day; divided by
- (z) 360.

“Interest Rate” means: the Federal Funds Overnight rate as from time to time in effect.

“Federal Funds Overnight Rate” means, for the relevant determination date, the rate opposite the caption “Federal Funds (Effective)” as set forth for that day in the weekly statistical release designated as H.15 (519), or any successor publication, published by the Board of Governors of the Federal Reserve System. If on the determination date such rate is not yet published in H.15 (519), the rate for that date will be the rate set in Composite 3:30 P.M. Quotations for U.S. Government Securities for that day under the caption “Federal Funds/Effective Rate.” If on the determination date such rate is not yet published in either H.15 (519) or Composite 3:30 P.M. Quotations for U.S. Government Securities, the rate for that date will be determined as if the Parties had specified “USD-Federal Funds-Reference Dealers” as the applicable rate.

**10. Termination Fee**

10.1 In the event that the QS receives capacity payments pursuant to Option B, Option C, Option D or Option E (as such options are defined in Appendix A and elected by the QS in Appendix E) or receives energy payments pursuant to the Fixed Firm Energy Payment Option (as such option is defined in Appendix A and elected by the QS in Appendix E) then, upon the termination of this Contract, the QS shall owe and be liable to FPL for a termination fee calculated in accordance with Appendix C (the “Termination Fee”). The QS’s obligation to pay the Termination Fee shall survive the termination of this Contract. FPL shall provide the QS, on a monthly basis, a calculation of the Termination Fee.

10.1.1 The Termination Fee shall be secured (with the exception of governmental solid waste facilities covered by FPSC Rule 25-17.091 in which case the QS may use an unsecured written commitment or promise to pay, in a form reasonably acceptable to FPL, by the local government which owns the Facility or on whose behalf the QS operates the Facility, to secure its obligation to pay the Termination Fee) by the QS by: (a) an unconditional, irrevocable, standby letter(s) of credit issued by Qualified Issuer in form and substance acceptable to FPL (including provisions (a) permitting partial and full draws and (b) permitting FPL to draw upon such letter of credit, in full, if such letter of credit is not renewed or replaced at least thirty (30) business days prior to its expiration date, (“Termination Fee Letter of Credit”); (b) a bond, issued by a financially sound Company and in a form and substance acceptable to FPL, (“Termination Fee Bond”); or (c) a cash collateral deposit with FPL (“Termination Fee Cash Collateral”) (any of ( a ), (b), or (c), the “Termination Security”).

10.1.2 The specific security instrument selected by the QS for purposes of this Contract is:

- ( ) Termination Fee Letter of Credit
- ( ) Termination Fee Bond
- ( ) Termination Fee Cash Collateral

10.1.3 FPL shall have the right to monitor the financial condition of (i) the issuer of a Termination Fee Letter of Credit in the case of any Termination Fee Letter of Credit and (ii) the insurer(s), in the case of any Termination Fee Bond. In the event the issuer of a Termination Fee Letter of Credit is no longer a Qualified Issuer or the issuer of a Termination Fee Bond is no longer financially sound, FPL may require the QS to replace the Termination Fee Letter of Credit or the Termination Fee Bond, as applicable. In the event that FPL notifies the QS that it requires such a replacement, the replacement Termination Fee Letter of Credit or Termination Fee Bond, as applicable, must be issued by a Qualified Issuer or financially sound company within ten (10) business days following such notification. Failure by the QS to comply with the requirements of this Section 10.1.2 shall be grounds for FPL to draw in full on any existing Termination Fee Letter of Credit or Termination Fee Bond and to exercise any other remedies it may have hereunder.

(Continued on Sheet No. 9.039)

(Continued from Sheet No. 9.038)

10.1.4 After the close of each calendar quarter (March 31, June 30, September 30, and December 31) occurring subsequent to the Capacity Delivery Date, the QS shall provide to FPL within ten (10) business days of the close of such calendar quarter with written assurance and documentation (the "Security Documentation"), in form and substance acceptable to FPL, that the amount of the most recently provided Termination Security is sufficient to cover the balance of the Termination Fee. In addition to the foregoing, at any time during the term of this Contract, FPL shall have the right to request, and the QS shall be obligated to deliver within five (5) business days of such request, such Security Documentation. Failure by the QS to comply with the requirements of this Section 10.1.3 shall be grounds for FPL to draw in full on any existing Termination Fee Letter of Credit or Termination Fee Bond or to retain any Termination Fee Cash Collateral, and to exercise any other remedies it may have hereunder to be applied against any Termination Fee that may be due and owing to FPL or that may in the future be due and owing to FPL.

10.1.5 Upon any termination of this Contract following the Capacity Delivery Date, FPL shall be entitled to receive (and in the case of the Termination Fee Letter of Credit or Termination Fee Bond, draw upon such Termination Fee Letter of Credit or Termination Fee Bond) and retain one-hundred percent (100%) of the Termination Security to be applied against any Termination Fee that may be due and owing to FPL or that may in the future be due and owing to FPL. FPL will transfer to the QS any proceeds and Termination Security remaining after liquidation, set-off and/or application under this Article after satisfaction in full of all amounts payable by the QS with respect to any Termination Fee or other obligations due to FPL; the QS in all events will remain liable for any amounts remaining unpaid after any liquidation, set-off and/or application under this Article.

10.2 The QS, as the Pledgor of the Termination Security, hereby pledges to FPL, as the secured Party, as security for the Termination Fee, and grants to FPL a first priority continuing security interest in, lien on and right of set-off against all Termination Security transferred to or received by FPL hereunder. Upon the transfer or return by FPL to the QS of Termination Security, the security interest and lien granted hereunder on that Termination Security will be released immediately and, to the extent possible, without any further action by either party.

10.3 In lieu of any interest, dividends or other amounts paid or deemed to have been paid with respect to Termination Fee Cash Collateral held by FPL (all of which may be retained by FPL), FPL will transfer to the QS on a monthly basis the Interest Amount, Pursuant to Section 9.7.

## **11. Performance Factor**

FPL desires to provide an incentive to the QS to operate the Facility during on-peak and off-peak periods in a manner which approximates the projected performance of FPL's Avoided Unit. A formula to achieve this objective is attached as Appendix B.

(Continued on Sheet No. 9.040)

(Continued from Sheet No. 9.039)

**12. Default**

Notwithstanding the occurrence of any Force Majeure as described in Section 16, each of the following shall constitute an Event of Default:

- 12.1 The QS fails to meet the applicable requirements specified in Section 1 of this Contract.;
- 12.2 The QS changes or modifies the Facility from that provided in Section 1 with respect to its type, location, technology or fuel source, without prior written approval from FPL.;
- 12.3 After the Capacity Delivery Date, the Facility fails, for twelve (12) consecutive months, to maintain an Annual Capacity Billing Factor, as described in Appendix B, of at least 70%.;
- 12.4 The QS fails to comply with any of the provisions of Section 9.0 hereof (Completion/Performance Security).
- 12.5 The QS fails to comply with any of the provisions of Section 10.0 hereof (Termination Security).;
- 12.6 The QS ceases the conduct of active business; or if proceedings under the federal bankruptcy law or insolvency laws shall be instituted by or for or against the QS or if a receiver shall be appointed for the QS or any of its assets or properties; or if any part of the QS's assets shall be attached, levied upon, encumbered, pledged, seized or taken under any judicial process, and such proceedings shall not be vacated or fully stayed within 30 days thereof; or if the QS shall make an assignment for the benefit of creditors, or admit in writing its inability to pay its debts as they become due.
- 12.7 The QS fails to give proper assurance acceptable to FPL of adequate performance as specified under this Contract within 30 days after FPL, with reasonable grounds for insecurity, has requested in writing such assurance-.
- 12.8 The QS materially fails to perform as specified under this Contract, including, but not limited to, the QS's obligations under any part of Sections 8, and 18.
- 12.9 The QS fails to achieve the permitting, licensing, certification, and all federal, state and local governmental environmental and licensing approvals required to initiate construction of the Facility by no later than one year prior to Guaranteed Capacity Date.
- 12.10 The QS fails to comply with any of the provisions of Section 18.3 hereof (Project Management).
- 12.11 Any of the representations or warranties made by the QS in this Contract is false or misleading in any material respect.
- 12.12 The occurrence of an event of default by the QS under the Interconnection Agreement or any applicable Wheeling Agreement;
- 12.13 The QS fails to satisfy its obligations under Section 18.14 hereof (Assignment).
- 12.14 The QS fails to deliver to FPL in accordance with this Contract any energy or firm capacity required to be delivered hereunder or the delivery or sale of any such energy and firm capacity to an entity other than FPL.
- 12.15 The QS fails to perform any material covenant or obligation under this Contract not specifically mentioned in this Section 12.
- 12.16 If at any time after the Capacity Delivery Date, the QS reduces the Committed Capacity due to an event of Force Majeure and fails to repair the Facility and reset the Committed Capacity to the level set forth in Section 5.1 (as such level may be reduced by Section 5.3) within twelve (12) months following the occurrence of such event of Force Majeure.

(Continued on Sheet No. 9.041)

(Continued from Sheet No. 9.040)

### 13. FPL's Rights in the Event of Default

13.1 Upon the occurrence of any of the Events of Default in Section 12, FPL may:

- (a) terminate this Contract, without penalty or further obligation, except as set forth in Section 13.2, by written notice to the QS, and offset against any payment(s) due from FPL to the QS, any monies otherwise due from the QS to FPL;
- (b) draw on the Completion/Performance Security pursuant to Section 9 or collect the Termination Fee pursuant to Section 10 as applicable; and
- (c) exercise any other remedy(ies) which may be available to FPL at law or in equity.

13.2 In the case of an Event of Default, the QS recognizes that any remedy at law may be inadequate because this Contract is unique and/or because the actual damages of FPL may be difficult to reasonably ascertain. Therefore, the QS agrees that FPL shall be entitled to pursue an action for specific performance, and the QS waives all of its rights to assert as a defense to such action that FPL's remedy at law is adequate.

13.3 Termination shall not affect the liability of either party for obligations arising prior to such termination or for damages, if any, resulting from any breach of this Contract.

### 14. Indemnification/Limits

14.1 FPL and the QS shall each be responsible for its own facilities. FPL and the QS shall each be responsible for ensuring adequate safeguards for other FPL customers, FPL's and the QS's personnel and equipment, and for the protection of its own generating system. Subject to section 2.7 Indemnity to Company, or section 2.71 Indemnity to Company – Governmental, FPL's General Rules and Regulations of Tariff Sheet No.6.020 each party (the "Indemnifying Party") agrees, to the extent permitted by applicable law, to indemnify, pay, defend, and hold harmless the other party (the "Indemnified Party") and its officers, directors, employees, agents and contractors (hereinafter called respectively, "FPL Entities" and "QS Entities") from and against any and all claims, demands, costs, or expenses for loss, damage, or injury to persons or property of the Indemnified Party (or to third parties) caused by, arising out of, or resulting from: (a) a breach by the Indemnifying Party of its covenants, representations, and warranties or obligations hereunder; (b) any act or omission by the Indemnifying Party or its contractors, agents, servants or employees in connection with the installation or operation of its generation system or the operation thereof in connection with the other Party's system; (c) any defect in, failure of, or fault related to, the Indemnifying Party's generation system; (d) the negligence or willful misconduct of the Indemnifying Party or its contractors, agents, servants or employees; or (e) any other event, act or incident, including the transmission and use of electricity, that is the result of, or proximately caused by, the Indemnifying Party or its contractors, agents, servants or employees.

14.2 Payment by an Indemnified Party will not be a condition precedent to the obligations of the Indemnifying Party under Section 14. No Indemnified Party under Section 14 shall settle any claim for which it claims indemnification hereunder without first allowing the Indemnifying Party the right to defend such a claim. The Indemnifying Party shall have no obligations under Section 14 in the event of a breach of the foregoing sentence by the Indemnified Party. Section 14 shall survive termination of this Agreement.

14.3 Limitation on Consequential, Incidental and Indirect Damages. TO THE FULLEST EXTENT PERMITTED BY LAW, NEITHER THE QS NOR FPL, NOR THEIR RESPECTIVE OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, MEMBERS, PARENTS, SUBSIDIARIES OR AFFILIATES, SUCCESSORS OR ASSIGNS, OR THEIR RESPECTIVE OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, MEMBERS, PARENTS, SUBSIDIARIES OR AFFILIATES, SUCCESSORS OR ASSIGNS, SHALL BE LIABLE TO THE OTHER PARTY OR THEIR RESPECTIVE OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, MEMBERS, PARENTS, SUBSIDIARIES OR AFFILIATES, SUCCESSORS OR ASSIGNS, FOR CLAIMS, SUITS, ACTIONS OR CAUSES OF ACTION FOR INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE, MULTIPLE OR CONSEQUENTIAL DAMAGES CONNECTED WITH OR RESULTING FROM PERFORMANCE OR NON-PERFORMANCE OF THIS CONTRACT, OR ANY ACTIONS UNDERTAKEN IN CONNECTION WITH OR RELATED TO THIS CONTRACT, INCLUDING WITHOUT LIMITATION, ANY SUCH DAMAGES WHICH ARE BASED UPON CAUSES OF ACTION FOR BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE AND MISREPRESENTATION), BREACH OF WARRANTY, STRICT LIABILITY, STATUTE, OPERATION OF LAW, UNDER ANY INDEMNITY PROVISION OR ANY OTHER THEORY OF RECOVERY. TO THE EXTENT ANY DAMAGES REQUIRED TO BE PAID HEREUNDER ARE LIQUIDATED, THE PARTIES ACKNOWLEDGE THAT THE DAMAGES ARE DIFFICULT OR IMPOSSIBLE TO DETERMINE, THAT OTHERWISE OBTAINING AN ADEQUATE REMEDY IS INCONVENIENT, AND THAT THE LIQUIDATED DAMAGES CONSTITUTE A REASONABLE APPROXIMATION OF THE ANTICIPATED HARM OR LOSS. IF NO REMEDY OR MEASURE OF DAMAGES IS EXPRESSLY PROVIDED HEREIN, THE OBLIGOR'S LIABILITY SHALL BE LIMITED TO DIRECT DAMAGES ONLY, AND SUCH DIRECT DAMAGES SHALL BE THE SOLE AND EXCLUSIVE MEASURE OF DAMAGES AND

(Continued on Sheet No. 9.042)

(Continued from Sheet No. 9.041)

ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED; PROVIDED, HOWEVER, THE PARTIES AGREE THAT THE FOREGOING LIMITATIONS WILL NOT IN ANY WAY LIMIT LIABILITY OR DAMAGES UNDER ANY THIRD PARTY CLAIMS OR THE LIABILITY OF A PARTY WHOSE ACTIONS GIVING RISE TO SUCH LIABILITY CONSTITUTE GROSS NEGLIGENCE OR WILLFUL MISCONDUCT. THE PROVISIONS OF THIS SECTION SHALL APPLY REGARDLESS OF FAULT AND SHALL SURVIVE TERMINATION, CANCELLATION, SUSPENSION, COMPLETION OR EXPIRATION OF THIS CONTRACT. NOTHING CONTAINED IN THIS AGREEMENT SHALL BE DEEMED TO BE A WAIVER OF A PARTY'S RIGHT TO SEEK INJUNCTIVE RELIEF.

## 15. Insurance

15.1 The QS shall procure or cause to be procured, and shall maintain throughout the entire term of this Contract, a policy or policies of liability insurance issued by an insurer acceptable to FPL on a standard "Insurance Services Office" commercial general liability form (such policy or policies, collectively, the "QS Insurance"). A certificate of insurance shall be delivered to FPL at least fifteen (15) calendar days prior to the start of any interconnection work. At a minimum, the QS Insurance shall contain (a) an endorsement providing coverage, including products liability/completed operations coverage for the term of this Contract, and (b) a broad form contractual liability endorsement covering liabilities (i) which might arise under, or in the performance or nonperformance of, this Contract and the Interconnection Agreement, or (ii) caused by operation of the Facility or any of the QS's equipment or by the QS's failure to maintain the Facility or the QS's equipment in satisfactory and safe operating condition. Effective at least fifteen (15) calendar days prior to the synchronization of the Facility with FPL's system, the QS Insurance shall be amended to include coverage for interruption or curtailment of power supply in accordance with industry standards. Without limiting the foregoing, the QS Insurance must be reasonably acceptable to FPL. Any premium assessment or deductible shall be for the account of the QS and not FPL.

15.2 The QS Insurance shall have a minimum limit of one million dollars (\$1,000,000) per occurrence, combined single limit, for bodily injury (including death) or property damage.

15.3 In the event that such insurance becomes totally unavailable or procurement thereof becomes commercially impracticable, such unavailability shall not constitute an Event of Default under this Contract, but FPL and the QS shall enter into negotiations to develop substitute protection which the Parties in their reasonable judgment deem adequate.

15.4 To the extent that the QS Insurance is on a "claims made" basis, the retroactive date of the policy(ies) shall be the effective date of this Contract or such other date as may be agreed upon to protect the interests of the FPL Entities and the QS Entities. Furthermore, to the extent the QS Insurance is on a "claims made" basis, the QS's duty to provide insurance coverage shall survive the termination of this Contract until the expiration of the maximum statutory period of limitations in the State of Florida for actions based in contract or in tort. To the extent the QS Insurance is on an "occurrence" basis, such insurance shall be maintained in effect at all times by the QS during the term of this Contract.

15.5 The QS Insurance shall provide that it may not be cancelled or materially altered without at least thirty (30) calendar days' written notice to FPL. The QS shall provide FPL with a copy of any material communication or notice related to the QS Insurance within ten (10) business days of the QS's receipt or issuance thereof.

15.6 The QS shall be designated as the named insured and FPL shall be designated as an additional named insured under the QS Insurance. The QS Insurance shall be endorsed to be primary to any coverage maintained by FPL.

## 16. Force Majeure

Force Majeure is defined as an event or circumstance that is not within the reasonable control of, or the result of the negligence of, the affected party, and which, by the exercise of due diligence, the affected party is unable to overcome, avoid, or cause to be avoided in a commercially reasonable manner. Such events or circumstances may include, but are not limited to, acts of God, war, riot or insurrection, blockades, embargoes, sabotage, epidemics, explosions and fires not originating in the Facility or caused by its operation, hurricanes, floods, strikes, lockouts or other labor disputes, difficulties (not caused by the failure of the affected party to comply with the terms of a collective bargaining agreement), or actions or restraints by court order or governmental authority or arbitration award. Force Majeure shall not include (a) the QS's ability to sell capacity and energy to another market at a more advantageous price; (b) equipment breakdown or inability to use equipment caused by its design, construction, operation, maintenance or inability to meet regulatory standards, or otherwise caused by an event originating in the Facility; (c) a failure of performance of any other entity, including any entity providing electric transmission service to the QS, except to the extent that such failure was caused by an event that would otherwise qualify as a Force Majeure event; (d) failure of the QS to timely apply for or obtain permits.

(Continued on Sheet No. 9.043)

(Continued from Sheet No. 9.042)

16.1 Except as otherwise provided in this Contract, each party shall be excused from performance when its nonperformance was caused, directly or indirectly by an event of Force Majeure.

16.2 In the event of any delay or nonperformance resulting from an event of Force Majeure, the party claiming Force Majeure shall notify the other party in writing within two (2) business days of the occurrence of the event of Force Majeure, of the nature, cause, date of commencement thereof and the anticipated extent of such delay, and shall indicate whether any deadlines or date(s), imposed hereunder may be affected thereby. The suspension of performance shall be of no greater scope and of no greater duration than the cure for the Force Majeure requires. A party claiming Force Majeure shall not be entitled to any relief therefore unless and until conforming notice is provided. The party claiming Force Majeure shall notify the other party of the cessation of the event of Force Majeure or of the conclusion of the affected party's cure for the event of Force Majeure, in either case within two (2) business days thereof.

16.3 The party claiming Force Majeure shall use its best efforts to cure the cause(s) preventing its performance of this Contract; provided, however, the settlement of strikes, lockouts and other labor disputes shall be entirely within the discretion of the affected party, and such party shall not be required to settle such strikes, lockouts or other labor disputes by acceding to demands which such party deems to be unfavorable.

16.4 If the QS suffers an occurrence of an event of Force Majeure that reduces the generating capability of the Facility below the Committed Capacity, the QS may, upon notice to FPL, temporarily adjust the Committed Capacity as provided in Sections 16.5 and 16.6. Such adjustment shall be effective the first calendar day immediately following FPL's receipt of the notice or such later date as may be specified by the QS. Furthermore, such adjustment shall be the minimum amount necessitated by the event of Force Majeure.

16.5 If the Facility is rendered completely inoperative as a result of Force Majeure, the QS shall temporarily set the Committed Capacity equal to 0 KW until such time as the Facility can partially or fully operate at the Committed Capacity that existed prior to the Force Majeure. If the Committed Capacity is 0 KW, FPL shall have no obligation to make capacity payments hereunder.

16.6 If, at any time during the occurrence of an event of Force Majeure or during its cure, the Facility can partially or fully operate, then the QS shall temporarily set the Committed Capacity at the maximum capability that the Facility can reasonably be expected to operate.

16.7 Upon the cessation of the event of Force Majeure or the conclusion of the cure for the event of Force Majeure, the Committed Capacity shall be restored to the Committed Capacity that existed immediately prior to the Force Majeure. Notwithstanding any other provision of this Contract, upon such cessation or cure, FPL shall have the right to require a Committed Capacity Test to demonstrate the Facility's compliance with the requirements of this section 16.7. Any Committed Capacity Test required by FPL under this Section shall be additional to any Committed Capacity Test under Section 5.3.

16.8 During the occurrence of an event of Force Majeure and a reduction in Committed Capacity under Section 16.4, all Monthly Capacity Payments shall reflect, pro rata, the reduction in Committed Capacity, and the Monthly Capacity Payments will continue to be calculated in accordance with the pay-for-performance provisions in Appendix B.

16.9 The QS agrees to be responsible for and pay the costs necessary to reactivate the Facility and/or the interconnection with FPL's system if the same is (are) rendered inoperable due to actions of the QS, its agents, or Force Majeure events affecting the QS, the Facility or the interconnection with FPL. FPL agrees to reactivate, at its own cost, the interconnection with the Facility in circumstances where any interruptions to such interconnections are caused by FPL or its agents.

## **17. Representations, Warranties, and Covenants of QS**

The QS represents and warrants that as of the Effective Date and for the term of this Contract:

### **17.1 Organization, Standing and Qualification**

The QS is a \_\_\_\_\_ (corporation, partnership, or other, as applicable) duly organized and validly existing in good standing under the laws of \_\_\_\_\_ and has all necessary power and authority to carry on its business as presently conducted, to own or hold under lease its properties and to enter into and perform its obligations under this Contract and all other related documents and agreements to which it is or shall be a Party. The QS is duly qualified or licensed to do business in the State of Florida and in all other jurisdictions wherein the nature of its business and operations or the character of the properties owned or leased by it makes such qualification or licensing necessary and where the failure to be so qualified or licensed would impair its ability to perform its obligations under this Contract or would result in a material liability to or would have a material adverse effect on FPL.

(Continued on Sheet No. 9.044)

(Continued from Sheet No. 9.043)

#### 17.2 Due Authorization, No Approvals, No Defaults, etc.

Each of the execution, delivery and performance by the QS of this Contract has been duly authorized by all necessary action on the part of the QS, does not require any approval, except as has been heretofore obtained, of the \_\_\_\_\_ (shareholders, partners, or others, as applicable) of the QS or any consent of or approval from any trustee, lessor or holder of any indebtedness or other obligation of the QS, except for such as have been duly obtained, and does not contravene or constitute a default under any law, the \_\_\_\_\_ (articles of incorporation, bylaws, or other as applicable) of the QS, or any agreement, judgment, injunction, order, decree or other instrument binding upon the QS, or subject the Facility or any component part thereof to any lien other than as contemplated or permitted by this Contract. This Contract constitutes QS's legal, valid and binding obligation, enforceable against it in accordance with the terms hereof, except as such enforceability may be limited by applicable bankruptcy laws from time to time in effect that affect creditors' rights generally or by general principles of equity (regardless of whether such enforcement is considered in equity or at law).

#### 17.3 Compliance with Laws

The QS has knowledge of all laws and business practices that must be followed in performing its obligations under this Contract. The QS is in compliance with all laws, except to the extent that failure to comply therewith would not, in the aggregate, have a material adverse effect on the QS or FPL.

#### 17.4 Governmental Approvals

Except as expressly contemplated herein, neither the execution and delivery by the QS of this Contract, nor the consummation by the QS of any of the transactions contemplated thereby, requires the consent or approval of, the giving of notice to, the registration with, the recording or filing of any document with, or the taking of any other action in respect of governmental authority, except in respect of permits (a) which have already been obtained and are in full force and effect or (b) are not yet required (and with respect to which the QS has no reason to believe that the same will not be readily obtainable in the ordinary course of business upon due application therefore).

#### 17.5 No Suits, Proceedings

There are no actions, suits, proceedings or investigations pending or, to the knowledge of the QS, threatened against it at law or in equity before any court or tribunal of the United States or any other jurisdiction which individually or in the aggregate could result in any materially adverse effect on the QS's business, properties, or assets or its condition, financial or otherwise, or in any impairment of its ability to perform its obligations under this Contract. The QS has no knowledge of a violation or default with respect to any law which could result in any such materially adverse effect or impairment. The QS is not in breach of, in default under, or in violation of, any applicable Law, or the provisions of any authorization, or in breach of, in default under, or in violation of, or in conflict with any provision of any promissory note, indenture or any evidence of indebtedness or security therefore, lease, contract, or other agreement by which it is bound, except for any such breaches, defaults, violations or conflicts which, individually or in the aggregate, could not reasonably be expected to have a material adverse effect on the business or financial condition of Buyer or its ability to perform its obligations hereunder.

#### 17.6 Environmental Matters

##### 17.6.1 QS Representations

To the best of its knowledge after diligent inquiry, the QS knows of no (a) existing violations of any environmental laws at the Facility, including those governing hazardous materials or (b) pending, ongoing, or unresolved administrative or enforcement investigations, compliance orders, claims, demands, actions, or other litigation brought by governmental authorities or other third parties alleging violations of any environmental law or permit which would materially and adversely affect the operation of the Facility as contemplated by this Contract.

##### 17.6.2 Ownership and Offering For Sale Of Renewable Energy Attributes

The QS retains any and all rights to own and to sell any and all environmental attributes associated with the electric generation of the Facility, including but not limited to, any and all renewable energy certificates, "green tags" or other tradable environmental interests (collectively "RECs"), of any description.

(Continued on Sheet No. 9.045)

(Continued from Sheet No. 9.044)

## 17.6.3 Changes in Environmental and Governmental Regulations

If new environmental and other regulatory requirements enacted during the term of the Contract change FPL's full avoided cost of the unit on which the Contract is based, either party can elect to have the contract reopened.

## 17.7 Interconnection/Wheeling Agreement

The QS has executed an interconnection agreement with FPL, or represents or warrants that it has entered into a valid and enforceable Interconnection Agreement with the utility in whose service territory the Facility is located, pursuant to which the QS assumes contractual responsibility to make any and all transmission-related arrangements (including control area services) between the QS and the transmitting utility for delivery of the Facility's capacity and energy to FPL.

## 17.8 Technology and Generator Capabilities

That for the term of this Contract the Technology and Generator Capabilities table set forth in Section 1 is accurate and complete.

**18. General Provisions**

## 18.1 Project Viability

To assist FPL in assessing the QS's financial and technical viability, the QS shall provide the information and documents requested in Appendix D or substantially similar documents, to the extent the documents apply to the type of Facility covered by this Contract, and to the extent the documents are available. All documents to be considered by FPL must be submitted at the time this Contract is presented to FPL. Failure to provide the following such documents may result in a determination of non-viability by FPL.

## 18.2 Permits; Site Control

The QS hereby agrees to obtain and maintain Permits which the QS is required to obtain as a prerequisite to engaging in the activities specified in this Contract. QS shall also obtain and maintain Site Control for the Term of the Contract.

## 18.3 Project Management

18.3.1 If requested by FPL, the QS shall submit to FPL its integrated project schedule for FPL's review within sixty calendar days from the execution of this Contract, and a start-up and test schedule for the Facility at least sixty calendar days prior to start-up and testing of the Facility. These schedules shall identify key licensing, permitting, construction and operating milestone dates and activities. If requested by FPL, the QS shall submit progress reports in a form satisfactory to FPL every calendar month until the Capacity Delivery Date and shall notify FPL of any changes in such schedules within ten calendar days after such changes are determined. FPL shall have the right to monitor the construction, start-up and testing of the Facility, either on-site or off-site. FPL's technical review and inspections of the Facility and resulting requests, if any, shall not be construed as endorsing the design thereof or as any warranty as to the safety, durability or reliability of the Facility.

18.3.2 The QS shall provide FPL with the final designer's/manufacture's generator capability curves, protective relay types, proposed protective relay settings, main one-line diagrams, protective relay functional diagrams, and alternating current and direct current elementary diagrams for review and inspection at FPL no later than one hundred eighty calendar days prior to the initial synchronization date.

## 18.4 Assignment

This Agreement shall inure to the benefit of and shall be binding upon the Parties and their respective successors and assigns. This Agreement shall not be assigned or transferred by either Party without the prior written consent of the other Party, such consent to be granted or withheld in such other Party's sole discretion. Any direct or indirect change of control of QS (whether voluntary or by operation of law) shall be deemed an assignment and shall require the prior written consent of FPL. Notwithstanding the foregoing, either Party may, without the consent of the other Party, assign or transfer this Agreement: (a) to any lender as collateral security for obligations under any financing documents entered into with such lender provided, QS shall be responsible for FPL's reasonable costs and expenses associated with the review, negotiation, execution and delivery of any documents or information pursuant to such collateral assignment, including reasonable attorneys' fees (b) to an affiliate of such Party; *provided*, that such affiliate's creditworthiness is equal to or better than that of such Party (and in no event less than Investment Grade) as determined reasonably by the non-assigning or non-transferring Party and; *provided, further*, that any such affiliate shall agree in writing to be bound by and to assume the terms and conditions hereof and any and all obligations to the non-assigning or non-transferring Party arising or accruing hereunder from and after the date of such assumption. "Investment Grade" means BBB- or above from Standard & Poor's Corporation or Baa2 or above from Moody's Investor Services.

## 18.5 Disclaimer

In executing this Contract, FPL does not, nor should it be construed, to extend its credit or financial support for the benefit of any third parties lending money to or having other transactions with the QS or any assignee of this Contract.

(Continued on Sheet No. 9.046)

(Continued from Sheet No. 9.045)

18.6 Notification

All formal notices relating to this Contract shall be deemed duly given when delivered in person, or sent by registered or certified mail, or sent by fax if followed immediately with a copy sent by registered or certified mail, to the individuals designated below. The Parties designate the following individuals to be notified or to whom payment shall be sent until such time as either Party furnishes the other Party written instructions to contact another individual:

For the QS:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

For FPL:

Florida Power & Light Company

700 Universe Boulevard  
Juno Beach, FL 33408  
Attn: EMT Contracts Department

This signed Contract and all related documents may be presented no earlier than 8:00 a.m. on the effective date of the Standard Offer Contract, as determined by the FPSC. Contracts and related documents may be mailed to the address below or delivered during normal business hours (8:00 a.m. to 4:45 p.m.) to the visitors' entrance at the address below:

Florida Power & Light Company  
700 Universe Boulevard, Juno Beach, FL 33408  
Attention: Contracts Manager/Coordinator  
EMT Contracts Department

18.7 Applicable Law

This Contract shall be construed in accordance with and governed by, and the rights of the Parties shall be construed in accordance with, the laws of the State of Florida as to all matters, including but not limited to matters of validity, construction, effect, performance and remedies, without regard to conflict of law rules thereof.

18.8 Venue

The Parties hereby irrevocably submit to the exclusive jurisdiction of the United States District Court for the Southern District of Florida or, in the event that jurisdiction for any matter cannot be established in the United States District Court for the Southern District of Florida, in the state court for Palm Beach County, Florida, solely in respect of the interpretation and enforcement of the provisions of this Contract and of the documents referred to in this Contract, and in respect of the transactions contemplated hereby, and hereby waive, and agree not to assert, as a defense in any action, suit or proceeding for the interpretation or enforcement hereof or of any such document, that it is not subject thereto or that such action, suit or proceeding may not be brought or is not maintainable in said courts or that the venue thereof may not be appropriate or that this Contract or any such document may not be enforced in or by such courts, and the Parties hereto irrevocably agree that all claims with respect to such action or proceeding shall be heard and determined in such a court. The Parties hereby consent to and grant any such court jurisdiction over the persons of such Parties solely for such purpose and over the subject matter of such dispute and agree that mailing of process or other papers in connection with any such action or proceeding in the manner provided in Section 18.8 hereof or in such other manner as may be permitted by Law shall be valid and sufficient service thereof.

(Continued on Sheet No. 9.047)

(Continued from Sheet No. 9.046)

18.9. Waiver of Jury Trial. EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY CONTROVERSY WHICH MAY ARISE UNDER THIS CONTRACT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE EACH PARTY HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY RIGHT A PARTY MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION RESULTING FROM, ARISING OUT OF OR RELATING TO THIS CONTRACT OR THE TRANSACTIONS CONTEMPLATED HEREBY. EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (a) NO REPRESENTATIVE, AGENT OR ATTORNEY OF THE OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER, (b) EACH PARTY UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF THIS WAIVER, (c) EACH PARTY MAKES THIS WAIVER VOLUNTARILY AND (d) EACH PARTY HAS BEEN INDUCED TO ENTER INTO THIS CONTRACT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 18.9

#### 18.10 Taxation

In the event that FPL becomes liable for additional taxes, including interest and/or penalties arising from an Internal Revenue Service's determination, through audit, ruling or other authority, that FPL's payments to the QS for capacity under Options B, C, D, E or for energy pursuant to the Fixed Firm Energy Payment Option D are not fully deductible when paid (additional tax liability), FPL may bill the QS monthly for the costs, including carrying charges, interest and/or penalties, associated with the fact that all or a portion of these capacity payments are not currently deductible for federal and/or state income tax purposes. FPL, at its option, may offset these costs against amounts due the QS hereunder. These costs would be calculated so as to place FPL in the same economic position in which it would have been if the entire capacity payments had been deductible in the period in which the payments were made. If FPL decides to appeal the Internal Revenue Service's determination, the decision as to whether the appeal should be made through the administrative or judicial process or both, and all subsequent decisions pertaining to the appeal (both substantive and procedural), shall rest exclusively with FPL.

#### 18.11 Severability

If any part of this Contract, for any reason, is declared invalid, or unenforceable by a public authority of appropriate jurisdiction, then such decision shall not affect the validity of the remainder of the Contract, which remainder shall remain in force and effect as if this Contract had been executed without the invalid or unenforceable portion.

#### 18.12 Complete Agreement and Amendments

All previous communications or agreements between the Parties, whether verbal or written, with reference to the subject matter of this Contract are hereby abrogated. No amendment or modification to this Contract shall be binding unless it shall be set forth in writing and duly executed by both Parties. This Contract constitutes the entire agreement between the Parties.

#### 18.13 Survival of Contract

This Contract, as it may be amended from time to time, shall be binding upon, and inure to the benefit of, the Parties' respective successors-in-interest and legal representatives.

#### 18.14 Record Retention

The QS agrees to retain for a period of five (5) years from the date of termination hereof all records relating to the performance of its obligations hereunder, and to cause all QS Entities to retain for the same period all such records.

#### 18.15 No Waiver

No waiver of any of the terms and conditions of this Contract shall be effective unless in writing and signed by the Party against whom such waiver is sought to be enforced. Any waiver of the terms hereof shall be effective only in the specific instance and for the specific purpose given. The failure of a Party to insist, in any instance, on the strict performance of any of the terms and conditions hereof shall not be construed as a waiver of such Party's right in the future to insist on such strict performance.

(Continued on Sheet No. 9.048)

(Continued from Sheet No. 9.047)

18.16 Set-Off

FPL may at any time, but shall be under no obligation to, set off any and all sums due from the QS against sums due to the QS hereunder.

18.17 Assistance With FPL's evaluation of FIN 46R

Accounting rules set forth in Financial Accounting Standards Board Interpretation No. 46 (Revised December 2003) ("FIN 46R"), as well as future amendments and interpretations of those rules, may require FPL to evaluate whether the QS must be consolidated, as a variable interest entity (as defined in FIN 46R), in the consolidated financial statements of FPL. The QS agrees to fully cooperate with FPL and make available to FPL all financial data and other information, as deemed necessary by FPL, to perform that evaluation on a timely basis at inception of the PPA and periodically as required by FIN 46R. If the result of an evaluation under FIN 46R indicates that the QS must be consolidated in the financial statements of FPL, the QS agrees to provide financial statements, together with other required information, as determined by FPL, for inclusion in disclosures contained in the footnotes to the financial statements and in FPL's required filings with the Securities and Exchange Commission ("SEC"). The QS shall provide this information to FPL in a timeframe consistent with FPL's earnings release and SEC filing schedules, to be determined at FPL's discretion. The QS also agrees to fully cooperate with FPL and FPL's independent auditors in completing an assessment of the QS's internal controls as required by the Sarbanes-Oxley Act of 2002 and in performing any audit procedures necessary for the independent auditors to issue their opinion on the consolidated financial statements of FPL. FPL will treat any information provided by the QS in satisfying Section 18.17 as confidential information and shall only disclose such information to the extent required by accounting and SEC rules and any applicable laws.

IN WITNESS WHEREOF, the QS and FPL executed this Contract this \_\_\_\_\_day of \_\_\_\_\_.

**Interconnection Agreement for Customer-Owned Renewable Generation  
 Tier 1 - 10 kW or Less**

This Agreement, is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between \_\_\_\_\_ (“Customer”), with an address of \_\_\_\_\_ and FLORIDA POWER & LIGHT COMPANY (“FPL”), a Florida corporation with an address of P.O. Box 14000, 700 Universe Boulevard, Juno Beach, FL 33408-0429.

**WITNESSETH:**

**WHEREAS**, the Customer has requested to interconnect its Customer-owned renewable generation, 10 kW AC or less, to FPL’s electrical service grid at the Customer’s presently metered location.

**NOW, THEREFORE**, for and in consideration of the mutual covenants and agreements herein set forth, the Parties hereto covenant and agree as follows:

**1. Definitions**

1.1 Gross Power Rating means the total manufacturer’s AC nameplate generating capacity of an on-site customer-owned renewable generation system that will be interconnected to and operate in parallel with FPL’s distribution facilities. For inverter-based systems, the AC nameplate generating capacity shall be calculated by multiplying the total installed DC nameplate generating capacity by 0.85 in order to account for losses during the conversion from DC to AC.

1.2 Capitalized Terms shall have the meanings set forth in Florida Public Service Commission Rule 25-6.065 F.A.C. - Interconnection and Net Metering of Customer-owned renewable generation.

**2. Customer Qualification and Fees**

2.1. Customer-owned renewable generation shall have a Gross Power Rating that:  
 a) does not exceed 90% of the Customer’s utility distribution service rating; and  
 b) is 10 kW AC or less.  
 Gross Power Rating for the Customer-owned renewable generation is \_\_\_\_\_kW AC.

2.2. The Customer shall not be required to pay any application fee for this Tier 1 Customer-owned renewable generation system.

2.3. In order to commence the process for interconnection the Customer shall provide FPL a completed application.

**3. General Responsibilities of the Parties**

3.1. Customer-owned renewable generation shall be considered certified for interconnected operation if it has been submitted by a manufacturer to a nationally recognized testing and certification laboratory, and has been tested and listed by the laboratory for continuous interactive operation with an electric distribution system in compliance with the applicable codes and standards of IEEE 1547, IEEE 1547.1, and UL 1741.

3.2. Customer-owned renewable generation shall include a utility-interactive inverter, or other device certified pursuant to Section 3.1 above, that performs the function of automatically isolating the Customer-owned generation equipment from the electric grid in the event the electric grid loses power.

3.3. The Customer shall be responsible for protecting its Customer-owned renewable generation equipment, inverters, protective devices, and other system components from damage from the normal and abnormal conditions and operations that occur on the FPL system in delivering and restoring power; and shall be responsible for ensuring that Customer-owned renewable generation equipment is inspected, maintained, and tested in accordance with the manufacturer’s instructions to ensure that it is operating correctly and safely.

3.4. The Customer agrees to provide Local Building Code Official inspection and certification of installation. The certification shall reflect that the local code official has inspected and certified that the installation was permitted, has been approved, and has met all electrical and mechanical qualifications.

(Continued on Sheet No. 9.051)

(Continued from Sheet No. 9.050)

3.5 The Customer shall notify FPL at least ten (10) calendar days prior to initially placing Customer's equipment and protective apparatus in service and FPL shall have the right to have personnel present on the in-service date.

3.6 Interconnection Agreement shall be executed by FPL within thirty (30) calendar days of receipt of a completed application.

4. **Inspection and On-going Compliance**

4.1 FPL will provide Customer with as much notice as reasonably practicable; either in writing, e-mail, facsimile or by phone as to when FPL may conduct inspection and/or document review. Upon reasonable notice, or at any time without notice in the event of an emergency or hazardous condition, FPL shall have access to the Customer's premises for the purpose of accessing the manual disconnect switch, performing an inspection or disconnection, or, if necessary, to meet FPL's legal obligation to provide service to its Customers.

5. **Manual Disconnect Switch**

5.1 U.L.1741 Listed, inverter-based Tier 1 customer-owned renewable generation systems do not require a customer-installed manual disconnect switch.

5.2 Other customer-owned Tier 1 renewable generation systems that are not U.L. 1741 inverter based. FPL shall require the Customer to install, at the Customer's expense, a manual disconnect switch of the visible load break type to provide a separation point between the AC power output of the Customer-owned renewable generation and any Customer wiring connected to FPL's system. The manual disconnect switch shall be mounted separate from, but adjacent to, the FPL meter socket. The Customer shall ensure that such manual disconnect switch shall remain readily accessible to FPL and be capable of being locked in the open position with a single FPL utility padlock.

5.3 In the event that FPL has determined with respect to the Customer-owned renewable generation that the installation of a manual disconnect switch or switches adjacent to FPL's meter socket would not be practical from a safety perspective and/or design considerations in accordance with good engineering practices; and FPL and the customer agree upon a location on the customer's premises for the switch or switches which meet all applicable safety and/or design considerations, then, pursuant to the conditions set forth in Section 5.2 above, each manual disconnect switch shall be mounted separate from FPL's meter socket at a location agreed to by the Customer and FPL, and the customer shall install a permanent weather-proof plaque adjacent to FPL's meter socket indicating the location of the manual disconnect switch or switches.

6. **Disconnection / Reconnection**

6.1 FPL may open the manual disconnect switch, if available, or disconnect the Customer's meter, pursuant to the conditions set forth in Section 6.2 below, isolating the Customer-owned renewable generation, without prior notice to the Customer. To the extent practicable, however, prior notice shall be given. If prior notice is not given, FPL shall at the time of disconnection leave a door hanger notifying the Customer that its Customer-owned renewable generation has been disconnected, including an explanation of the condition necessitating such action. FPL will reconnect the Customer-owned renewable generation as soon as practicable after the condition(s) necessitating disconnection has been remedied.

(Continued on Sheet No. 9.052)

(Continued from Sheet No. 9.051)

- 6.2 FPL has the right to disconnect the Customer-owned renewable generation at any time. This may result for the following reasons:
- a) Emergencies or maintenance requirements on FPL's system;
  - b) Hazardous conditions existing on FPL's system due to the operation of the Customer's generating or protective equipment as determined by FPL; and
  - c) Adverse electrical effects, such as power quality problems, on the electrical equipment of FPL's other electric consumers caused by the Customer-owned renewable generation as determined by FPL.

7. **Modifications/Additions to Customer-owned Renewable Generation**

- 7.1 If the Customer-owned renewable generation system is subsequently modified in order to increase its Gross Power Rating, the Customer must notify FPL by submitting a new application and Interconnection Agreement specifying the modification at least thirty (30) calendar days prior to making the modification.
- 7.2 If the Customer adds another Customer-owned renewable generator system which i.) Utilizes the same utility inter-active inverter, or other device certified pursuant to Section 3.1 above, for both systems; and ii.) Utilizes a separate utility inter-active inverter, or other device certified pursuant to Section 3.1 above, for each system the Customer shall provide thirty (30) calendar days notice prior to installation.
- 7.3 In the event any Customer modifications or additions result in the input to any FPL meter so as to qualify as a Tier 2 or Tier 3 system, then all terms and conditions, including appropriate notice, of the Interconnection Agreement for Tier 2 or Tier 3 systems shall apply.
- 7.4 The Interconnection Agreement which applies in instances described in Sections 7.1, 7.2, and 7.3 above shall be determined by the combined gross power rating of the generation system(s) which is connected to the FPL meter. In all instances described in this Section 7, the Customer shall submit a new application to FPL and shall enter into a new Interconnection Agreement. In no event shall the maximum output of the Customer-owned generation system(s), which is connected to the FPL meter exceed 2 MW Gross Power Rating.

8. **Indemnity**

- 8.1 Customer, to the extent permitted by law without waiving or limiting any defense of sovereign immunity, shall indemnify, hold harmless and defend FPL from and against any and all judgments, losses, damages, claims relating to injury to or death of any person or damage to property, (including the Customer-owned renewable generation system), fines and penalties, costs and expenses arising out of or resulting from the operation of the Customer-owned renewable generation system, except in those instances where such loss is due to the negligent action or inactions of FPL. Nothing herein shall be intended to serve as a waiver or limitation of Customer's sovereign immunity defense as allowed by law.
- 8.2 FPL shall indemnify, hold harmless and defend Customer from and against any and all judgments, losses, damages, claims relating to injury to or death of any person or damage to property (including FPL's transmission system), fines and penalties, costs and expenses arising out of or resulting from the operation of FPL's system, except in those instances where such loss is due to the negligent action or inactions of the Customer.

(Continued on Sheet No. 9.053)

(Continued from Sheet No. 9.052)

**9. Limitation of Liability**

9.1 Liability under this Interconnection Agreement for any loss, cost, claim, injury, liability, or expense, including reasonable attorney's fees, relating to or arising from any act or omission in its performance of this Interconnection Agreement, shall be limited to the amount of direct damage actually incurred. In no event shall the indemnifying Party be liable to the other Party for any indirect, special, consequential, or punitive damages, except as authorized by this Interconnection Agreement.

**10. Assignment**

10.1 The Interconnection Agreement shall be assignable by either Party upon thirty (30) calendar days notice to the other Party and written consent of the other Party, which consent shall not be unreasonably withheld or delayed.

10.2 An assignee to this Interconnection Agreement shall be required to assume in writing the Customer's rights, responsibilities, and obligations under this Interconnection Agreement; or execute a new Interconnection Agreement.

**11. Insurance**

11.1 FPL recommends that the Customer maintain Liability Insurance for Personal Injury and Property damage in amount of not less than \$100,000 during the entire term of this Interconnection Agreement to the extent permitted by law. For government entities, the policy coverage shall not exceed the entity's maximum liability established by law.

**12. Renewable Energy Certificates**

12.1 The Customer shall retain any Renewable Energy Certificates associated with the electricity produced by their Customer-owned renewable generation equipment; any additional meters necessary for measuring the total renewable electricity generated for the purposes of receiving Renewable Energy Certificates shall be installed at the Customer's expense, unless otherwise determined during negotiations for the sale of the Customer's Renewable Energy Certificates to FPL.

**13. Lease Agreements**

13.1 The Customer shall provide FPL a copy of the lease agreement, as applicable, for any and all leased interconnection equipment.

13.2 The Customer shall not enter into any lease agreement that results in the retail purchase of electricity; or the retail sale of electricity from the Customer-owned renewable generation. Notwithstanding this restriction, in the event it is determined by the Florida Public Service Commission that the Customer has entered such an agreement, the Customer shall be in breach of this Interconnection Agreement and the lessor may become subject to the jurisdiction and regulations of the Florida Public Service Commission as a public utility.

**14. Dispute Resolution**

14.1 Disputes between the Parties shall be handled in accordance with subsection 11 of Florida Public Service Commission Rule 25\_6.065 F.A.C. - Interconnection and Net Metering of Customer-owned renewable generation.

**15. Effective Date**

15.1 The Customer must execute this Interconnection Agreement and return it to FPL at least thirty (30) calendar days prior to beginning parallel operations and the Customer must begin parallel operation within one year after FPL executes the Interconnection Agreement.

**16. Termination**

16.1 Upon termination of this Interconnection Agreement, FPL shall open and padlock the manual disconnect switch, if applicable, and remove the Net Metering and associated FPL equipment. At the Customer's expense, the Customer agrees to permanently disconnect the Customer-owned renewable generation and associated equipment from FPL's electric service grid. The Customer shall notify FPL in writing within ten (10) calendar days that the disconnect procedure has been completed.

(Continued on Sheet No. 9.053.1)

(Continued from Sheet No. 9.053)

17. **Amendments to Florida Public Service Commission Rules**

17.1 FPL and Customer recognize that the Florida Public Service Commission rules may be amended from time to time. In the event that Florida Public Service Commission rules are modified, FPL and Customer agree to supersede and replace this Interconnection Agreement with a new Interconnection Agreement which complies with the amended Florida Public Service Commission rules.

18. **Entire Agreement**

18.1 This Interconnection Agreement supersedes all previous agreements or representations, either written or oral, heretofore in effect between FPL and the Customer, made in respect to matters herein contained, and when duly executed, this Interconnection Agreement constitutes the entire agreement between Parties hereto.

19. **Governmental Entities**

19.1 For those customers, which are government entities, provisions within this agreement will apply to the extent the agency is not legally barred from executing such provisions by State or Federal law.

(Continued on Sheet No. 9.054)

(Continued from Sheet No. 9.053.1)

**IN WITNESS WHEREOF**, the Parties hereto have caused this Interconnection Agreement to be duly executed the day and year first above written.

**Interconnection Agreement for Customer-Owned Renewable Generation  
 Tier 2 – Greater than 10 kW and Less than or Equal to 100 kW**

This Agreement, is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between \_\_\_\_\_ (“Customer”), with an address of \_\_\_\_\_ and FLORIDA POWER & LIGHT COMPANY (“FPL”), a Florida corporation with an address of P.O. Box 14000, 700 Universe Boulevard, Juno Beach, FL 33408-0429.

**WITNESSETH:**

**WHEREAS**, the Customer has requested to interconnect its Customer-owned renewable generation, greater than 10 kW AC and less than or equal to 100 kW AC, to FPL’s electrical service grid at the Customer’s presently metered location.

**NOW, THEREFORE**, for and in consideration of the mutual covenants and agreements herein set forth, the Parties hereto covenant and agree as follows:

**1. Definitions**

1.1 Gross Power Rating means the total manufacturer’s AC nameplate generating capacity of an on-site customer-owned renewable generation system that will be interconnected to and operate in parallel with FPL’s distribution facilities. For inverter-based systems, the AC nameplate generating capacity shall be calculated by multiplying the total installed DC nameplate generating capacity by 0.85 in order to account for losses during the conversion from DC to AC.

1.2 Capitalized Terms shall have the meanings set forth in the Florida Public Service Commission Rule 25-6.065 F.A.C. - Interconnection and Net Metering of Customer-Owned Renewable Generation.

**2. Customer Qualification and Fees**

2.1 Customer-owned renewable generation shall have a Gross Power Rating that:  
 a) does not exceed 90% of the Customer’s utility distribution service rating; and  
 b) is greater than 10 kW AC and less than or equal to 100 kW AC.

Gross Power Rating for the Customer-owned renewable generation is \_\_\_\_\_kW AC.

2.2 The Customer shall be required to pay an application fee of \$400 for this Tier 2 Customer-owned renewable generation.

2.3 In order to commence the process for interconnection, Customer shall provide FPL a completed application.

**3. General Responsibilities of the Parties**

3.1 Customer-owned renewable generation shall be considered certified for interconnected operation if it has been submitted by a manufacturer to a nationally recognized testing and certification laboratory, and has been tested and listed by the laboratory for continuous interactive operation with an electric distribution system in compliance with the applicable codes and standards of IEEE 1547, IEEE 1547.1, and UL 1741. The Customer shall provide a written report that the Customer-owned renewable generation complies with the foregoing standards. The manufacturer’s specification sheets will satisfy this requirement for a written report.

3.2 Customer-owned renewable generation shall include a utility-interactive inverter, or other device certified pursuant to Section 3.1 above, that performs the function of automatically isolating the Customer-owned generation equipment from the electric grid in the event the electric grid loses power.

3.3 The Customer shall be responsible for protecting its Customer-owned renewable generation equipment, inverters, protective devices, and other system components from damage from the normal and abnormal conditions and operations that occur on the FPL system in delivering and restoring power; and shall be responsible for ensuring that Customer-owned renewable generation equipment is inspected, maintained, and tested in accordance with the manufacturer’s instructions to ensure that it is operating correctly and safely.

3.4 The Customer agrees to provide Local Building Code Official inspection and certification of installation. The certification shall reflect that the local code official has inspected and certified that the installation was permitted, has been approved, and has met all electrical and mechanical qualifications.

(Continued on Sheet No. 9.056)

(Continued from Sheet No. 9.055)

- 3.5 The Customer shall notify FPL at least ten (10) calendar days prior to initially placing Customer's equipment and protective apparatus in service and FPL shall have the right to have personnel present on the in-service date.
- 3.6 Within ten (10) business days of receipt of the Customer's application, FPL shall provide written notice that it has received all documents required for interconnection or indicate how the application is deficient. Within ten (10) business days of receipt of a completed application, FPL shall provide written notice verifying receipt of the completed application and in the event FPL elects to inspect the Tier 2 Customer-owned renewable generation, written notice shall also include dates for any physical inspection (as set forth in Section 4.3, hereto) and inspection of documents (as set forth in Section 4.4, hereto) necessary to ensure compliance with this Interconnection Agreement and necessary for FPL to confirm compliance with Florida Public Service Commission Rule 25-6.065 F.A.C. - Interconnection and Net Metering of Customer-owned renewable generation.
- 3.7 The Interconnection Agreement shall be executed by FPL within thirty (30) calendar days of receipt of a completed application.

4. **Inspection and On-Going Compliance**

- 4.1 At FPL's election, FPL shall have the right to inspect the Tier 2 Customer-owned renewable generation. All initial physical inspections and inspection of the Customer's documents must be completed by FPL within thirty (30) calendar days of receipt of the Customer's executed Interconnection Agreement. If the inspections are delayed at the Customer's request, the Customer shall contact FPL to reschedule an inspection. FPL shall reschedule the inspection within ten (10) business days of the Customer's request. Physical inspections and inspection of documents must be completed and approved by FPL prior to commencement of service of the Customer-owned renewable generation system.
- 4.2 Any inspection or observation by FPL shall not be deemed to be or construed as any representation, assurance, guarantee, or warranty by FPL of the safety, durability, suitability, or reliability of the Customer-owned Renewable Generation or any associated control, protective, and safety devices owned or controlled by the Customer or the quality of power produced by the Customer-owned renewable generation.
- 4.3 FPL shall have the right to inspect Customer-owned renewable generation and its component equipment to ensure compliance with this Interconnection Agreement. FPL's system inspections shall include, but shall not be limited to:
- a) any installed manual disconnect switch, as applicable;
  - b) FPL's metering equipment;
  - c) Any additional metering equipment installed by Customer; and
  - d) Customer utility-interactive inverter, protective device or other similar devices for compliance to applicable code and standards, as described in this Interconnection Agreement.
- 4.4 FPL shall also have the right to review Customer documents to ensure compliance with this Interconnection Agreement. FPL shall have the right to, at a minimum review:
- a) technical design parameters of the system and the manufacture's installation;
  - b) operation and maintenance instructions to ensure compliance with IEEE and UL standards;
  - c) local inspection and certifications; and
  - d) other documents associated with specific installations.
- 4.5 FPL will provide Customer with as much notice as reasonably practicable, either in writing, e-mail, facsimile or by phone as to when FPL will conduct inspection and/or document review. Upon reasonable notice, or at any time without notice in the event of an emergency or hazardous condition, FPL shall have access to the Customer's premises for the purpose of accessing the manual disconnect switch, performing an inspection or disconnection, or, if necessary, to meet FPL's legal obligation to provide service to its Customers.

(Continued on Sheet No. 9.057)

(Continued from Sheet No. 9.056)

**5. Manual Disconnect Switch**

- 5.1 U.L.1741 Listed, inverter-based Tier 2 customer-owned renewable generation systems do not require a customer-installed manual disconnect switch.
- 5.2 Other customer-owned Tier 2 renewable generation systems that are not U.L. 1741 inverter based. FPL shall require the Customer to install, at the Customer's expense, a manual disconnect switch of the visible load break type to provide a separation point between the AC power output of the Customer-owned renewable generation and any Customer wiring connected to FPL's system. The manual disconnect switch shall be mounted separate from, but adjacent to, the FPL meter socket. The Customer shall ensure that such manual disconnect switch shall remain readily accessible to FPL and be capable of being locked in the open position with a single FPL utility padlock.
- 5.3 In the event that FPL has determined with respect to the Customer-owned renewable generation that the installation of a manual disconnect switch or switches adjacent to FPL's meter socket would not be practical from a safety perspective and/or design considerations in accordance with good engineering practices; and FPL and the customer agree upon a location on the customer's premises for the switch or switches which meet all applicable safety and/or design considerations, then, pursuant to the conditions set forth in Section 5.2 above, each manual disconnect switch shall be mounted separate from FPL's meter socket at a location agreed to by the Customer and FPL, and the customer shall install a permanent weather-proof plaque adjacent to FPL's meter socket indicating the location of the manual disconnect switch or switches.

**6. Disconnection / Reconnection**

- 6.1 FPL may open the manual disconnect switch pursuant to the conditions set forth in Section 6.3 below, isolating the Customer-owned renewable generation, without prior notice to the Customer. To the extent practicable, however, prior notice shall be given. If prior notice is not given, FPL shall at the time of disconnection leave a door hanger notifying the Customer that its Customer-owned renewable generation has been disconnected, including an explanation of the condition necessitating such action. FPL will reconnect the Customer-owned renewable generation as soon as practicable after the condition(s) necessitating disconnection has been remedied.
- 6.2 Upon notice by FPL, the Customer shall be solely responsible to disconnect the Customer-owned renewable generation and Customer's other equipment if conditions on the FPL distribution system could adversely affect the Customer-owned renewable generation. FPL will not be responsible for damage to the Customer-owned renewable generation system due to adverse effects on the distribution system. Reconnection will be the Customer's responsibility and will not require an additional application.
- 6.3 FPL has the right to disconnect the Customer-owned renewable generation at any time. This may result for the following reasons:
  - a) Emergencies or maintenance requirements on FPL's system;
  - b) Hazardous conditions existing on FPL's system due to the operation of the Customer's generating or protective equipment as determined by FPL;
  - c) Adverse electrical effects, such as power quality problems, on the electrical equipment of FPL's other electric consumers caused by the Customer-owned renewable generation as determined by FPL; and
  - d) Failure of the Customer to maintain the required insurance coverage as stated in Section 11.1 below.

**7. Modifications/Additions to Customer-owned Renewable Generation**

- 7.1 If the Customer-owned renewable generation is subsequently modified in order to increase its Gross Power Rating, the Customer must notify FPL by submitting a new application and Interconnection Agreement specifying the modification at least thirty (30) days prior to making the modification.
- 7.2 If the Customer adds another Customer-owned renewable generation which: i.) utilizes the same utility inter-active inverter, or other device certified pursuant to Section 3.1 above, for both systems; or ii.) utilizes a separate utility inter-active inverter, or other device certified pursuant to Section 3.1 above, for each system the Customer shall provide thirty (30) calendar days notice prior to installation.

(Continued on Sheet No. 9.058)

(Continued from Sheet No. 9.057)

- 7.3 In the event any Customer modifications or additions result in the input to any FPL meter so as to qualify as a Tier 3 system, then all terms and condition, including appropriate notice, of the Interconnection Agreement for Tier 3 systems shall apply. In no event shall the maximum output of the Customer-owned generation system(s), which is connected to the FPL meter exceed 2 MW.
- 7.4 The Interconnection Agreement which applies in instances described in Sections 7.1, 7.2, and 7.3 above shall be determined by the combined Gross Power Rating of the generation system(s) which is connected to the FPL meter. In all instances described in this Section 7, the Customer shall submit a new application to FPL and shall enter into a new Interconnection Agreement.

8. **Indemnity**

- 8.1 Customer, to the extent permitted by law without waiving or limiting any defense of sovereign immunity, shall indemnify, hold harmless and defend FPL from and against any and all judgments, losses, damages, claims relating to injury to or death of any person or damage to property (including the Customer-owned renewable generation system), fines and penalties, costs and expenses arising out of or resulting from the operation of the Customer-owned renewable generation system, except in those instances where such loss is due to the negligent action or inactions of FPL. Nothing herein shall be intended to serve as a waiver of limitation of Customer's sovereign immunity defense as allowed by law.
- 8.2 FPL shall indemnify, hold harmless and defend Customer from and against any and all judgments, losses, damages, claims relating to injury to or death of any person or damage to property (including FPL's transmission system), fines and penalties, costs and expenses arising out of or resulting from the operation of FPL's system, except in those instances where such loss is due to the negligent action or inactions of the Customer.

9. **Limitation of Liability**

- 9.1 Liability under this Interconnection Agreement for any loss, cost, claim, injury, liability, or expense, including reasonable attorney's fees, relating to or arising from any act or omission in its performance of this Interconnection Agreement, shall be limited to the amount of direct damage actually incurred. In no event shall the indemnifying Party be liable to the other Party for any indirect, special, consequential, or punitive damages, except as authorized by this Interconnection Agreement.

10. **Assignment**

- 10.1 The Interconnection Agreement shall be assignable by either Party upon thirty (30) calendar days notice to the other Party and written consent of the other Party, which consent shall not be unreasonably withheld or delayed.
- 10.2 An assignee to this Interconnection Agreement shall be required to assume in writing the Customer's rights, responsibilities, and obligations under this Interconnection Agreement; or execute a new Interconnection Agreement.

11. **Insurance**

- 11.1 The Customer agrees to provide and maintain general liability insurance for personal and property damage, or sufficient guarantee and proof of self-insurance, in the amount of not less than \$1 million during the entire period of this Interconnection Agreement, to the extent permitted by law. Initial proof of insurance shall be in the form of a copy of the policy or certificate of insurance attached to this Interconnection Agreement evidencing the Homeowner's or other insurance policy in effect at the time of interconnection. For government entities, the policy coverage shall not exceed the entity's maximum liability established by law. Proof of self-insurance consistent with law shall satisfy this requirement.

(Continued on Sheet No. 9.059)

(Continued from Sheet No. 9.058)

**12. Renewable Energy Certificates**

12.1 The Customer shall retain any Renewable Energy Certificates associated with the electricity produced by their Customer-owned renewable generation equipment; any additional meters necessary for measuring the total renewable electricity generated for the purposes of receiving Renewable Energy Certificates shall be installed at the Customer's expense, unless otherwise determined during negotiations for the sale of the Customer's Renewable Energy Certificates to FPL.

**13. Lease Agreements**

13.1 The Customer shall provide FPL a copy of the lease agreement, as applicable, for any and all leased interconnection equipment.

13.2 The Customer shall not enter into any lease agreement that results in the retail purchase of electricity; or the retail sale of electricity from the Customer-owned renewable generation. Notwithstanding this restriction, in the event it is determined by the Florida Public Service Commission that the Customer has entered such an agreement, the Customer shall be in breach of this Interconnection Agreement and the lessor may become subject to the jurisdiction and regulations of the Florida Public Service Commission as a public utility.

**14. Dispute Resolution**

14.1 Disputes between the Parties shall be handled in accordance with subsection 11 of Rule 25-6.065 F.A.C. – Interconnection and Net Metering of Customer-Owned Renewable Generation.

**15. Effective Date**

15.1 The Customer must execute this Interconnection Agreement and return it to FPL at least thirty (30) calendar days prior to beginning parallel operations and the Customer must begin parallel operation within one year after FPL executes the Interconnection Agreement.

**16. Termination**

16.1 Upon termination of this Interconnection Agreement, FPL shall open and padlock the manual disconnect switch, if applicable, and remove the Net Metering and associated FPL equipment. At the Customer's expense, the Customer agrees to permanently disconnect the Customer-owned renewable generation and associated equipment from FPL's electric service grid. The Customer shall notify FPL in writing within ten (10) calendar days that the disconnect procedure has been completed.

**17. Amendments to Florida Public Service Commission Rules**

17.1 FPL and Customer recognize that the Florida Public Service Commission rules may be amended from time to time. In the event that Florida Public Service Commission rules are modified, FPL and Customer agree to supersede and replace this Interconnection Agreement with a new Interconnection Agreement which complies with the amended Florida Public Service Commission rules.

**18. Entire Agreement**

18.1 This Interconnection Agreement supersedes all previous agreements or representations, either written or oral, heretofore in effect between FPL and the Customer, made in respect to matters herein contained, and when duly executed, this Interconnection Agreement constitutes the entire agreement between Parties hereto.

**19. Governmental Entities**

19.1 For those customers, which are government entities, provisions within this agreement will apply to the extent the agency is not legally barred from executing such provisions by State or Federal law.

(Continued on Sheet No. 9.060)

(Continued from Sheet No. 9.059)

**IN WITNESS WHEREOF**, the Parties hereto have caused this Interconnection Agreement to be duly executed the day and year first above written.

**Interconnection Agreement for Customer-Owned Renewable Generation  
 Tier 3 – Greater than 100 kW and Less than or Equal to 2 MW**

This Agreement, is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between \_\_\_\_\_ (“Customer”), with an address of \_\_\_\_\_ and FLORIDA POWER & LIGHT COMPANY (“FPL”), a Florida corporation with an address of P.O. Box 14000, 700 Universe Boulevard, Juno Beach, FL 33408-0429.

**WITNESSETH:**

**WHEREAS**, the Customer has requested to interconnect its Customer-owned renewable generation, greater than 100 kW AC and less than or equal to 2 MW AC, to FPL’s electrical service grid at the Customer’s presently metered location.

**NOW, THEREFORE**, for and in consideration of the mutual covenants and agreements herein set forth, the Parties hereto covenant and agree as follows:

**1. Definitions**

For the purposes of this interconnection agreement only, the following terms shall be defined as follows:

- 1.1. **Point of Interconnection/Change of Ownership** – The point at which the Customer’s wiring is connected to the lugs in the metering cabinet where FPL’s meter is located.
- 1.2. **Interconnection Facilities and Distribution Upgrades** – All facilities and equipment on FPL’s side of the Point of Interconnection/Change of Ownership, including any modifications, additions or upgrades that are necessary to physically and electrically interconnect the Customer-owned renewable generation to FPL’s electric system.
- 1.3. **Prudent Utility Practice** – Any of the practices, methods and acts engaged in or approved by a significant portion of the electric industry during the relevant time period, or any of the practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety and expedition. Prudent Utility Practice is not intended to be limited to the optimum practice, method, or act to the exclusion of all others, but rather to be acceptable practices, methods, or acts generally accepted in the region.
- 1.4. **Established Industry Criteria** – Criteria established by Institute of Electrical and Electronics Engineers (IEEE), the Florida Reliability Coordinating Council (FRCC), North American Electric Reliability Council (NERC) and the Federal Energy Commission (FERC).
- 1.5. **Acceptable Level of Impact to FPL’s Electric System** – The proposed interconnection does not have a negative impact on the reliability of the FPL’s electric system or to its Customers.
- 1.6. **Gross Power Rating** means the total manufacturer’s AC nameplate generating capacity of an on-site customer-owned renewable generation system that will be interconnected to and operate in parallel with FPL’s distribution facilities. For inverter-based systems, the AC nameplate generating capacity shall be calculated by multiplying the total installed DC nameplate generating capacity by 0.85 in order to account for losses during the conversion from DC to AC.
- 1.7. Other capitalized terms shall have the meanings set forth in Florida Public Service Commission Rule 25-6.065 F.A.C. - Interconnection and Net Metering of Customer-Owned Renewable Generation.

**2. Customer Qualification and Fees**

- 2.1. Customer-owned renewable generation shall have a Gross Power Rating that:
  - a) does not exceed 90% of the Customer’s utility distribution service rating; and
  - b) is greater than 100 kW AC and less than or equal to 2 MW AC.

Gross Power Rating for the Customer-owned renewable generation is \_\_\_\_\_ kW AC.

- 2.2. In order to commence the process for interconnection, Customer shall provide FPL a completed application.
- 2.3. The Customer shall be required to pay an application fee of \$1,000.00 for this Tier 3 Customer-owned renewable generation interconnection request. This application fee shall cover the cost for processing the Customer’s application and the cost of the Fast Track Screens which perform an initial review and screens of the proposed interconnection’s impact on the FPL’s electric system, as such process is described in Section 8, hereto.

(Continued on Sheet No. 9.066)

(Continued from Sheet No. 9.065)

2.4. In the event the Customer-owned renewable generation does not pass the Fast Track Screens and the Customer elects to proceed with an Interconnection Study, as described in Section 8, hereto, the Customer shall be required to pay an Interconnection Study fee of \$2,000.00. To the extent the actual costs of the Interconnection Study total less than \$2,000, the difference between the Interconnection Study fee and the actual costs will be refunded to the Customer within thirty (30) calendar days with no interest.

3. **General Responsibilities of the Parties**

3.1 Customer-owned renewable generation shall be considered certified for interconnected operation if it has been submitted by a manufacturer to a nationally recognized testing and certification laboratory, and has been tested and listed by the laboratory for continuous interactive operation with an electric distribution system in compliance with the applicable codes and standards of IEEE 1547, IEEE 1547.1, and UL 1741. The Customer shall provide a written report that the Customer-owned renewable generation complies with the foregoing standards. The manufacturer's specification sheets will satisfy this requirement for a written report.

3.2 Customer-owned renewable generation shall include a utility-interactive inverter, or other device certified pursuant to Section 3.1 above, that performs the function of automatically isolating the Customer-owned generation equipment from the electric grid in the event the electric grid loses power.

3.3. The Customer shall provide FPL with a one-line diagram depicting the Customer-owned renewable generation and metering equipment, to be set forth in Attachment 1 to the Interconnection Agreement and made a part hereof.

3.4. The Customer shall be responsible for protecting its Customer-owned renewable generation equipment, inverters, protective devices, and other system components from damage from the normal and abnormal conditions and operations that occur on FPL system in delivering and restoring power; and shall be responsible for ensuring that Customer-owned renewable generation equipment is inspected, maintained, and tested in accordance with the manufacturer's instructions to ensure that it is operating correctly and safely.

3.5. The Customer agrees to provide Local Building Code Official inspection and certification of installation. The certification shall reflect that the local code official has inspected and certified that the installation was permitted, and has been approved and has met all electrical and mechanical qualifications.

3.6. The Customer shall notify FPL at least ten (10) calendar days prior to initially placing Customer's equipment and protective apparatus in service and FPL shall have the right to have personnel present on the in-service date.

3.7. Within ten (10) business days of receipt of the Customer's application, FPL shall provide written notice that it has received all documents required for interconnection or indicate how the application is deficient. Within ten (10) business days of receipt of a completed application, FPL shall provide written notice verifying receipt of the completed application. The written notice shall also include dates for any physical inspection (as set forth in Section 4.3, hereto) and inspection of documents (as set forth in Section 4.4, hereto) necessary to ensure compliance with this Interconnection Agreement necessary for FPL to confirm compliance with Florida Public Service Commission Rule 25-6.065 F.A.C. - Interconnection and Net Metering of Customer-owned renewable generation.

3.8. The Interconnection Agreement shall be executed by FPL within thirty (30) calendar days of receipt of a completed application. If FPL determines that an Interconnection Study is necessary for a Customer, FPL shall execute the Interconnection Agreement within ninety (90) calendar days of a completed application.

(Continued on Sheet No. 9.067)

(Continued from Sheet No. 9.066)

**4. Inspection and On-Going Compliance**

- 4.1. All initial physical inspections and inspection of Customer's documents must be completed by FPL within thirty (30) calendar days of receipt of the Customer's executed Interconnection Agreement. If the inspection is delayed at the Customer's request, the Customer shall contact FPL to reschedule an inspection. FPL shall reschedule the inspection within ten (10) business days of the Customer's request. Physical inspections and inspection of documents must be completed and approved by FPL prior to commencement of service of the Customer-owned renewable generation system.
- 4.2. Any inspection or observation by FPL shall not be deemed to be or construed as any representation, assurance, guarantee, or warranty by FPL of the safety, durability, suitability, or reliability of the Customer-owned Renewable Generation or any associated control, protective, and safety devices owned or controlled by the Customer or the quality of power produced by the Customer-owned Renewable Generation.
- 4.3. FPL shall have the right to inspect Customer-owned renewable generation and its component equipment to ensure compliance with this Interconnection Agreement. FPL's system inspections shall include, but shall not be limited to:
  - a) any installed manual disconnect switch, as applicable;
  - b) FPL's metering equipment;
  - c) Any additional metering equipment installed by Customer; and
  - d) Customer utility-interactive inverter, protective device or other similar devices for compliance to applicable code and standards, as described in this Interconnection Agreement.
- 4.4. FPL shall also have the right to review Customer documents to ensure compliance with this Interconnection Agreement. FPL shall have the right to, at a minimum review:
  - a) technical design parameters of the system and the manufacture's installation;
  - b) operation and maintenance instructions to ensure compliance with IEEE and UL standards;
  - c) local inspection and certifications; and
  - d) other documents associated with specific installations.
- 4.5. FPL will provide Customer with as much notice as reasonably practicable, either in writing, e-mail, facsimile or by phone as to when FPL will conduct inspection and/or document review. Upon reasonable notice, or at any time without notice in the event of an emergency or hazardous condition, FPL shall have access to the Customer's premises for the purpose of accessing the manual disconnect switch, performing an inspection or disconnection, or, if necessary, to meet FPL's legal obligation to provide service to its Customers.

**5. Manual Disconnect Switch**

- 5.1 U.L.1741 Listed, inverter-based Tier 3 customer-owned renewable generation systems do not require customer-installed manual disconnect switch.
- 5.2 Other customer-owned Tier 3 renewable generation systems that are not U.L. 1741 inverter based. FPL shall require the Customer to install, at the Customer's expense, a manual disconnect switch of the visible load break type to provide a separation point between the AC power output of the Customer-owned renewable generation and any Customer wiring connected to FPL's system. The manual disconnect switch shall be mounted separate from, but adjacent to, the FPL meter socket. The Customer shall ensure that such manual disconnect switch shall remain readily accessible to FPL and be capable of being locked in the open position with a single FPL utility padlock.
- 5.3 In the event that FPL has determined in respect of the Customer-owned renewable generation that the installation of a manual disconnect switch or switches adjacent to FPL's meter socket would not be practical from a safety perspective and/or design considerations in accordance with good engineering practices; and FPL and the customer agree upon a location on the customer's premises for the switch or switches which meet all applicable safety and/or design considerations, then, pursuant to the conditions set forth in Section 5.2 above, each manual disconnect switch shall be mounted separate from FPL's meter socket at a location agreed to by the Customer and FPL, and the customer shall install a permanent weather-proof plaque adjacent to FPL's meter socket indicating the location of the manual disconnect switch or switches.

(Continued on Sheet No. 9.068)

(Continued from Sheet No. 9.067)

**6. Disconnection / Reconnection**

- 6.1. FPL may open the manual disconnect switch pursuant to the conditions set forth in Section 6.3 below, isolating the Customer-owned renewable generation, without prior notice to the Customer. To the extent practicable, however, prior notice shall be given. If prior notice is not given, FPL shall at the time of disconnection leave a door hanger notifying the Customer that its Customer-owned renewable generation has been disconnected, including an explanation of the condition necessitating such action. FPL will reconnect the Customer-owned renewable generation as soon as practicable after the condition(s) necessitating disconnection has been remedied.
- 6.2. Upon notice by FPL, the Customer shall be solely responsible to disconnect the Customer-owned renewable generation and Customer's other equipment if conditions on the FPL distribution system could adversely affect the Customer-owned renewable generation. FPL will not be responsible for damage to the Customer-owned renewable generation system due to adverse effects on the distribution system. Reconnection will be the Customer's responsibility and will not require an additional application.
- 6.3. FPL has the right to disconnect the Customer-owned renewable generation at any time. This may result for the following reasons:
- Emergencies or maintenance requirements on FPL's system;
  - Hazardous conditions existing on FPL's system due to the operation of the Customer's generating or protective equipment as determined by FPL;
  - Adverse electrical effects, such as power quality problems, on the electrical equipment of FPL's other electric consumers caused by the Customer-owned renewable generation as determined by FPL; and
  - Failure of the Customer to maintain the required insurance coverage as stated in Section 13.1 below.

**7. Modifications/Additions to Customer-owned Renewable Generation**

- 7.1. If the Customer-owned renewable generation is subsequently modified in order to increase its Gross Power Rating, the Customer must notify FPL by submitting a new application and Interconnection Agreement specifying the modification at least thirty (30) calendar days prior to making the modification.
- 7.2. If the Customer adds another Customer-owned renewable generation system which: i.) utilizes the same utility inter-active inverter, or other device certified pursuant to Section 3.1 above, for both systems; or ii.) utilizes a separate utility inter-active inverter, or other device certified pursuant to Section 3.1 above, for each system the Customer shall provide thirty (30) calendar days notice prior to installation.
- 7.3. The Interconnection Agreement which applies in instances described in Sections 7.1 and 7.2 above shall be determined by the combined Gross Power Rating of the generation system(s) which is connected to the FPL meter. In all instances described in this Section 7, the Customer shall submit a new application to FPL and shall enter into a new Interconnection Agreement. In no event shall the maximum output of the Customer-owned generation system(s), which is connected to the FPL meter exceed 2 MW.

**8. Interconnection Study Process****8.1. Fast Track Screens**

- 8.1.1. Fast Track Screens, described in Attachment 3 hereto, provide for an initial review of Customer's request for interconnection which evaluates whether the Customer's request exceeds an acceptable level of impact to the FPL electric system, consistent with prudent utility practice.
- 8.1.2. In order to pass the Fast Track Screens, Customer's interconnection shall not exceed established industry criteria, as set forth in the Interconnection Study Process and shall not require construction of Interconnection Facilities and Distribution Upgrades on FPL's electric system.
- 8.1.3. If the Customer's interconnection request passes the Fast Track Screens, the Customer's request shall be approved and Customer will be provided an executable Interconnection Agreement.

(Continued on Sheet No. 9.069)

(Continued from Sheet No. 9.068)

8.2 In those instances in which the Customer-owned renewable generation does not pass the Fast Track Screens the Customer may elect to proceed with an Interconnection Study. In general, the purpose of the Interconnection Study will be to better determine what material adverse impacts the Customer-owned renewable generation has on the FPL system and what facilities will be required to resolve such impacts.

8.3 Interconnection Study

8.3.1. The Interconnection Study Process shall be used by a Customer proposing to interconnect its certified Customer-owned renewable generation, in those instances in which such system did not pass the Fast Track Screens.

8.3.2. Upon Customer execution of the Interconnection Agreement; the Customer shall be obligated to pay for any and all costs for Interconnection Facilities and Distribution Upgrades identified in the Interconnection Study in order to interconnect the proposed Customer-owned renewable generation.

8.3.3. The Interconnection Study fee shall be \$2000.00 and will be invoiced to the Customer once it is determined that an Interconnection Study will be required. This determination will be made within ten (10) business days after a completed application is received. To the extent the actual costs of the Interconnection Study total less than \$2,000, the difference between the Interconnection Study fee and the actual costs will be refunded to the Customer within thirty (30) calendar days with no interest.

9. Cost Responsibility for Interconnection Facilities and Distribution Upgrades

9.1. The Customer shall pay FPL for the actual cost of any and all FPL Interconnection Facilities and Distribution Upgrades, itemized in Attachment 2, required to implement this Interconnection Agreement. FPL shall provide a best estimate cost, including overheads, for the purchase and construction of FPL's Interconnection Facilities and Distribution Upgrades required and shall provide a detailed itemization of such costs.

9.2. The Customer shall be responsible for all reasonable expenses, including overheads, associated with: i.) owning, operating, maintaining, repairing, and replacing its own Interconnection Facilities and other equipment; and ii.) operating, maintaining, repairing, and replacing FPL's Interconnection Facilities and Distribution Upgrades.

9.3. FPL shall design, procure, construct, install and own the Interconnection Facilities and Distribution Upgrades, described in Attachment 2, required for FPL to implement this Interconnection Agreement. If FPL and the Customer agree, the Customer may construct Interconnection Facilities and Distribution Upgrades that are located on land owned by the Customer. The actual cost of Interconnection Facilities and Distribution Upgrades, including overheads, shall be directly assigned to and paid by the Customer.

10. Indemnity

10.1. Customer, to the extent permitted by law without waiving or limiting any defense of sovereign immunity, shall indemnify, hold harmless and defend FPL from and against any and all judgments, losses, damages, claims relating to injury to or death of any person or damage to property (including the Customer-owned renewable generation system), fines and penalties, costs and expenses arising out of or resulting from the operation of the Customer-owned renewable generation system, except in those instances where such loss is due to the negligent action or inactions of FPL. Nothing herein shall be intended to serve as a waiver or limitation of Customer's sovereign immunity defense as allowed by law.

(Continued on Sheet No. 9.070)

(Continued from Sheet No. 9.069)

10.2 FPL shall indemnify, hold harmless and defend Customer from and against any and all judgments, losses, damages, claims relating to injury to or death of any person or damage to property (including FPL's transmission system), fines and penalties, costs and expenses arising out of or resulting from the operation of FPL's system, except in those instances where such loss is due to the negligent action or inactions of the Customer.

11. **Limitation of Liability**

11.1 Liability under this Interconnection Agreement for any loss, cost, claim, injury, liability, or expense, including reasonable attorney's fees, relating to or arising from any act or omission in its performance of this Interconnection Agreement, shall be limited to the amount of direct damage actually incurred. In no event shall the indemnifying Party be liable to the other Party for any indirect, special, consequential, or punitive damages, except as authorized by this Interconnection Agreement.

12. **Assignment**

12.1 The Interconnection Agreement shall be assignable by either Party upon thirty (30) calendar days notice to the other party and written consent of the other Party, which consent shall not be unreasonably withheld or delayed.

12.2 An assignee to this Interconnection Agreement shall be required to assume in writing the Customer's rights, responsibilities, and obligations under this Interconnection Agreement; or execute a new Interconnection Agreement.

13. **Insurance**

13.1 The Customer agrees to provide and maintain general liability insurance for personal and property damage, or sufficient guarantee and proof of self-insurance, in the amount of not less than \$2 million during the entire period of this Interconnection Agreement, to the extent permitted by law. Initial proof of insurance shall be in the form of a copy of the policy or certificate of insurance attached to this Interconnection Agreement evidencing the Homeowner's or other insurance policy in effect at the time of interconnection. For government entities, the policy coverage shall not exceed the entity's maximum liability established by law. Proof of self-insurance consistent with law shall satisfy this requirement.

14. **Renewable Energy Certificates**

14.1 The Customer shall retain any Renewable Energy Certificates associated with the electricity produced by their Customer-owned renewable generation equipment; any additional meters necessary for measuring the total renewable electricity generated for the purposes of receiving Renewable Energy Certificates shall be installed at the Customer's expense, unless otherwise determined during negotiations for the sale of the Customer's Renewable Energy Certificates to FPL.

15. **Billing, Payment, and Financial Security**

15.1 FPL shall bill the Customer for the design, engineering, construction, and procurement costs of FPL's Interconnection Facilities and Distribution Upgrades contemplated by this Interconnection Agreement on a monthly basis, or as otherwise agreed by the Parties. The Customer shall pay each bill within thirty (30) calendar days of receipt, or as otherwise agreed to by the Parties.

(Continued on Sheet No. 9.071)

(Continued from Sheet No. 9.070)

- 15.2. Within three months of completing the construction and installation of FPL's Interconnection Facilities and Distribution Upgrades, described in Attachment 2, required to implement this Interconnection Agreement, FPL shall provide the Customer with a final accounting report of any difference between i.) the Customer's cost responsibility for the actual cost of such Interconnection Facilities and Distribution Upgrades, and ii.) the Customer's previous aggregate payments to FPL for such Interconnection Facilities and Distribution Upgrades. If the Customer's cost responsibility exceeds its previous aggregate payments, FPL shall invoice the Customer for the amount due, without interest, and the Customer shall make payment to FPL within thirty (30) calendar days. If the Customer's previous aggregate payments exceed its cost responsibility under this Interconnection Agreement, FPL shall refund to the Customer an amount equal to the difference, without interest, within thirty (30) calendar days of the final accounting report.
- 15.3. At least twenty (20) calendar days prior to the commencement of the design, procurement, installation, or construction of a discrete portion of FPL's Interconnection Facilities and Distribution Upgrades, the Customer shall provide FPL, at the Customer's option, a guarantee, a surety bond, letter of credit or other form of security that is reasonably acceptable to FPL and is consistent with the Uniform Commercial Code of the jurisdiction where the Point of Interconnection is located. Such security for payment shall be in an amount sufficient to cover the costs for constructing, designing, procuring and installing the applicable portion of FPL's Interconnection Facilities and Distribution Upgrades and shall be reduced on a dollar-for-dollar basis for payments made to FPL under this Interconnection Agreement during its term.
- 15.4. In accordance with Section 9.2 above, the Customer shall be billed by FPL for operation, maintaining, repairing, and replacing FPL's Interconnection Facilities and Distribution Upgrades. The Customer shall be billed upon completion of such work by FPL; Customer shall make payment to FPL within twenty (20) calendar days of the receipt of FPL's bill.

16. **Lease Agreements**

- 16.1. The Customer shall provide FPL a copy of the lease agreement, as applicable, for any and all leased interconnection equipment.
- 16.2. The Customer shall not enter into any lease agreement that results in the retail purchase of electricity; or the retail sale of electricity from the Customer-owned renewable generation. Notwithstanding this restriction, in the event it is determined by the Florida Public Service Commission that the Customer has entered such an agreement, the Customer shall be in breach of this Interconnection Agreement and the lessor may become subject to the jurisdiction and regulations of the Florida Public Service Commission as a public utility.

17. **Dispute Resolution**

- 17.1. Disputes between the Parties shall be handled in accordance with subsection 11 of Florida Public Service Commission Rule 25-6.065 F.A.C. - Interconnection and Net Metering of Customer-Owned Renewable Generation.

18. **Effective Date**

- 18.1. The Customer must execute this Interconnection Agreement and return it to FPL at least thirty (30) calendar days prior to beginning parallel operations and the Customer must begin parallel operation within one year after FPL executes the Interconnection Agreement.

19. **Termination**

- 19.1. Upon termination of this Interconnection Agreement, FPL shall open and padlock the manual disconnect switch, if applicable, and remove the Net Metering and associated FPL equipment. At the Customer's expense, the Customer agrees to permanently disconnect the Customer-owned renewable generation and associated equipment from FPL's electric service grid. The Customer shall notify FPL in writing within ten (10) calendar days that the disconnect procedure has been completed.

(Continued on Sheet No. 9.072)

(Continued from Sheet No. 9.071)

20. Amendments to Florida Public Service Commission Rules

20.1 FPL and Customer recognize that the Florida Public Service Commission rules may be amended from time to time. In the event that Florida Public Service Commission rules are modified, FPL and Customer agree to supersede and replace this Interconnection Agreement with a new Interconnection Agreement which complies with the amended Florida Public Service Commission rules.

21. Notices

21.1 This Interconnection Agreement, any written notice, demand, or request required or authorized in connection with this Interconnection Agreement shall be deemed properly given if delivered in person, delivered by recognized national courier service, or sent by first class mail, postage prepaid, to the person specified below:

22. Entire Agreement

22.1 This Interconnection Agreement supersedes all previous agreements or representations, either written or oral, heretofore in effect between FPL and the Customer, made in respect to matters herein contained, and when duly executed, this Interconnection Agreement constitutes the entire agreement between Parties hereto.

23. Governmental Entities

23.1 For those customers, which are government entities, provisions within this agreement will apply to the extent the agency is not legally barred from executing such provisions by State or Federal law.

DISTRIBUTION UPGRADES TO BE PAID TO FPL**

**ATTACHMENT 3 - INTERCONNECTION AGREEMENT FOR CUSTOMER-OWNED RENEWABLE GENERATION TIER 3**

**FAST TRACK SCREENS**

**1. Applicability**

The Fast Track Screens process is available to a Customer proposing to interconnect its Customer-owned renewable generation Tier 3 system with FPL’s system and if the Customer’s proposed Customer-owned renewable generation system meets the codes, standards, and certifications requirements of the Interconnection Agreement.

**2. Initial Review**

Within ten (10) business days after FPL receives a completed application FPL shall perform an initial review using the screens set forth below; shall notify the Customer of the results; and shall include with such notification copies of the analysis and data underlying FPL’s determinations under the screens.

**2.1 Screens**

- 2.1.1 For interconnection of a proposed Customer-owned renewable generation system to a radial distribution circuit, the aggregated generation, including the proposed Customer- owned renewable generation, on the circuit shall not exceed 15 % of the line section annual peak load as most recently measured at the substation. A line section is that portion of FPL’s electric system connected to a Customer bounded by automatic sectionalizing devices or the end of the distribution line.
- 2.1.2 For interconnection of a proposed Customer-owned renewable generation system to the load side of spot network protectors, the Customer-owned renewable generation system must utilize an equipment package in compliance with the terms of the Interconnection Agreement.
- 2.1.3 The proposed Customer-owned renewable generation system, in aggregation with other generation on the distribution circuit, shall not contribute more than 10 % to the distribution circuit’s maximum fault current at the point on the high voltage (primary) level nearest the proposed Point of Interconnection/Change of Ownership.
- 2.1.4 The proposed Customer-owned renewable generation system, in aggregate with other generation on the distribution circuit, shall not cause any distribution protective devices and equipment (including, but not limited to, substation breakers, fuse cutouts, and line reclosers), or Customer equipment on the system to exceed 87.5% of the short circuit interrupting capability; nor shall the interconnection be proposed for a circuit that already exceeds 87.5% of the short circuit interrupting capability.
- 2.1.5 Using the table below, determine the type of interconnection to a primary distribution line. This screen includes a review of the type of electrical service provided to the Customer, including line configuration and the transformer connection to limit the potential for creating over-voltages on FPL’s electric power system due to a loss of ground during the operating time of any anti-islanding function.

<b>Primary Distribution Line Type</b>	<b>Type of Interconnection to Primary Distribution Line</b>	<b>Result/Criteria</b>
Three-phase, three wire	3-phase or single phase, phase-to-phase	Pass screen
Three-phase, four wire	Effectively-grounded 3 phase or Single-phase, line-to-neutral	Pass screen

(Continued from Sheet No. 9.075)

- 2.1.1 If the proposed Customer-owned renewable generation system is to be interconnected on single-phase shared secondary, the aggregate generation capacity on the shared secondary, including the proposed Customer-owned renewable generation system, shall not exceed 90% of the Customer's utility distribution service rating.
  - 2.1.2 If the proposed Customer-owned renewable generation system is single-phase and is to be interconnected on a center tap neutral of a 240 volt service, its addition shall not create an imbalance between the two sides of the 240 volt service of more than 20 % of the nameplate rating of the service transformer.
  - 2.1.3 The proposed Customer-owned renewable generation system, in aggregate with other generation interconnected to the transmission side of a substation transformer feeding the circuit where the Customer-owned renewable generation system proposes to interconnect shall not exceed 10 MW in an area where there are known, or posted, transient stability limitations to generating units located in the general electrical vicinity (e.g., three or four transmission busses from the Point of Interconnection/Change of Ownership).
  - 2.1.4 No construction of facilities by FPL on its own system shall be required to accommodate the Customer-owned renewable generation system.
- 2.2 If the proposed interconnection passes the Fast Track Screens, the interconnection request shall be approved and FPL will provide the Customer an executable Interconnection Agreement within ten (10) business days after such determination.

**STREET LIGHTING AGREEMENT**

In accordance with the following terms and conditions, \_\_\_\_\_

\_\_\_\_\_ (hereinafter called the Customer), requests on this \_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, from FLORIDA POWER & LIGHT COMPANY (hereinafter called FPL), a corporation organized and existing under the laws of the State of Florida, the following installation or modification of street lighting facilities at (general boundaries): \_\_\_\_\_

located in \_\_\_\_\_, Florida.  
 (city/county)

(a) Installation and/or removal of FPL-owned facilities described as follows:

Lights Installed			Lights Removed		
Fixture Rating (in Lumens)	Fixture Type	# Installed	Fixture Rating (in Lumens)	Fixture Type	# Removed
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

Poles Installed		Poles Removed		Conductors Installed		Conductors Removed	
Pole Type	# Installed	Pole Type	# Removed	_____ Feet not Under Paving	_____ Feet not Under Paving	_____ Feet Under Paving	_____ Feet Under Paving
_____	_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____	_____	_____

(b) Modification to existing facilities other than described above (explain fully):

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

That, for and in consideration of the covenants set forth herein, the parties hereto covenant and agree as follows:

**FPL AGREES:**

- To install or modify the street lighting facilities described and identified above (hereinafter called the Street Lighting System), furnish to the Customer the electric energy necessary for the operation of the Street Lighting System, and furnish such other services as are specified in this Agreement, all in accordance with the terms of FPL's currently effective street lighting rate schedule on file at the Florida Public Service Commission (FPSC) or any successive street lighting rate schedule approved by the FPSC.

(Continued on Sheet No. 9.101)

(Continued from Sheet No. 9.100)

**THE CUSTOMER AGREES:**

2. To pay a contribution in the amount of \$\_\_\_\_\_ prior to FPL's initiating the requested installation or modification.
3. To purchase from FPL all of the electric energy used for the operation of the Street Lighting System.
4. To be responsible for paying, when due, all bills rendered by FPL pursuant to FPL's currently effective street lighting rate schedule on file at the FPSC or any successive street lighting rate schedule approved by the FPSC, for facilities and service provided in accordance with this agreement.
5. To provide access, final grading and, when requested, good and sufficient easements, suitable construction drawings showing the location of existing and proposed structures, identification of all non-FPL underground facilities within or near pole or trench locations, and appropriate plats necessary for planning the design and completing the construction of FPL facilities associated with the Street Lighting System.
6. To perform any clearing, compacting, removal of stumps or other obstructions that conflict with construction, and drainage of rightsof-way or easements required by FPL to accommodate the street lighting facilities.

**IT IS MUTUALLY AGREED THAT:**

7. Modifications to the facilities provided by FPL under this agreement, other than for maintenance, may only be made through the execution of an additional street lighting agreement delineating the modifications to be accomplished. Modification of FPL street lighting facilities is defined as the following:
  - a. the addition of street lighting facilities;
  - b. the removal of street lighting facilities; and
  - c. the removal of street lighting facilities and the replacement of such facilities with new facilities and/or additional facilities.

Modifications will be subject to the costs identified in FPL's currently effective street lighting rate schedule on file at the FPSC, or any successive schedule approved by the FPSC.

8. FPL will, at the request of the Customer, relocate the street lighting facilities covered by this agreement, if provided sufficient right-of-ways or easements to do so. The Customer shall be responsible for the payment of all costs associated with any such Customer- requested relocation of FPL street lighting facilities. Payment shall be made by the Customer in advance of any relocation.
9. FPL may, at any time, substitute for any luminaire/lamp installed hereunder another luminaire/lamp which shall be of at least equal illuminating capacity and efficiency.
10. This Agreement shall be for a term of ten (10) years from the date of initiation of service, and, except as provided below, shall extend thereafter for further successive periods of five (5) years from the expiration of the initial ten (10) year term or from the expiration of any extension thereof. The date of initiation of service shall be defined as the date the first lights are energized and billing begins, not the date of this Agreement. This Agreement shall be extended automatically beyond the initial ten (10) year term or any extension thereof, unless either party shall have given written notice to the other of its desire to terminate this Agreement. The written notice shall be by certified mail and shall be given not less than ninety (90) days before the expiration of the initial ten (10) year term, or any extension thereof.
11. In the event street lighting facilities covered by this agreement are removed, either at the request of the Customer or through termination or breach of this agreement, the Customer shall be responsible for paying to FPL an amount equal to the original installed cost of the facilities provided by FPL under this agreement less any salvage value and any depreciation (based on current depreciation rates as approved by the FPSC) plus removal cost.

(Continued on Sheet No. 9.102)

(Continued from Sheet No. 9.101)

- 12. Should the Customer fail to pay any bills due and rendered pursuant to this agreement or otherwise fail to perform the obligations contained in this Agreement, said obligations being material and going to the essence of this Agreement, FPL may cease to supply electric energy or service until the Customer has paid the bills due and rendered or has fully cured such other breach of this Agreement. Any failure of FPL to exercise its rights hereunder shall not be a waiver of its rights. It is understood, however, that such discontinuance of the supplying of electric energy or service shall not constitute a breach of this Agreement by FPL, nor shall it relieve the Customer of the obligation to perform any of the terms and conditions of this Agreement.
- 13. The obligation to furnish or purchase service shall be excused at any time that either party is prevented from complying with this Agreement by strikes, lockouts, fires, riots, acts of God, the public enemy, or by cause or causes not under the control of the party thus prevented from compliance, and FPL shall not have the obligation to furnish service if it is prevented from complying with this Agreement by reason of any partial, temporary or entire shut-down of service which, in the sole opinion of FPL, is reasonably necessary for the purpose of repairing or making more efficient all or any part of its generating or other electrical equipment.
- 14. This Agreement supersedes all previous Agreements or representations, either written, oral or otherwise between the Customer and FPL, with respect to the facilities referenced herein and constitutes the entire Agreement between the parties. This Agreement does not create any rights or provide any remedies to third parties or create any additional duty, obligation or undertakings by FPL to third parties.
- 15. In the event of the sale of the real property upon which the facilities are installed, upon the written consent of FPL, this Agreement may be assigned by the Customer to the Purchaser. No assignment shall relieve the Customer from its obligations hereunder until such obligations have been assumed by the assignee and agreed to by FPL.
- 16. This Agreement shall inure to the benefit of, and be binding upon the successors and assigns of the Customer and FPL.
- 17. This Agreement is subject to FPL's Electric Tariff, including, but not limited to, the General Rules and Regulations for Electric Service and the Rules of the FPSC, as they are now written, or as they may be hereafter revised, amended or supplemented. In the event of any conflict between the terms of this Agreement and the provisions of the FPL Electric Tariff or the FPSC Rules, the provisions of the Electric Tariff and FPSC Rules shall control, as they are now written, or as they may be hereafter revised, amended or supplemented.

**IN WITNESS WHEREOF**, the parties hereby caused this Agreement to be executed in triplicate by their duly authorized representatives to be effective as of the day and year first written above.

**STREET LIGHTING FIXTURE VANDALISM OPTION NOTIFICATION**

In accordance with the terms and conditions of Street Lighting Tariff Sheet Number 8.717,

\_\_\_\_\_ (hereinafter called the Customer), selects on this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, from FLORIDA POWER AND LIGHT COMPANY (hereinafter called FPL), a corporation organized and existing under the laws of the State of Florida, the following option(s) for addressing street lighting vandalism:

Please select one option under column **A** for street light fixtures that are eligible for protective shield installations and one option under column **B** for street light fixtures that are ineligible for protective shield installations.

- | <u><b>A</b></u> | <u><b>B</b></u> |  |
|-----------------|-----------------|--|
| ___             | N/A             | Upon the <u>first occurrence</u> of vandalism to any FPL-owned street lighting fixture, replace the damaged fixture with a shielded cutoff cobra head fixture. The customer shall pay a one-time charge of \$280.00 per shielded fixture.  |
| ___             | N/A             | Upon the <u>second occurrence</u> of vandalism to any FPL-owned street lighting fixture, replace the damaged fixture with a shielded cutoff cobra head fixture. The customer shall pay a one-time charge of \$280.00 per shielded fixture plus all associated installation and administrative costs.   |
| ___             | ___             | Upon the <u>second occurrence</u> of vandalism to any FPL-owned street lighting fixture, repair or replace the damaged fixture with a like unshielded fixture. For this, and each subsequent occurrence, the customer shall pay the costs specified under the " <u>Removal of Facilities</u> " section of Street Lighting Tariff Sheet Number 8.716. |
| ___             | ___             | Upon the <u>second occurrence</u> of vandalism to any FPL-owned street lighting fixture, terminate service to the fixture. The customer shall pay the undepreciated value of the fixture.  |

Option selections will apply to all fixtures that FPL has installed on the Customer's behalf. Selection changes may be made by the Customer at any time and will become effective ninety (90) days after written notice is received.

 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

Total work order cost is \$ \_\_\_\_\_

That, for and in consideration of the covenants set forth herein, the parties hereto covenant and agree as follows:

**FPL AGREES:**

- To install or modify the premium lighting facilities described and identified above (hereinafter called the Premium Lighting System), furnish to the Customer the electric energy necessary for the operation of the Premium Lighting System, and furnish such other services as are specified in this Agreement, all in accordance with the terms of FPL's currently effective Premium Lighting rate schedule on file at the Florida Public Service Commission (FPSC) or any successive Premium Lighting rate schedule approved by the FPSC.

(Continued on Sheet No. 9.121)

(Continued from Sheet No. 9.120)

**THE CUSTOMER AGREES:**

2. To purchase from FPL all of the electric energy used for the operation of the Premium Lighting System.
3. To be responsible for paying, when due, all bills rendered by FPL pursuant to FPL's currently effective Premium Lighting rate schedule on file at the FPSC or any successive Premium Lighting rate schedule approved by the FPSC, for facilities and service provided in accordance with this Agreement.
4. To provide access, final grading and, when requested, good and sufficient easements, suitable construction drawings showing the location of existing and proposed structures, identification of all non-FPL underground facilities within or near pole or trench locations, and appropriate plats necessary for planning the design and completing the construction of FPL facilities associated with the Premium Lighting System.
5. To perform any clearing, compacting, removal of stumps or other obstructions that conflict with construction, and drainage of rights of-way or easements required by FPL to accommodate the premium lighting facilities.

**IT IS MUTUALLY AGREED THAT:**

6. Modifications to the facilities provided by FPL under this Agreement, other than for maintenance, may only be made through the execution of an additional Premium Lighting Agreement delineating the modifications to be accomplished. Modification of FPL premium lighting facilities is defined as the following:
  - a. the addition of premium lighting facilities;
  - b. the removal of premium lighting facilities; and
  - c. the removal of premium lighting facilities and the replacement of such facilities with new facilities and/or additional facilities.

Modifications will be subject to the costs identified in FPL's currently effective Premium Lighting rate schedule on file at the FPSC, or any successive schedule approved by the FPSC.

7. FPL will, at the request of the Customer, relocate the premium lighting facilities covered by this Agreement, if provided sufficient right-of-ways or easements to do so. The Customer shall be responsible for the payment of all costs associated with any such Customer-requested relocation of FPL premium lighting facilities.
8. FPL may, at any time, substitute for any luminaire/lamp installed hereunder another luminaire/lamp which shall be of at least equal illuminating capacity and efficiency.
9. FPL will ensure the facilities remain in working condition and it will repair any facilities as soon as practical following notification by the Customer that such work is necessary. The Company agrees to make reasonable effort to obtain facilities for use in repairs or replacement to match the original facilities. The Company, however, does not guarantee that facilities will always be available as manufacturers of facilities may no longer make such facilities available or other circumstances beyond the Company's control. In the event the original facilities are no longer available, FPL will provide and the Customer agrees to a similar kind and quantity.
10. This Agreement shall be for a term of twenty (20) years from the date of initiation of service. The date of initiation of service shall be defined as the date the first lights are energized and billing begins, not the date of this Agreement. At the end of the term of service, the Customer may elect to execute a new Agreement based on the current estimated replacement cost.
11. The Customer will pay for these facilities as described in this Agreement by paying
  - a. a lump sum of \$ \_\_\_\_\_ in advance of construction.
12. The monthly Maintenance Charge is \$ \_\_\_\_\_. This charge may be adjusted subject to review and approval by the Florida Public Service Commission.
13. The monthly Billing Charge is \$ \_\_\_\_\_. This charge may be adjusted subject to review and approval by the Florida Public Service Commission.

(Continued on Sheet No. 9.122)

(Continued from Sheet No. 9.121)

- 14. In the event of the sale of the real property upon which the facilities are installed, upon the written consent of FPL, this Agreement may be assigned by the Customer to the Purchaser. No assignment shall relieve the Customer from its obligations hereunder until such obligations have been assumed by the assignee and agreed to by FPL.
- 15. Should the Customer fail to pay any bills due and rendered pursuant to this Agreement or otherwise fail to perform the obligations contained in this Agreement, said obligations being material and going to the essence of this Agreement, FPL may cease to supply electric energy or service until the Customer has paid the bills due and rendered or has fully cured such other breach of this Agreement. Any failure of FPL to exercise its rights hereunder shall not be a waiver of its rights. It is understood, however, that such discontinuance of the supplying of electric energy or service shall not constitute a breach of this Agreement by FPL, nor shall it relieve the Customer of the obligation to perform any of the terms and conditions of this Agreement.
- 16. If the Customer no longer wishes to receive service under this schedule, the Customer may terminate the Premium Lighting Agreement by giving the Company at least (90) ninety days advance written notice to the Company. Upon early termination of service, the Customer shall pay an amount computed by applying the Termination Factors, as stated in rate schedule PL-1, to the total work order cost of the facilities, based on the year in which the Agreement was terminated. These Termination Factors will not apply to Customers who elected to pay for the facilities in a lump sum in lieu of a monthly payment. At FPL's discretion, the Customer will be responsible for the cost to the utility of removing the facilities.
- 17. The obligation to furnish or purchase service shall be excused at any time that either party is prevented from complying with this Agreement by strikes, lockouts, fires, riots, acts of God, the public enemy, or by cause or causes not under the control of the party thus prevented from compliance, and FPL shall not have the obligation to furnish service if it is prevented from complying with this Agreement by reason of any partial, temporary or entire shut-down of service which, in the sole opinion of FPL, is reasonably necessary for the purpose of repairing or making more efficient all or any part of its generating or other electrical equipment.
- 18. This Agreement supersedes all previous Agreements or representations, either written, oral or otherwise between the Customer and FPL, with respect to the facilities referenced herein and constitutes the entire Agreement between the parties. This Agreement does not create any rights or provide any remedies to third parties or create any additional duty, obligation or undertakings by FPL to third parties.
- 19. This Agreement shall inure to the benefit of, and be binding upon the successors and assigns of the Customer and FPL.
- 20. This Agreement is subject to FPL's Electric Tariff, including, but not limited to, the General Rules and Regulations for Electric Service and the Rules of the FPSC, as they are now written, or as they may be hereafter revised, amended or supplemented. In the event of any conflict between the terms of this Agreement and the provisions of the FPL Electric Tariff or the FPSC Rules, the provisions of the Electric Tariff and FPSC Rules shall control, as they are now written, or as they may be hereafter revised, amended or supplemented.

**IN WITNESS WHEREOF**, the parties hereby caused this Agreement to be executed in triplicate by their duly authorized representatives to be effective as of the day and year first written above.

**RECREATIONAL LIGHTING AGREEMENT**

In accordance with the following terms and conditions, \_\_\_\_\_

\_\_\_\_\_ (hereinafter called the Customer), requests on this \_\_\_\_\_, day of \_\_\_\_\_, \_\_\_\_\_, from FLORIDA POWER & LIGHT COMPANY (hereinafter called FPL), a corporation organized and existing under the laws of the State of Florida, the following installation or modification of recreational lighting facilities at (general boundaries): located in \_\_\_\_\_, Florida. This agreement is available and applicable only for customers, who, as of January 16, 2001 were either taking service under the Recreational Lighting Rate Schedule or had fully executed this agreement with FPL.

- (a) Installation and/or removal of FPL-owned facilities described as follows:  
See Attachment

- (b) Modification to existing facilities other than described above (explain fully):

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Total work order cost \$\_\_\_\_\_.

That, for and in consideration of the covenants set forth herein, the parties hereto covenant and agree as follows:

**FPL AGREES:**

1. To install or modify the recreational lighting facilities described and identified above (hereinafter called the Recreational Lighting System), furnish to the Customer the electric energy necessary for the operation of the Recreational Lighting System, and furnish such other services as are specified in this Agreement, all in accordance with the terms of FPL's currently effective Recreational Lighting rate schedule on file at the Florida Public Service Commission (FPSC) or any successive Recreational Lighting rate schedule approved by the FPSC.

(Continued on Sheet No. 9.131)

(Continued from Sheet No. 9.130)

**THE CUSTOMER AGREES:**

2. To purchase from FPL all of the electric energy used for the operation of the Recreational Lighting System.
3. To be responsible for paying, when due, all bills rendered by FPL pursuant to FPL's currently effective Recreational Lighting rate schedule on file at the FPSC or any successive Recreational Lighting rate schedule approved by the FPSC, for facilities and service provided in accordance with this Agreement.
4. To provide access, final grading and, when requested, good and sufficient easements, suitable construction drawings showing the location of existing and proposed structures, identification of all non-FPL underground facilities within or near pole or trench locations, and appropriate plats necessary for planning the design and completing the construction of FPL facilities associated with the Recreational Lighting System.
5. To perform any clearing, compacting, removal of stumps or other obstructions that conflict with construction, and drainage of rights-of-way or easements required by FPL to accommodate the recreational lighting facilities.

**IT IS MUTUALLY AGREED THAT:**

6. Modifications to the facilities provided by FPL under this Agreement, other than for maintenance, may only be made through the execution of an additional Recreational Lighting Agreement delineating the modifications to be accomplished. Modification of FPL recreational lighting facilities is defined as the following:
  - a. the addition of recreational lighting facilities;
  - b. the removal of recreational lighting facilities; and
  - c. the removal of recreational lighting facilities and the replacement of such facilities with new facilities and/or additional facilities.

Modifications will be subject to the costs identified in FPL's currently effective Recreational Lighting rate schedule on file at the FPSC, or any successive schedule approved by the FPSC.

7. FPL will, at the request of the Customer, relocate the recreational lighting facilities covered by this Agreement, if provided sufficient right-of-ways or easements to do so. The Customer shall be responsible for the payment of all costs associated with any such Customer-requested relocation of FPL recreational lighting facilities.
8. FPL may, at any time, substitute for any luminaire/lamp installed hereunder another luminaire/lamp which shall be of at least equal illuminating capacity and efficiency.
9. FPL will ensure the facilities remain in working condition and it will repair any facilities as soon as practical following notification by the Customer that such work is necessary. The Company agrees to make reasonable effort to obtain facilities for use in repairs or replacement to match the original facilities. The Company, however, does not guarantee that facilities will always be available as manufacturers of facilities may no longer make such facilities available or other circumstances beyond the Company control. In the event the original facilities are no longer available, FPL will provide and the Customer agrees to a similar kind and quantity.
10. This Agreement shall be for a term of twenty (20) years from the date of initiation of service. The date of initiation of service shall be defined as the date the first lights are energized and billing begins, not the date of this Agreement. At the end of the term of service, the Customer may elect to execute a new Agreement based on the current estimated replacement cost.
11. The Customer will pay for these facilities as described in this Agreement by paying
  - a. lump sum of \$ \_\_\_\_\_ in advance of construction.
12. The monthly Maintenance Charge is \$ \_\_\_\_\_. This charge may be adjusted subject to review and approval by the Florida Public Service Commission.

(Continued on Sheet No. 9.132)

(Continued from Sheet No. 9.131)

- 13. The monthly Billing Charge is \$ \_\_\_\_\_. This charge may be adjusted subject to review and approval by the Florida Public Service Commission.
- 14. In the event of the sale of the real property upon which the facilities are installed, upon the written consent of FPL, this Agreement may be assigned by the Customer to the Purchaser. No assignment shall relieve the Customer from its obligations hereunder until such obligations have been assumed by the assignee and agreed to by FPL.
- 15. Should the Customer fail to pay any bills due and rendered pursuant to this Agreement or otherwise fail to perform the obligations contained in this Agreement, said obligations being material and going to the essence of this Agreement, FPL may cease to supply electric energy or service until the Customer has paid the bills due and rendered or has fully cured such other breach of this Agreement. Any failure of FPL to exercise its rights hereunder shall not be a waiver of its rights. It is understood, however, that such discontinuance of the supplying of electric energy or service shall not constitute a breach of this Agreement by FPL, nor shall it relieve the Customer of the obligation to perform any of the terms and conditions of this Agreement.
- 16. If the Customer no longer wishes to receive service under this schedule, the Customer may terminate the Recreational Lighting Agreement by giving the Company at least (90) ninety days advance written notice to the Company. Upon early termination of service, the Customer shall pay an amount computed by applying the Termination Factors, as stated in rate schedule RL-1, to the total work order cost of the facilities, based on the year in which the Agreement was terminated. These Termination Factors will not apply to Customers who elected to pay for the facilities in a lump sum in lieu of a monthly payment. At FPL's discretion, the Customer will be responsible for the cost to the utility for removing the facilities.
- 17. The obligation to furnish or purchase service shall be excused at any time that either party is prevented from complying with this Agreement by strikes, lockouts, fires, riots, acts of God, the public enemy, or by cause or causes not under the control of the party thus prevented from compliance, and FPL shall not have the obligation to furnish service if it is prevented from complying with this Agreement by reason of any partial, temporary or entire shut-down of service which, in the sole opinion of FPL, is reasonably necessary for the purpose of repairing or making more efficient all or any part of its generating or other electrical equipment.
- 18. This Agreement supersedes all previous Agreements or representations, either written, oral or otherwise between the Customer and FPL, with respect to the facilities referenced herein and constitutes the entire Agreement between the parties. This Agreement does not create any rights or provide any remedies to third parties or create any additional duty, obligation or undertakings by FPL to third parties.
- 19. This Agreement shall inure to the benefit of, and be binding upon the successors and assigns of the Customer and FPL.
- 20. This Agreement is subject to FPL's Electric Tariff, including, but not limited to, the General Rules and Regulations for Electric Service and the Rules of the FPSC, as they are now written, or as they may be hereafter revised, amended or supplemented. In the event of any conflict between the terms of this Agreement and the provisions of the FPL Electric Tariff or the FPSC Rules, the provisions of the Electric Tariff and FPSC Rules shall control, as they are now written, or as they may be hereafter revised, amended or supplemented.

**IN WITNESS WHEREOF**, the parties hereby caused this Agreement to be executed in triplicate by their duly authorized representatives to be effective as of the day and year first written above.

**LED LIGHTING AGREEMENT**

In accordance with the following terms and conditions, \_\_\_\_\_ (hereinafter called the Customer), requests on this \_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, from FLORIDA POWER & LIGHT COMPANY (hereinafter called FPL), a corporation organized and existing under the laws of the State of Florida, the following installation or modification of lighting facilities at (general boundaries) \_\_\_\_\_, located in \_\_\_\_\_, Florida.

(a) Installation and/or removal of FPL-owned facilities described as follows:

<b><u>Poles</u></b>				
<b>Pole Type</b>	<b>Existing Pole Count (A)</b>	<b># Installed (B)</b>	<b># Removed (C)</b>	<b>New Pole Count (A+B-C)</b>
Wood				
Standard Concrete				
Standard Fiberglass				
Decorative Concrete				
Decorative Fiberglass				

<b><u>Underground Conductor</u></b>				
<b>Type</b>	<b>Existing Footage (A)</b>	<b>Feet Installed (B)</b>	<b>Feet Removed (C)</b>	<b>New Footage (A+B-C)</b>
Under Pavement		N/A <sup>(1)</sup>		
Not Under Pavement				

(1) All new conductor installed is in conduit and billed as Not Under Pavement

(Continued on Sheet No. 9.141)

(b) Modification to existing facilities other than described above (explain fully): \_\_\_\_\_  
\_\_\_\_\_

That, for and in consideration of the covenants set forth herein, the parties hereto covenant and agree as follows:

**FPL AGREES:**

1. To install or modify the lighting facilities described and identified above (hereinafter called the Lighting System), furnish to the Customer the electric energy necessary for the operation of the Lighting System, and furnish such other services as are specified in this Agreement, all in accordance with the terms of FPL's currently effective lighting rate schedule on file at the Florida Public Service Commission (FPSC) or any successive lighting rate schedule approved by the FPSC.

**THE CUSTOMER AGREES:**

2. To pay a contribution in the amount of \$\_\_\_\_\_ prior to FPL's initiating the requested installation or modification.
3. To purchase from FPL all of the electric energy used for the operation of the Lighting System.
4. To be responsible for paying, when due, all bills rendered by FPL pursuant to FPL's currently effective lighting rate schedule on file at the FPSC or any successive lighting rate schedule approved by the FPSC, for facilities and service provided in accordance with this agreement.
5. To provide access, final grading and, when requested, good and sufficient easements, suitable construction drawings showing the location of existing and proposed structures, identification of all non-FPL underground facilities within or near pole or trench locations, and appropriate plats necessary for planning the design and completing the construction of FPL facilities associated with the Lighting System.
6. To perform any clearing, compacting, removal of stumps or other obstructions that conflict with construction, and drainage of rights-of-way or easements required by FPL to accommodate the lighting facilities.

**IT IS MUTUALLY AGREED THAT:**

7. Modifications to the facilities provided by FPL under this agreement, other than for maintenance, may only be made through the execution of an additional lighting agreement delineating the modifications to be accomplished. Modification of FPL lighting facilities is defined as the following:
  - a. the addition of lighting facilities;
  - b. the removal of lighting facilities; and
  - c. the removal of lighting facilities and the replacement of such facilities with new facilities and/or additional facilities.

Modifications will be subject to the costs identified in FPL's currently effective lighting rate schedule on file at the FPSC, or any successive schedule approved by the FPSC.

8. Lighting facilities will only be installed in locations that meet all applicable clear zone right-of-way setback requirements.
9. FPL will, at the request of the Customer, relocate the lighting facilities covered by this agreement, if provided sufficient right-of-ways or easements to do so and locations requested are consistent with clear zone right-of-way setback requirements. The Customer shall be responsible for the payment of all costs associated with any such Customer- requested relocation of FPL lighting facilities. Payment shall be made by the Customer in advance of any relocation.

(Continue on Sheet No. 9.143)

10. FPL may, at any time, substitute for any luminaire installed hereunder another luminaire which shall be of at least equal illuminating capacity and efficiency.
11. This Agreement shall be for a term of ten (10) years from the date of initiation of service, and, except as provided below, shall extend thereafter for further successive periods of five (5) years from the expiration of the initial ten (10) year term or from the expiration of any extension thereof. The date of initiation of service shall be defined as the date the first lights are energized and billing begins, not the date of this Agreement. This Agreement shall be extended automatically beyond the initial the (10) year term or any extension thereof, unless either party shall have given written notice to the other of its desire to terminate this Agreement. The written notice shall be by certified mail and shall be given not less than ninety (90) days before the expiration of the initial ten (10) year term, or any extension thereof.
12. In the event lighting facilities covered by this agreement are removed, either at the request of the Customer or through termination or breach of this Agreement, the Customer shall be responsible for paying to FPL an amount equal to the fixture, pole, and conductor charges for the period remaining on the currently active term of service plus the cost to remove the facilities.
13. Should the Customer fail to pay any bills due and rendered pursuant to this agreement or otherwise fail to perform the obligations contained in this Agreement, said obligations being material and going to the essence of this Agreement, FPL may cease to supply electric energy or service until the Customer has paid the bills due and rendered or has fully cured such other breach of this Agreement. Any failure of FPL to exercise its rights hereunder shall not be a waiver of its rights. It is understood, however, that such discontinuance of the supplying of electric energy or service shall not constitute a breach of this Agreement by FPL, nor shall it relieve the Customer of the obligation to perform any of the terms and conditions of this Agreement.
14. The obligation to furnish or purchase service shall be excused at any time that either party is prevented from complying with this Agreement by strikes, lockouts, fires, riots, acts of God, the public enemy, or by cause or causes not under the control of the party thus prevented from compliance, and FPL shall not have the obligation to furnish service if it is prevented from complying with this Agreement by reason of any partial, temporary or entire shut-down of service which, in the sole opinion of FPL, is reasonably necessary for the purpose of repairing or making more efficient all or any part of its generating or other electrical equipment.
15. **This Agreement supersedes all previous Agreements** or representations, either written, oral, or otherwise between the Customer and FPL, with respect to the facilities referenced herein and constitutes the entire Agreement between the parties. This Agreement does not create any rights or provide any remedies to third parties or create any additional duty, obligation or undertakings by FPL to third parties.
16. In the event of the sale of the real property upon which the facilities are installed, upon the written consent of FPL, this Agreement may be assigned by the Customer to the Purchaser. No assignment shall relieve the Customer from its obligations hereunder until such obligations have been assumed by the assignee and agreed to by FPL.
17. This Agreement shall inure to the benefit of, and be binding upon the successors and assigns of the Customer and FPL.
18. The lighting facilities shall remain the property of FPL in perpetuity.
19. This Agreement is subject to FPL's Electric Tariff, including, but not limited to, the General Rules and Regulations for Electric Service and the Rules of the FPSC, as they are now written, or as they may be hereafter revised, amended or supplemented. In the event of any conflict between the terms of this Agreement and the provisions of the FPL Electric Tariff or the FPSC Rules, the provisions of the Electric Tariff and FPSC Rules shall control, as they are now written, or as they may be hereafter revised, amended or supplemented.

(Continue on Sheet No. 9.144)

RESIDENTIAL UNCONDITIONAL GUARANTY

In consideration of Florida Power & Light Company ("FPL") furnishing electric service to

\_\_\_\_\_ of  
Guarantee Name Guarantees Account No(s)

\_\_\_\_\_, Florida ("Guarantee")  
Guarantee's Service Address(es) & City(ies)

without requiring a deposit, the undersigned Guarantor hereby covenants and agrees that:

1. Guarantor shall, ABSOLUTELY AND UNCONDITIONALLY, guarantee full payment to FPL for ANY AND ALL CHARGES due and owing FPL for which the Guarantee may now be liable or for which the Guarantee may in the future become liable at the above listed address(es).
2. If Guarantee shall at any time fail to promptly pay all charges due and owing FPL, Guarantor hereby agrees to pay all such amounts due and owing FPL within five (5) days of notice.
3. Guarantor shall pay FPL collection agency fees and expenses, reasonable attorneys' fees and all costs and other expenses incurred by FPL in collecting or compromising any indebtedness of Guarantee hereby guaranteed or in enforcing this Guaranty against Guarantor.
4. This is a continuing Guaranty which shall remain in full force and effect until no longer required as specified in Section 6.3 of FPL's General Rules and Regulations or until terminated by FPL (as set forth herein) or the Guarantor upon thirty (30) days advance written notice; provided, however, that no such termination shall release Guarantor from liability hereunder with respect to any charges for electric service furnished to Guarantee prior to the effective date of such termination. FPL may terminate this Guaranty if at any time the Guarantor is no longer a "satisfactory guarantor" (as defined in Rule 25-6.097(2)(a), F.A.C.) which, at a minimum, means an FPL customer with a satisfactory payment record.
5. Guarantor hereby waives notice of acceptance hereof. Guarantor further agrees that FPL need not proceed against the Guarantee or any other person, firm, or corporation, or to pursue any other remedy prior to pursuing its rights under this Guaranty. Guarantee understands that FPL may pursue and/or exhaust all available collection remedies (including disconnection) against Guarantee without pursuing its rights against Guarantor.
6. This Guaranty shall inure to the benefit of FPL and shall be binding upon Guarantor and Guarantor's heirs and assigns.
7. Guarantee hereby authorizes FPL to disclose all of Guarantee's billing information, including third party notification, to the Guarantor so long as this Guaranty remains in effect. Guarantor agrees to receive all appropriate billing information at the Guarantor's service address listed below and further agrees to notify FPL promptly of any change in address; provided, however, that neither receipt of this billing information nor estimates of billing for the Guarantee's service account(s) shall be construed as a limitation on the amount guaranteed under this Guaranty.

IN WITNESS WHEREOF, Guarantor has signed this Guaranty on this \_\_\_\_\_ day of \_\_\_\_\_.

FPL Work Order No. \_\_\_\_\_

**PERFORMANCE GUARANTY AGREEMENT  
FOR RESIDENTIAL SUBDIVISION DEVELOPMENT**

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between \_\_\_\_\_ (Applicant), and Florida Power & Light Company (FPL), a corporation organized and existing under the laws of the State of Florida.

**WITNESSETH:**

Whereas, the Applicant has applied to FPL for underground electric service distribution facilities to be installed on Applicant's property commonly known as \_\_\_\_\_ located in \_\_\_\_\_, Florida (the "Premises"); and \_\_\_\_\_ (City/County)

Whereas, the Premises requires an extension of FPL's present electric distribution system; and

Whereas, the number of transformers to be utilized and revenue expected to be derived from all or a portion of the extension within two years is uncertain; and

Whereas, FPL requires a Performance Guaranty Agreement for Residential Subdivision Development (Performance Guaranty) to provide assurance to FPL that appropriate revenue will be derived from the installation of new facilities so recovery of its costs is certain; and

Whereas, Applicant is agreeable to providing a Performance Guaranty.

Now, therefore, FPL and Applicant in consideration of their mutual covenants and promises do hereby agree as follows:

**ARTICLE I - DEFINITIONS**

1.01 Installation of Service shall be defined as 1) the completed installation of service cable in conduit from FPL's designated point of service to the electric meter enclosure, and 2) the receipt by FPL of a certificate of occupancy/completion from the appropriate governmental authorities acknowledging that the Premises constructed by the Applicant is available for occupancy, such that FPL may install and connect electric meters. Each service is associated to a specific transformer.

1.02 The date establishing installation of service to new customers shall be the date of receipt by FPL of a certificate of occupancy/completion from the appropriate governmental authorities. A transformer shall be considered as "utilized" on the date of the second installation of service (excluding street lights) from that transformer.

1.03 The Expiration Date shall be defined as the date 5 years from the date FPL determines it is first ready to render electric service to the extension.

**ARTICLE II - DETERMINATION OF INITIAL PERFORMANCE GUARANTY AMOUNT**

Applicant agrees to provide FPL an initial Performance Guaranty to be determined by FPL as follows:

2.01 FPL will estimate the total cost of facilities to be installed on the Premises and deduct the amount of contribution paid by the Applicant pursuant to FPL's Electric Tariff. The remaining amount will be prorated among the total number ( ) of transformers required for service. Based upon FPL's evaluation of Applicant's construction plans, construction schedule, and manner in which the subdivision is to be developed, a prorated amount for each transformer will be required for \_\_\_ transformers in all or part of the subdivision where service may, in the opinion of FPL, not be connected within two years from the date FPL is first ready to render electric service.

2.02 In accordance with the above, the initial Performance Guaranty amount required by FPL prior to installing the requested line extension shall be \_\_\_\_\_ (\$ \_\_\_\_\_).

**ARTICLE III - PAYMENT AND REFUND**

3.01 The Applicant shall pay the above specified Performance Guaranty to FPL to guarantee that the Applicant's development is completed so that all transformers to serve new customers are utilized. This amount may be paid in cash or secured by either a surety bond or irrevocable bank letter of credit in a form acceptable to FPL.

3.02 This Performance Guaranty will be refunded without interest, if cash, or the required amount reduced, if secured by a surety bond or irrevocable bank letter of credit, no earlier than quarterly intervals on a prorata basis of \_\_\_\_\_ (\$ \_\_\_\_\_) for each utilized transformer and \_\_\_\_\_ (\$ \_\_\_\_\_) for the final

(Continued on Sheet No. 9.421)

(Continued from Sheet No. 9.420)

utilized transformer and shall commence with the first transformer utilized after the number of transformers previously utilized equals the number of transformers not contributing to the initial Performance Guaranty amount specified in Article II.

3.03 If the Performance Guaranty is secured by a surety bond or irrevocable bank letter of credit, the Applicant may provide either an amended or replacement surety bond or irrevocable bank letter of credit in a form acceptable to FPL at any time to reflect the reduced Performance Guaranty amount as provided for in Section 3.02. If, upon notice of cancellation or prior to expiration of a surety bond or irrevocable bank letter of credit, a replacement surety bond or irrevocable bank letter of credit in a form acceptable to FPL or payment in cash is not provided by Applicant to FPL, FPL will require the third party issuing either of these guaranties to pay the full balance due in accordance with this Agreement in cash. FPL will continue to refund the Performance Guaranty in accordance with Section 3.02 except such refund will be paid jointly to the Applicant and the designated third party having paid the Performance Guaranty amount. The check shall be provided to the Applicant with a copy to the third party.

3.04 Upon written consent from FPL, the Applicant may replace the balance of any cash Performance Guaranty with a surety bond acceptable to FPL. Upon receipt of such surety bond, FPL will refund the balance of the cash Performance Guaranty. If a third party has made payment to FPL pursuant to section 3.03, then any such refund will be paid jointly to the Applicant and the designated third party. The check shall be provided to the Applicant with a copy to the third party.

**ARTICLE IV - FINAL SETTLEMENT**

Any portion of the Performance Guaranty remaining unrefunded and not eligible for refund under the terms of this Agreement after the Expiration Date will be retained by FPL.

**ARTICLE V - TITLE AND OWNERSHIP**

Title to and complete ownership and control over said extensions shall at all times remain with FPL and FPL shall have the right to use the same for the purpose of serving other customers or Applicants.

**ARTICLE VI - PROCEEDING WITH WORK**

FPL, upon execution of this Agreement by both parties and receipt of the required Performance Guaranty, will proceed with the extension work as described in the plans and specifications attached as EXHIBIT A, and all work done and materials used shall conform to the methods and practices specified by FPL's engineers.

**ARTICLE VII - ENTIRE AGREEMENT**

This Agreement supersedes all previous agreements, or representations, either written or verbal, between FPL and Applicant, made with respect to the matters herein contained, and when duly executed, constitutes the entire agreement between the parties; provided however, that all terms and conditions contained in our Underground Residential Distribution Facilities Installation Agreement dated \_\_\_\_\_ relating to the installation of underground facilities shall be adhered to.

**ARTICLE VIII - HEIRS, SUCCESSORS AND ASSIGNS**

This Agreement shall inure to the benefit of and be binding upon the respective heirs, legal representatives, successors and assigns of the parties hereto.

IN WITNESS WHEREOF, the parties have executed this Agreement in duplicate the date first above written.

**SURETY BOND FOR PERFORMANCE  
GUARANTY AGREEMENT**

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WE, \_\_\_\_\_, as Principal, and \_\_\_\_\_, a surety company authorized to do business in the State of Florida, as Surety are held and firmly bound to Florida Power & Light Company, a corporation organized and existing under the laws of the State of Florida, its successors and assigns, in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), in lawful money of the United States of America for the payment of which the Principal and Surety, their heirs, executors, administrators, successors and assigns, are hereby jointly and severally bound. **This amount may be reduced according to Article III of the performance guaranty agreement, a copy of which is attached hereto and made a part hereof.**

WHEREAS, pursuant to its authorized General Rules and Regulations for Electric Service, Florida Power & Light Company requires the Principal to furnish a bond guaranteeing the satisfactory performance under the performance guaranty agreement.

NOW THEREFORE, the condition of this obligation is such that if the Principal shall promptly pay all amounts which may be due by Principal to Florida Power & Light Company under the above performance guaranty agreement in the Principal's name at any or all premises, then this obligation shall be null and void; otherwise it shall remain in full force and effect.

PROVIDED FURTHER, that regardless of the number of years this bond shall continue or be continued in force and of the number of premiums which shall be payable or paid, the Surety shall not be liable thereunder for a larger amount, in the aggregate, than the amount of this bond, unless suit must be brought for enforcement of the within obligations in which case the Surety will also be liable for all costs in connection therewith and reasonable attorneys' fees, including costs of and attorneys' fees for appeals; and

PROVIDED FURTHER, that should the Surety so elect, this bond may be cancelled by the Surety as to subsequent liability by giving thirty (30) days notice in writing by certified mail-return receipt requested to Florida Power & Light Company at P.O. Box 025209, Miami, Florida 33102-5209. The notice of cancellation shall not be effective unless it includes the Principal's name and "Master Account Number \_\_\_\_\_" written thereon.

Signed, sealed and dated this \_\_\_\_\_ day of \_\_\_\_\_, 20 \_\_\_\_ .

**SURETY BOND**

**KNOW ALL PERSONS BY THESE PRESENTS:**

THAT WE, \_\_\_\_\_ as Principal at (mailing address) \_\_\_\_\_,  
and \_\_\_\_\_, a surety company at (mailing address) \_\_\_\_\_  
authorized to do business in the State of  
Florida, as Surety are held and firmly bound to Florida Power & Light Company, a corporation organized and  
existing under the laws of the State of Florida, its successors and assigns, in the amount of \$ \_\_\_\_\_, lawful  
money of the United States of America for the payment of which the Principal and Surety, their heirs, executors,  
administrators, successors and assigns are hereby jointly and severally bound.

WHEREAS, pursuant to its authorized General Rules and Regulations for Electric Service, Florida Power  
& Light Company requires the Principal to establish credit for prompt payment of its monthly utility bills, and  
Principal and Florida Power & Light Company agree that Principal may do so by furnishing this surety bond for  
prompt payment of the monthly utility bills to be rendered by Florida Power & Light Company;

NOW THEREFORE, the condition of this obligation is such that if the Principal shall promptly pay all  
amounts which may be due by Principal to Florida Power & Light Company for utility services in the Principal's  
name at any or all premises, then this obligation shall be null and void; otherwise it shall remain in full force and  
effect.

PROVIDED FURTHER, that Principal and Surety jointly and severally agree that if at any time Principal's  
payment, or any part thereof, of Principal's obligations to Florida Power & Light Company is rescinded or must  
otherwise be restored or returned for any reason whatsoever (Including, but not limited to, insolvency, bankruptcy or  
reorganization), then the Surety obligation shall, to the extent of the payment rescinded or returned, be deemed to  
have continued in existence, notwithstanding such previous payment, and the Surety obligation shall continue to be  
effective or be reinstated, as the case may be, as to such payment, all as though such previous payment had never  
been made;

PROVIDED FURTHER, that regardless of the number of years this bond shall continue or be continued in force and  
of the number of premiums which shall be payable or paid, the Surety shall not be liable thereunder for a larger  
amount, in the aggregate, than the amount of this bond, unless suit must be brought for enforcement of the within  
obligations in which case the Surety will also be liable for all costs in connection therewith and reasonable attorneys'  
fees, including costs of and fees for appeals; and

PROVIDED FURTHER, that should the Surety so elect, this bond may be canceled by the Surety as to  
subsequent liability by giving thirty (30) days notice in writing by certified mail-return receipt requested to Florida  
Power & Light Company at 4200 W. Flagler St., Miami FL 33134 mail code RRD/GO. The notice of cancellation  
shall not be effective unless it includes the Principal's name and "Master Account  
Number \_\_\_\_\_" written thereon.

\_\_\_\_\_, Florida,

GENERAL SERVICE CONSTANT USAGE AGREEMENT

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the Customer) located at \_\_\_\_\_, and Florida Power & Light Company, a corporation, organized and existing under the laws of the State of Florida (hereinafter called the Company).

WITNESSETH

That for and in consideration of the mutual covenants and agreements set forth herein, the parties hereto agree as follows:

- 1. The Company shall provide electric service pursuant to Rate Schedule GSCU-1 marked as Exhibit "A" and made a part of this Agreement. All terms and conditions of this Rate Schedule, or its successive rate schedule which may be approved from time to time by the Florida Public Service Commission, shall apply to the Customer.
2. The account the Customer is requesting service under the Rate Schedule GSCU-1 is \_\_\_\_\_. If service is being requested for multiple accounts, the accounts are marked as Exhibit "B" and made a part of this Agreement.
3. For an account to be eligible for the General Service Constant Usage rate it may not exceed a maximum demand level of 20 kW, and must have a Maximum kWh Per Service Day, over the current and prior 23 months, that is within 5% of their average monthly kWh per service days calculated over the same 24-month period.
4. Service under this Rate Schedule is not recommended for facilities where equipment replacement is anticipated.
5. Any account that does not meet the conditions set forth in paragraph 3 above will be transferred and billed under the applicable general service rate schedule.
6. The Initial term of service under this rate schedule shall be not less than one (1) billing period, unless there is a termination of service due to a Customer's violation of the General Service Constant Usage Agreement. Upon the Customer's violation of any of the terms of the General Service Constant Usage Agreement, service under this Rate Schedule will be terminated immediately. To terminate service, either party must provide thirty (30) days written notice to the other party prior to the desired termination date. Absent such notice, the term of service shall automatically be extended another billing period.
7. If service under the GSCU-1 rate schedule is terminated either by Customer or Company, the account may not resume service under GSCU-1 for a period of at least one (1) year. In addition, to resume service under GSCU-1 an account must have had a Maximum kWh Per Service Day, over the current and prior 23 months that is within 5% of their average monthly kWh per service days calculated over the same 24-month period.
8. That this Agreement supersedes all previous agreements or representations, written, verbal, or otherwise between the Customer and the Company, with respect to the matters contained herein and constitutes the entire Agreement between the parties.

IN WITNESS WHEREOF, the parties hereby caused this Agreement to be executed in triplicate by their duly authorized representatives to be effective as of the day and year first written above.

**CONTRACT SERVICE AGREEMENT FOR THE PROVISION OF SERVICE UNDER  
THE COMMERCIAL / INDUSTRIAL SERVICE RIDER**

This Contract Service Agreement (“Agreement”) is made and entered into as of this \_\_\_\_\_ day of \_\_\_\_\_, by and between \_\_\_\_\_, (hereinafter called in the “Customer”) and Florida Power and Light, a Florida corporation (hereinafter called the “Company”).

**WITNESSETH:**

**WHEREAS**, the Company is an electric utility operating under Chapter 366, Florida Statutes, subject to the jurisdiction of the Florida Public Service Commission or any successor agency thereto (hereinafter called the “Commission”); and

**WHEREAS**, the Customer is \_\_\_\_\_; and

**WHEREAS**, the Customer can receive electric service from the Company under tariff schedule \_\_\_\_\_ at the following service location \_\_\_\_\_; and

**WHEREAS**, the present pricing available under the Company’s rate schedule \_\_\_\_\_ is sufficient economic justification for the Customer to decide not to take electric service from the Company for all or a part of Customer’s needs; and

**WHEREAS**, the Customer has shown evidence and attested to its intention to not take electric service from the Company unless a pricing adjustment is made under the Company’s Commercial / Industrial Service Rider (“CISR”) tariff; and

**WHEREAS**, the Company has sufficient capacity to serve the Customer at the aforementioned service location for the foreseeable future and for at least the following \_\_\_\_\_ month period; and

**WHEREAS**, the Company is willing to make a pricing adjustment for the Customer in exchange for a commitment by the customer to continue to purchase electric energy exclusively from the Company at agreed upon service locations (for purposes of this Agreement, the “electric energy” may exclude certain electric service requirements served by the Customer’s own generation as of the date of this Agreement);

NOW THEREFORE, in consideration of the mutual covenants expressed herein, the Company and Customer agree as follows:

1. **Rate Schedule(s)** – The Company agrees to furnish and the Customer agrees to take power pursuant to the terms and conditions of the Company’s tariff, rate schedule \_\_\_\_\_ and CISR tariff, as currently approved by the Commission or as said tariff and rate schedule(s) may be modified in the future and approved by the Commission (except as described in Section 6 herein). The Customer agrees to abide by all applicable requirements of the tariff, rate schedule \_\_\_\_\_ and CISR tariff, except to the extent specifically modified by this Agreement. Copies of the Company’s currently approved rate schedule(s) \_\_\_\_\_ and CISR tariff are attached as Exhibit “A” and made a part hereof.
2. **Term of Agreement** – This Agreement shall remain in force for a term of \_\_\_\_\_ months commencing on the date above first written.
3. **Modifications to Tariff and Rate Schedule** – See Exhibit “B” to this Agreement.
4. **Exclusivity Provision** – During the term hereof, the Customer agrees to purchase from the Company the Customer’s entire requirements for electric capacity and energy for its facilities and equipment at the service location (s) described in Exhibit A to this Agreement. The “entire requirements for capacity and energy” may exclude certain electric service requirements served by the Customers own generation as of the date of this Agreement.

(Continued on Sheet No. 9.476)

(Continued from Sheet No. 9.475)

- 5. **Termination** – This Agreement shall remain in effect for the period defined in the Term of Agreement above. This Agreement may be terminated in the following manners:
  - a. **Modification of Rate Schedule** – In the event that any provision of any applicable rate schedule(s) is amended or modified by the Commission in a manner that is material and adverse to one of the parties hereto, that party shall be entitled to terminate this Agreement, by written notice to the other party tendered no later than sixty (60) days after such amendment or modification becomes final and non-appealable.
  - b. **Regulatory Review** – In the event of a determination by the Florida Public Service Commission that the entering into this Agreement was not prudent, this Agreement shall be considered terminated immediately upon such finding.
  - c. **Inaccurate or Misleading Information** – For the purposes of this Agreement, in the event that it is determined that the Customer has provided inaccurate or misleading information to the Company, which the Company relied upon in entering into this Agreement, this Agreement shall be considered terminated immediately upon such a determination by the Company, and within thirty (30) days the Customer shall remit to the Company the full amount of any discount already provided to the Customer below what the Customer would have otherwise paid under the standard applicable tariff identified in Exhibit B to this Agreement.
  - d. **Minimum Load** – The Customer is required to maintain a minimum load of 2 MW in order to remain on the CISR. If the customer at any time ceases to be billed under a rate schedule specific to customers with demands of 2 MW or more, the customer will be deemed to no longer be eligible for the CISR and the Company may cancel the Agreement and immediately discontinue any negotiated discounts.
- 6. **Entire Agreement** – This Agreement supersedes all previous agreements and representations either written or oral heretofore made between the Company and the Customer with respect to the matters herein contained. This Agreement, when duly executed, constitutes the only agreement between the parties hereto relative to the matter herein described.
- 7. **Incorporation of Tariff** - This Agreement incorporates by reference the terms and conditions of the company’s tariff, rate schedule \_\_\_\_\_ and CISR tariff filed by the Company with, and approved by, the Commission, as amended from time to time. In the event of any conflict between this Agreement and such tariff or rate schedules (other than as set out in the CISR tariff), the terms and conditions of this agreement shall control.
- 8. **Notices** – All notices and other communications hereunder shall be in writing and shall be delivered by hand, by prepaid first class registered or certified mail, return receipt requested, by courier or by facsimile, addressed as follows:

With a copy to:

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 Facsimile:  
 Attention: \_\_\_\_\_

Except as otherwise expressly provided in this Agreement, all notices and other communications shall be determined effective upon receipt. Each party shall have the right to designate a different address for notices to it by notice similarly given.

(Continued on Sheet No. 9.477)

(Continued from Sheet No. 9.476)

- 9. **Assignment; No Third Party Beneficiaries** - This Agreement shall inure to the benefit of and shall bind the successors and assigns of the parties hereto. No assignment of any rights or delegation of any obligations hereunder shall have the effect of releasing the assigning party of any of its obligations hereunder, and the assigning party shall remain primarily liable and responsible therefore notwithstanding any such assignment or delegation. Nothing in this Agreement shall be construed to confer a benefit on any person not a signatory party hereto or such signatory party's successors and assigns.
- 10. **Waiver** – At its option, either party may waive any or all of the obligations of the other party contained in this Agreement, but waiver of any obligation or any breach of this Agreement by either party shall in no event constitute a waiver as to any other obligation or breach or any future breach, whether similar or dissimilar in nature, and no such waiver shall be binding unless signed in writing by the waiving party.
- 11. **Headlines** – The section and paragraph headings contained in the Agreement are for reference purposes only and shall not affect, in any way, the meaning or interpretation of this Agreement.
- 12. **Counterparts** – This Agreement may be executed simultaneously in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
- 13. **Dispute Resolution** – All disputes arising between the Customer and the Company under this Agreement shall be finally decided by the Commission in accordance with the applicable rules and procedures of the Commission.
- 14. **Governing Law** – This Agreement shall be construed and enforced in accordance with the laws of the State of Florida.
- 15. **Confidentiality** – The pricing levels and procedures described within this Agreement, as well as any information supplied by the Customer through an energy audit or as a result of negotiations or information requests by the Company and any information developed by the Company in connection therewith is considered confidential, proprietary information of the parties. If requested, such information shall be made available for review by the Commission and its staff only and such review shall be made under the confidentiality rules of the Commission.

IN WITNESS WHEREOF, the Customer and the Company have executed this Agreement the day and year first written above.

COMMERCIAL/INDUSTRIAL LOAD CONTROL PROGRAM AGREEMENT

This Agreement is made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the "Customer"), located at \_\_\_\_\_ in \_\_\_\_\_, Florida, and FLORIDA POWER & LIGHT COMPANY, a corporation organized under the laws of the State of Florida (hereinafter called the "Company"). This agreement is available and applicable only for customers who, as of March 19, 1996, were either taking service under the CILC Schedule or had fully executed copies of an earlier approved version of this agreement.

**WITNESSETH**

For and in consideration of the mutual covenants and agreements expressed herein, the Company and the Customer agree as follows:

1. The Company agrees to furnish and the Customer agrees to take electric service subject to the terms and conditions of the Company's Commercial/Industrial Load Control Program Schedule CILC-1 ("Schedule CILC-1") as currently approved or as may be modified from time to time by the Florida Public Service Commission ("Commission"). The Customer understands and agrees that, whenever reference is made in this Agreement to Schedule CILC-1, both parties intend to refer to Schedule CILC-1 as it may be modified from time to time. A copy of the Company's presently approved Schedule CILC-1 is attached hereto as Exhibit A and is hereby made an integral part of this Agreement.
2. Service under Schedule CILC-1 shall continue, subject to Limitation of Availability, until terminated by either the Company or the Customer upon written notice given at least five (5) years prior to termination. Should the Customer terminate service or be removed by the Company and later desire to resume service under Schedule CILC-1, the Customer must provide five (5) years' written notice prior to resuming service under Schedule CILC-1.
3. Service under Schedule CILC-1 will be subject to determinations made under Commission Rules 25-17.0021(4), F.A.C. Goals for Electric Utilities and 25-6.0438, F.A.C., Non-Firm Service -Terms and Conditions, or any other Commission determination(s).
4. The Customer agrees either (i) to not exceed a usage level of \_\_\_\_\_ kw ("Firm Demand") during the periods when the Company is controlling the Customer's service, or (ii) to provide a load reduction of \_\_\_\_\_ kw ("Controllable Demand") during periods when the Company is controlling the Customer's service. If the Customer chooses to operate backup generation equipment in parallel with FPL, the Customer shall enter into an interconnection agreement with the Company prior to operating such equipment in parallel with the Company's electrical system. The "Firm Demand" level (as applicable) shall not be exceeded during periods when the Company is controlling load; nor shall the "Controllable Demand" level (as applicable) be reduced during periods when the Company has requested that the Customer operate its equipment to meet the "Controllable Demand" level. Upon mutual agreement of the Company and the Customer, the Customer's "Firm Demand" or "Controllable Demand" may be subsequently raised or lowered, so long as the change in the "Firm Demand" or "Controllable Demand" level is not a result of a transfer of load from the controllable portion of the Customer's load. The Customer shall notify the Company, in writing, at least ninety (90) days prior to either adding firm load, or reducing or removing any of the Customer's backup generation equipment.

(Continued on Sheet No. 9.491)

(Continued from Sheet No. 9.490)

5. Prior to the Customer's receipt of service under Schedule CILC-1, the Customer must provide the Company access at any reasonable time to inspect any and all of the Customer's load control equipment and/or backup generation equipment, and must also have received approval from the Company that the load control equipment is satisfactory to effect control of the Customer's load, and/or the backup generation equipment is satisfactory to contribute to the Controllable Demand level. The Customer shall be responsible for meeting any applicable electrical code standards and legal requirements pertaining to the installation, maintenance and repair of the load control and/or backup generation equipment. It is expressly understood that the initial approval and later inspections by the Company are not for the purpose of, and the Customer is not to rely upon any such inspection(s) for, determining whether the load control and/or backup generation equipment has been adequately maintained or is in compliance with any applicable electrical code standards or legal requirements.
6. The Customer agrees to be responsible for the determination that all electrical equipment to be controlled and/or backed up is in good repair and working condition. The Company shall not be responsible for the repair, maintenance or replacement of the Customer's equipment.
7. Within two (2) years of this Agreement, the Customer agrees (i) to perform the necessary changes to allow control of a portion of the Customer's load and/or (ii) to install or have in place backup generation equipment to contribute to the Controllable Demand level. Schedule CILC-1 cannot apply earlier than this date unless the Company so agrees. Should the Customer fail to complete the above work by the above-specified date, or should the Customer fail to begin taking service under Schedule CILC-1 during that year, this Agreement shall become null and void unless otherwise agreed by the Company.
8. Upon completion of the installation of the load control equipment and/or any necessary backup generation equipment, a test of this equipment will be conducted between the hours of 7 a.m. and 6 p.m. Monday through Friday, excluding holidays. Notice of the test shall be provided to the Company at least five (5) business days in advance of the date of the test, and the Company shall be afforded the opportunity to witness the test. The test of the load control equipment will consist of a period of load control of not less than one hour. Effective upon the completion of the testing of the load control equipment and/or the backup generation equipment, the Customer will agree (as applicable) to either a "Firm Demand" or a "Controllable Demand". Service under Schedule CILC-1 cannot commence prior to the installation of load control equipment or any necessary backup generation equipment and the successful completion of the test.
9. In order to minimize the frequency and duration of interruptions under the CILC Program, the Company will attempt to obtain reasonably available additional capacity and/or energy under the Continuity of Service Provision in Schedule CILC-1. The Customer elects/does not elect to continue taking service under the Continuity of Service Provision. Service will be provided only if capacity and/or energy can be obtained by the Company and can be transmitted and distributed to non-firm Customers without any impairment of the Company's system or service to firm Customers. The Customer may countermand the election specified above by providing written notice to the Company pursuant to the guidelines set forth in Schedule CILC-1. The Company's obligations under this Section 9 are subject to the terms and conditions specifically set forth in Schedule CILC-1.

(Continued on Sheet No. 9.492)

(Continued from Sheet No. 9.491)

- 10. The Company may terminate this Agreement at any time if the Customer's load control equipment fails to permit the Company to effect control of the Customer's load, and/or if the Customer's equipment fails to meet the Controllable Demand level. Prior to any such termination, the Company shall notify the Customer at least ninety (90) days in advance and describe the failure or malfunction of the Customer's load control equipment and/or backup generation equipment. The Company may then terminate this Agreement at the end of the 90-day notice period unless the Customer takes measures necessary to remedy, to the Company's satisfaction, the deficiencies in the load control equipment and/or the backup generation equipment. Notwithstanding the foregoing, if at any time during the 90-day period, the Customer either refuses or fails to initiate and pursue corrective action, the Company shall be entitled to suspend forthwith the monthly billing under the Schedule CILC-1, to bill the Customer under the otherwise applicable firm service rate schedule and to apply the rebilling and penalty provisions enumerated under "Charges for Early Termination" in Schedule CILC-1.
- 11. The Customer agrees that the Company will not be liable for any damages or injuries that may occur as a result of control of electric service pursuant to the terms of Schedule CILC-1 by remote control or otherwise, and/or installation, operation or maintenance of the Customer's generation equipment to meet the Controllable Demand level.
- 12. This Agreement supersedes all previous agreements and representations, either written or oral, heretofore made between the Company and the Customer with respect to matters herein contained.
- 13. This Agreement may not be assigned by the Customer without the prior written consent of the Company. The Customer shall, at a minimum, provide to the Company a copy of the articles of incorporation or partnership agreement of the proposed assignee, and a copy of such assignee's most recent annual report at the time an assignment is requested.
- 14. This Agreement is subject to the Company's "General Rules and Regulations for Electric Service" and the Rules of the Commission.

IN WITNESS WHEREOF, the Customer and the Company have caused this Agreement to be duly executed as of the day and year first above written.

COMMERCIAL/INDUSTRIAL DEMAND REDUCTION RIDER AGREEMENT

This Agreement is made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the "Customer"), located at \_\_\_\_\_ in \_\_\_\_\_, Florida, and FLORIDA POWER & LIGHT COMPANY, a corporation organized under the laws of the State of Florida (hereinafter called the "Company").

## WITNESSETH

For and in consideration of the mutual covenants and agreements expressed herein, the Company and the Customer agree as follows:

1. The Company agrees to furnish and the Customer agrees to take electric service subject to the terms and conditions of the Company's Commercial Industrial Demand Reduction Rider ("Rider CDR") as currently approved or as may be modified from time to time by the Florida Public Service Commission ("Commission"). The Customer understands and agrees that, whenever reference is made in this Agreement to Rider CDR, both parties intend to refer to Rider CDR as it may be modified from time to time. A copy of the Company's presently approved Rider CDR is attached hereto as Exhibit A, and Rider CDR is hereby made an integral part of this Agreement.
2. Service under Rider CDR shall continue, subject to Limitation of Availability, until terminated by either the Company or the Customer upon written notice given at least five (5) years prior to termination.
3. Service under Rider CDR will be subject to determinations made under Commission Rules 25-17.0021(4), F.A.C. Goals for Electric Utilities and 25-6.0438, F.A.C., Non-Firm Service -Terms and Conditions, or any other Commission determination(s).
4. The Customer agrees to not exceed a usage level of \_\_\_\_\_kW ("Firm Demand") during the periods when the Company is controlling the Customer's service. If the Customer chooses to operate backup generation equipment in parallel with FPL, the Customer shall enter into an interconnection agreement with the Company prior to operating such equipment in parallel with the Company's electrical system. The "Firm Demand" level (as applicable) shall not be exceeded during periods when the Company is controlling load. Upon mutual agreement of the Company and the Customer, the Customer's "Firm Demand" may be subsequently raised or lowered, so long as the change in the "Firm Demand" level is not a result of a transfer of load from the controllable portion of the Customer's load. The Customer shall notify the Company, in writing, at least ninety (90) days prior to adding firm load.
5. Prior to the Customer's receipt of service under Rider CDR, the Customer must provide the Company access at any reasonable time to inspect any and all of the Customer's load control equipment and/or backup generation equipment, and must also have received approval from the Company that the load control equipment and/or backup generation equipment is satisfactory to effect control of the Customer's load. The Customer shall be responsible for meeting any applicable electrical code standards and legal requirements pertaining to the installation, maintenance and repair of the load control equipment and/or backup generation equipment. It is expressly understood that the initial approval and later inspections by the Company are not for the purpose of, and the Customer is not to rely upon any such inspection(s) for, determining whether the load control equipment and/or backup generation equipment has been adequately maintained or is in compliance with any applicable electrical code standards or legal requirements.

( Continued on Sheet No. 9.496 )

(Continued from Sheet No. 9.495)

6. The Customer agrees to be responsible for the determination that all electrical equipment to be controlled and/or backed up is in good repair and working condition. The Company shall not be responsible for the repair, maintenance or replacement of the Customer's equipment.
7. Within two (2) years of this Agreement, the Customer agrees to (i) perform the necessary changes to allow control of a portion of the Customer's load and/or (ii) install or have in place backup generation equipment to contribute to the demand reduction level. Should the Customer fail to complete the above work by the above-specified date, or should the Customer fail to begin taking service under Rider CDR during that year, this Agreement shall become null and void unless otherwise agreed by the Company.
8. Upon completion of the installation of the load control equipment and/or backup generation equipment, a test of this equipment will be conducted at a mutually agreeable time and date. This time and date shall typically be within the Controllable Rating Period unless otherwise agreed by the Company. Notice of the test shall be provided to the Company at least five (5) business days in advance of the date of the test, and the Company shall be afforded the opportunity to witness the test. The test of the load control equipment will consist of a period of load control of not less than one hour. Effective upon the completion of the testing of the load control equipment and/or backup generation equipment, the Customer will agree to a "Firm Demand". Service under Rider CDR cannot commence prior to the installation of load control equipment or any necessary backup generation equipment and the successful completion of the test.
9. In order to minimize the frequency and duration of interruptions under the Commercial Industrial Demand Reduction Rider, the Company will attempt to obtain reasonably available additional capacity and/or energy under the Continuity of Service Provision in Rider CDR. The Customer elects/does not elect to continue taking service under the Continuity of Service Provision. Service will be provided only if capacity and/or energy can be obtained by the Company and can be transmitted and distributed to non-firm Customers without any impairment of the Company's system or service to firm Customers. The Customer may countermand the election specified above by providing written notice to the Company pursuant to the guidelines set forth in Rider CDR. The Company's obligations under this Section 9 are subject to the terms and conditions specifically set forth in Rider CDR.
10. The Company may terminate this Agreement at any time if the Customer's load control equipment and/or backup generation equipment fails to permit the Company to effect control of the Customer's load. Prior to any such termination, the Company shall notify the Customer at least ninety (90) days in advance and describe the failure or malfunction of the Customer's load control equipment and/or backup generation equipment. The Company may then terminate this Agreement at the end of the 90-day notice period unless the Customer takes measures necessary to remedy, to the Company's satisfaction, the deficiencies in the load control equipment and/or backup generation equipment. Notwithstanding the foregoing, if at any time during the 90-day period, the Customer either refuses or fails to initiate and pursue corrective action, the Company shall be entitled to suspend forthwith the monthly credit under Rider CDR, bill the Customer under the otherwise applicable firm service rate schedule, and to apply the rebilling and penalty provisions enumerated under "Charges for Early Termination" in Rider CDR.
11. The Customer agrees that the Company will not be liable for any damages or injuries that may occur as a result of control of electric service pursuant to the terms of Rider CDR by remote control or otherwise, and/or installation, operation or maintenance of the Customer's generation equipment to meet the Firm Demand level.
12. This Agreement supersedes all previous agreements and representations, either written or oral, heretofore made between the Company and the Customer with respect to matters herein contained.
13. This Agreement may not be assigned by the Customer without the prior written consent of the Company. The Customer shall, at a minimum, provide to the Company a copy of the articles of incorporation or partnership agreement of the proposed assignee, and a copy of such assignee's most recent annual report at the time an assignment is requested.
14. This Agreement is subject to the Company's "General Rules and Regulations for Electric Service" and the Rules of the Commission.

(Continued on Sheet No. 9.497)

(Continued from Sheet No. 9.496)

IN WITNESS WHEREOF, the Customer and the Company have caused this Agreement to be duly executed as of the day and year first above written.

I hereby acknowledge receipt from Florida Power & Light Company (FPL) of the following services:

1. An energy audit inspection of the building shell, and the space heating/cooling and water heating equipment of my residence at the address I have given above. This energy audit inspection was made on \_\_\_\_\_ by FPL energy auditor \_\_\_\_\_ and covered the following conservation measures applicable to my residence (check all applicable):

- |  |   |   |
|--|---|---|
| <input type="checkbox"/> Caulking                            | <input type="checkbox"/> Floor Insulation                               | <input type="checkbox"/> Solar Domestic Water Heating           |
| <input type="checkbox"/> Weatherstripping                    | <input type="checkbox"/> Duct Insulation                                | <input type="checkbox"/> Window Heat Gain Retardants            |
| <input type="checkbox"/> Furnace Efficiency Modification     | <input type="checkbox"/> Water Heater Insulation                        | <input type="checkbox"/> Replacement solar swimming pool heater |
| <input type="checkbox"/> Replacement Central Air Conditioner | <input type="checkbox"/> Storm Windows                                  | <input type="checkbox"/> Waste Heat Recovery Water Heating      |
| <input type="checkbox"/> Ceiling Insulation                  | <input type="checkbox"/> Heat absorbing/reflective window/door material | <input type="checkbox"/> _____                                  |
| <input type="checkbox"/> Wall Insulation                     | <input type="checkbox"/> Load Management Devices                        | <input type="checkbox"/> _____                                  |
|  | <input type="checkbox"/> Clock Thermostats                              | <input type="checkbox"/> _____                                  |

The FPL energy auditor has explained to me why any of the above conservation measures not checked are not applicable to my residence.

2. A written audit report of the applicable energy conservation measures (checked above), the estimated cost of each measure, (based upon typical local prices for materials and installation), and the estimated energy savings from installing each measure (based upon FPL's currently effective tariff). This written audit report, a copy of which is attached, was provided to me at my residence by the FPL energy auditor at the conclusion of the energy audit inspection, and has been explained to me fully.
3. An information package containing a list of no cost/low cost conservation practices which are applicable to my residence.

In consideration of the above energy audit investigation, audit report, and information package, I understand and agree that a \$15.00 SERVICE FEE will be added to my FPL electric service bill. I further understand and agree to the following:

**The procedures used to make the estimates of energy savings are consistent with Department of Energy criteria for residential energy audits. However, the actual installation costs incurred and energy savings realized from installing these measures may be different from the estimates contained in the audit report. Although the estimates are based on measurements of the house, they are also based on assumptions which may not be totally correct for the household. Further, the total energy cost savings from the installation of more than one program measure may be less than the sum of energy cost savings of each measure installed individually.**

**FPL accepts no responsibility for the quality of the workmanship or installation of any conservation measures it recommends nor for any consequential or incidental damages resulting from defects therein, and does not guarantee that such measures, even if free from defects and properly installed, will result in the energy savings estimated in the attached audit report.**

**AGREEMENT FOR CURTAILABLE SERVICE**

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the Customer) located at \_\_\_\_\_ in \_\_\_\_\_, Florida and Florida Power & Light Company, a corporation, organized and existing under the laws of the State of Florida (hereinafter called the Company).

**WITNESSETH**

That for and in consideration of the mutual covenants and agreements set forth herein, the parties hereto agree as follows:

1. The Company shall provide electric service pursuant to Rate Schedule \_\_\_\_\_, marked Exhibit "A", which is made a part of this Agreement and attached hereto. If the Customer's Demand is insufficient to qualify for said rate it is hereby agreed that the Customer shall pay monthly the Customer Charge, Demand Charge for the minimum demand or the currently effective demand, whichever is larger, and the Energy Charge but never less than the minimum charge provided for on Exhibit "A".
2. That the Customer agrees to curtail Demand by 200 kW or more upon request of the Company.
3. That the Customer agrees to curtail to a maximum demand of \_\_\_\_\_ kW during the curtailment periods specified by the Company.
4. That the monthly curtailment credit shall be based on the difference between the Customer's monthly billing demand and the maximum demand specified in paragraph 3. The Customer has the option to revise the contracted maximum demand once during the initial twelve (12) month period. Thereafter, subject to the Term of Service and/or the Provisions for Early Terminations of the Rate Schedule marked Exhibit "A", a change to the maximum demand specified in paragraph 3 may be made provided that the revision does not decrease the total amount of Non-Firm Demand determined pursuant to the Rate Schedule marked Exhibit "A", during the lesser of: (i) the average of the previous 12 months; or (ii) the average of the number of billing months under the Rate Schedule marked Exhibit "A".
5. That in the event the Customer fails at any time for any reason to curtail to the demand specified in paragraph 3, the Company shall recover from the Customer all excess curtailment credits issued in the preceding 36 months, or since the last curtailment whichever is less, and shall also recover a penalty charge in accordance with the Rate Schedule marked Exhibit "A".
6. That all terms and conditions of the Rate Schedule marked Exhibit "A", which is attached to and made a part of this Agreement, or its successive rate schedule which may be approved from time to time by the Florida Public Service Commission, shall apply to the Customer. In the event any of these terms and conditions are not met, the Customer will be placed on an appropriate non-curtable service rate for a period no less than the term of service of that rate.
7. That failure or delay by either party in exercising any rights or remedies provided herein or by law, shall not be deemed to constitute waiver of any of the provisions hereof.
8. That this Agreement supersedes all previous agreements or representations, either written, verbal, or otherwise between the Customer and the Company, with respect to the matters contained herein and constitutes the entire Agreement between the parties.

**IN WITNESS WHEREOF**, the parties hereby caused this Agreement to be executed in triplicate by their duly authorized representatives to be effective as of the day and year first written above.

**AGREEMENT FOR GENERAL DEMAND SERVICE**

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the Customer) located at \_\_\_\_\_ in \_\_\_\_\_, Florida and Florida Power & Light Company, a corporation, organized and existing under the laws of the State of Florida (hereinafter called the Company).

**WITNESSETH**

That for and in consideration of the mutual covenants and agreements set forth herein, the parties hereto agree as follows:

1. The Company shall provide electric service pursuant to Rate Schedule \_\_\_\_\_ marked Exhibit "A" which is made a part of this Agreement although the provisions for certain levels of demand usage are not met.
2. That the Customer agrees to pay monthly the Customer Charge, Demand Charge for the minimum demand or the currently effective demand, whichever is larger, and the Energy Charge but never less than the minimum charge as provided for on Exhibit "A".
3. That in the event the Customer's level of demand in any billing period qualifies the Customer for service under provisions of the Rate Schedule marked Exhibit "A" then provisions of paragraph 2 are waived for the next eleven months. However, other provisions of this Agreement will remain in effect.
4. That in the event the Customer's level of demand in any billing period requires the Customer to be served under another rate schedule, this Agreement shall be null and void and service shall be rendered under the appropriate rate starting in the month in which the higher level of demand occurs.
5. At the time of expiration of the term of service provided in Exhibit "A", this Agreement may be terminated by either the Customer or the Company by providing written notice to the other party.
6. That all terms and conditions of the Rate Schedule marked Exhibit "A" which is attached to and made a part of this Agreement, or its successive rate schedule which may be approved from time to time by the Florida Public Service Commission, shall apply to the Customer.
7. That this Agreement supersedes all previous agreements or representations, either written, verbal, or otherwise between the Customer and the Company, with respect to the matters contained herein and constitutes the entire Agreement between the parties.

**IN WITNESS WHEREOF**, the parties hereby caused this Agreement to be executed in triplicate by their duly authorized representatives to be effective as of the day and year first written above.

CHARTER NUMBER

The Florida Public Service Commission provides for the application of residential rates for energy used in the common elements of residential condominiums, and residential cooperatives, as well as the common areas of residential homeowners' associations, subject to certain criteria.

**Condominium and Cooperatives:**

Accordingly, we certify that -

100% of the energy is used exclusively for the co-owners' benefit.

None of the energy is used in any endeavor which sells or rents a commodity or provides a service for a fee.

Each point of service is separately metered and billed.

A responsible legal entity is established as the customer to whom the Company can render its bills, and receive payment for said service.

**Homeowners Associations:**

Accordingly, we certify that -

100% of the energy is used exclusively for the member homeowners' benefit.

None of the energy is used in any endeavor which sells or rents a commodity or provides a service for a fee.

Each point of service is separately metered and billed.

A responsible legal entity is established as the customer to whom the Company can render its bills, and receive payment for said service.

Membership in the homeowners association which controls and operates the common facilities is required as a condition of property ownership in the subdivision; such requirement arises from restrictions of record which are set out or incorporated by reference on each member homeowner's deed.

Such restrictions require each member homeowner to pay their proportionate share of the costs of operating and maintaining the common facilities. The obligation to pay must be enforceable by placement of a lien on the member homeowner's property and by foreclosure for non-payment of such liens.

The homeowners association is comprised of persons owning contiguous lots in a planned development, and the commonly-owned facilities are located within the development.

(Continued on Sheet No. 9.661)

(Continued from Sheet No. 9.660)

The residential rate is applicable to the energy used for common elements of residential condominiums, and residential cooperatives, as well as the common areas of residential homeowners' associations only on meter readings taken after the date the above criteria have been demonstrated to Florida Power & Light Company to have been met.

Additionally, the Florida Department of Revenue has determined that such residential common elements and common areas are not subject to sales and use tax. Therefore, the undersigned association officer understands that if such purchases of electric energy do not qualify for exemption, the undersigned will be subject to sales and use tax, interest and penalties by the Florida Department of Revenue.

Additional Comments:

### Condominium Exemption from Individual Electric Metering - Attestation of Compliance

Condominium Name \_\_\_\_\_ Condominium Address \_\_\_\_\_  
Name as shown on FPL Account \_\_\_\_\_ FPL Account. No. \_\_\_\_\_

The Florida Public Service Commission provides through Florida Administrative Code (F.A.C.) Rule 25-6.049 that condominium buildings operating in a manner similar to hotels and motels can qualify for an exemption from the individual electric metering requirement for resort condominiums only if the following criteria are met:

1. The Declaration of Condominium requires that at least 95% of the units are used solely for overnight occupancy (a short term such as per day or per week where permanent residency is not established);
2. A registration desk, lobby and central telephone switchboard are maintained; and
3. A record is kept for each unit showing each check-in and check-out date for the unit and the name(s) of the individual(s) registered to occupy the unit between each check-in and check-out date.

Furthermore, an attestation must be provided initially by the owner or developer of the condominium named above, or the condominium association of the condominium named above, or the customer in the FPL account named above (“the Customer”), and by the Customer annually thereafter, that the above criteria have been met, and that **any cost of future conversion to individual metering, if required, shall be borne by the Customer**. These costs shall include, but not be limited to, any remaining undepreciated cost of any existing distribution equipment which is removed or transferred to the ownership of the customer, plus the cost of removal or relocation of any distribution equipment, less the salvage value of any removed equipment.

After the initial qualification for exemption, this attestation must be provided to FPL annually by the Annual Attestation Date for Compliance assigned by FPL. Upon request and reasonable notice, FPL shall be allowed to inspect the condominium to collect evidence needed to determine whether the condominium is in compliance with F.A.C. Rule 25-6.049. If the criteria above are not met, then FPL shall not provide master-metered service to the condominium. The Customer shall notify FPL within 10 days if, at any time, the condominium ceases to meet the requirements in F.A.C. Rule 25-6.049.

If a condominium is master metered under the exemption in F.A.C. Rule 25-6.049 and subsequently fails to meet the criteria above, or the Customer fails to make the annual attestation required by F.A.C. Rule 25-6.049, then FPL shall promptly notify the Customer that the condominium is no longer eligible for master-metered service. If the Customer does not respond with clear evidence to the contrary within 30 days of receiving the notice, the Customer shall individually meter the condominium units within six months following the date on the notice. During this six month period, FPL shall not discontinue service based on failure to comply with F.A.C. Rule 25-6.049. Thereafter, the provisions of Rule 25-6.105 apply.

Accordingly, the undersigned declares: the above named Condominium meets all of the aforementioned requirements; I am authorized to sign on behalf of the Customer; and under penalties of perjury, I declare that I have read the foregoing Condominium Exemption from Individual Electric Metering - Attestation of Compliance and the facts stated in it are true.

FPL DSM Program or Research Project Efficiency Measure	Implementation Date	Applicable kW Savings As Determined by FPL

**DSM Adjustment** (Total KW Savings from Demand Side Management and/or Research Project Efficiency Measures)  
 \_\_\_\_\_

**The customer understands that:**

- The DSM Adjustment of \_\_\_\_\_ kW is a fixed level of demand determined by FPL, based on the customer’s permanent demand reduction that is a direct result from the installation of the above conservation measures.
- The demand requirements for the customer’s applicable rate schedule shall be adjusted downward for the demand savings attributable to the installation of one or more of the applicable DSM measures (DSM Adjustment), for the determination of demand requirement qualification.
- The billing demand shall be calculated based on the customer’s actual electrical demand, consistent with their applicable rate schedule.
- If the actual electrical demand does not meet the adjusted minimum demand requirement of the applicable rate schedule for 12 consecutive months, the customer will be ineligible for service under the DSM Adjustment Rider and ineligible for application of the DSM adjustment.
- FPL has the right to inspect the customer’s premises and electrical equipment at any time to determine the customer’s level of demand reduction resulting from the installation of the above conservation measures.
- That this Agreement supersedes all previous agreements or representations, either written, verbal, or otherwise between the Customer and the Company, with respect to the matters contained herein and constitutes the entire Agreement between the parties.

UNDERGROUND DISTRIBUTION FACILITIES INSTALLATION AGREEMENT

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the Customer) and FLORIDA POWER & LIGHT COMPANY, a corporation organized and existing under the laws of the State of Florida (hereinafter called FPL).

WITNESSETH:

Whereas, the Customer has applied to FPL for underground distribution facilities to be installed on Customer's property known as \_\_\_\_\_ located in \_\_\_\_\_, Florida.  
 \_\_\_\_\_  
 (City/County)

That for and in consideration of the covenants and agreements herein set forth, the parties hereto covenant and agree as follows:

1. The Customer shall pay FPL a Contribution in Aid of Construction of \$\_\_\_\_\_ (the total Contribution) to cover the differential cost between an underground and an overhead system. This is based on the currently effective tariff filed with the Florida Public Service Commission by FPL and is more particularly described on Exhibit A attached hereto.
2. That a credit of \$\_\_\_\_\_ shall be provided to the Customer for trenching, backfilling, installation of Company provided conduit and other work, as also shown on Exhibit B, if applicable, and approved by FPL. If such credit applies, the resulting Contribution cash payment shall be \$\_\_\_\_\_.
3. The contribution and credit are subject to adjustment when FPL's tariff is revised by the Florida Public Service Commission and the Customer has requested FPL to delay FPL's scheduled date of installation. Any additional costs caused by a Customer's change in the Customer's plans submitted to FPL on which the contribution was based shall be paid for by the Customer. The contribution does not include the cost of conversion of any existing overhead lines to underground or the relocation of any existing overhead or underground facilities to serve the property identified above.
4. That the Contribution provides for \_\_\_/\_\_\_ volt, \_\_\_ phase (120/240 volt, single phase for URD Subdivisions) underground electrical service with facilities located on private property in easements as required by FPL. The contribution is based on employment of rapid production techniques and cooperation to eliminate conflicts with other utilities. Underground service, secondary, and primary conductors are to be of standard FPL design, in conduit, and with above-grade appurtenances.
5. That the payment of the Contribution does not waive any provisions of FPL's Electric Tariff.

If the property is subject to an underground ordinance, FPL shall notify the appropriate governmental agency that satisfactory arrangements have been made with the Customer as specified by FPL.

Title to and ownership of the facilities installed as a result of this agreement shall at all times remain the property of FPL.

6. That good and sufficient easements, including legal descriptions and survey work to produce such easements, and mortgage subordinations required by FPL for the installation and maintenance of its electric distribution facilities must be granted or obtained, and recorded, at no cost to FPL, prior to trenching, installation and/or construction of FPL facilities. FPL may require mortgage subordinations when the Customer's property, on which FPL will install its facilities, is mortgaged and (1) there are no provisions in the mortgage that the lien of the mortgage will be subordinate to utility easements, (2) FPL's easement has not been recorded prior to the recordation of the mortgage, (3) FPL's facilities are or will be used to serve other parcels of property, or (4) other circumstances exist which FPL determines would make such a subordination necessary.
  - a) The Customer shall furnish FPL a copy of the deed or other suitable document which contains a full legal description and exact name of the legal owner to be used when an easement is prepared, as required by FPL.
  - b) The Customer shall furnish drawings, satisfactory to FPL, showing the location of existing and proposed structures on the Customer's construction site, as required by FPL.

(Continued on Sheet No. 9.701)

(Continued from Sheet No. 9.700)

- c) Should for any reason, except for the sole error of FPL, FPL's facilities not be constructed within the easement, FPL may require the Customer to grant new easements and obtain any necessary mortgage subordinations to cover FPL's installed facilities, at no cost to FPL, and FPL will release the existing easement. Mortgage subordinations will be necessary in this context when 1) the Customer's property on which FPL will install its facilities is mortgaged, 2) there are no provisions in the mortgage for subordination of the lien of the mortgage to utility easements, or 3) FPL's facilities are or will be used to serve other parcels of property.
7. Before FPL can begin its engineering work on the underground electric distribution facilities, the Customer shall provide FPL with the following:
- a) Paving, grading, and drainage plans showing all surface and sub-surface drainage satisfactory to FPL,
  - b) A construction schedule,
  - c) An estimate of when electric service will be required, and
  - d) Copies of the Customer's final construction plans as well as other construction drawings (plot, site, sewage, electrical, etc.) requested by FPL. Plats provided by the Customer must be either recorded by the circuit clerk or other recording officer or prepared and certified as meeting the requirements for recording (except approval by the governing body) by a registered land surveyor.
8. Prior to FPL construction pursuant to this agreement, the Customer shall:
- a) Clear the FPL easement on the Customer's property of tree stumps, all trees, and other obstructions that conflict with construction, including the drainage of all flooded areas. The Customer shall be responsible for clearing, compacting, boulder and large rock removal, stump removal, paving, and addressing other special conditions. The easement shall be graded to within six inches of final grade with soil stabilized.
  - b) Provide property line and corner stakes, designated by a licensed surveyor, to establish a reference for locating the underground cable trench route in the easement and additional reference points when required by FPL. Also, the Customer shall provide stakes identifying the location, depth, size and type facility of all non-FPL underground facilities within or near the easement where FPL distribution facilities will be installed. The Customer shall maintain these stakes, and if any of these stakes are lost, destroyed or moved and FPL requires their use, the Customer shall replace the stakes at no cost to FPL, unless the stakes are lost, destroyed or moved by an agent, employee, contractor or subcontractor of FPL, in which case FPL will pay the Customer the cost of replacing the stakes.
  - c) It is further understood and agreed that subsequent relocation or repair of the FPL system, once installed, will be paid by the Customer if said relocation or repair is a result of a change in the grading by the Customer or any of the Customer's contractors or subcontractors from the time the underground facilities were installed; and, that subsequent repair to FPL's system, once installed, will be paid by the Customer if said repair is a result of damage caused by the Customer or any of the Customer's contractors or subcontractors.
  - d) Provide sufficient and timely advance notice (\_\_\_\_\_ days) as required by FPL, for FPL to install its underground distribution facilities prior to the installation of paving, landscaping, sodding, sprinkler systems, or other surface obstructions. In the absence of sufficient coordination, as determined by FPL, by the Customer, all additional costs for trenching and backfilling shall be paid by the Customer, and none of the costs of restoring paving, landscaping, grass, sprinkler systems and all other surface obstructions to their original condition, should they be installed prior to FPL's facilities, shall be borne by FPL.

(Continued on Sheet No. 9.702)

(Continued from Sheet No. 9.701)

- e) Pay for all additional costs incurred by FPL which may include, but are not limited to, engineering design, administration and relocation expenses, due to changes made subsequent to this agreement on the subdivision or development layout or grade.
  - f) Provide applicable trenching, backfilling, installation of Company provided conduit and other work in accordance with FPL specifications more particularly described on Exhibit B attached hereto. At the discretion of FPL, either correct any discrepancies, within two (2) working days, found in the installation that are inconsistent with the instructions and specifications attached to this agreement or pay the associated cost to correct the installation within thirty (30) days of receiving the associated bill, and in either case, reimburse FPL for costs associated with lost crew time due to such discrepancies;
  - g) Provide a meter enclosure and downpipe which meet all applicable codes and FPL specifications and which will accommodate FPL's service cable size and design. These items must be confirmed with FPL prior to purchase. FPL will not be responsible for costs involved in modifying or replacing items which do not meet the above criteria.
9. FPL shall:
- a) Provide the Customer with a plan showing the location of all FPL underground facilities, point of delivery, and transformer locations and specifications required by FPL and to be adhered to by the Customer.
  - b) Install, own, and maintain the electric distribution facilities up to the designated point of delivery except when otherwise noted.
  - c) Request the Customer to participate in a pre-construction conference with the Customer's contractors, the FPL representatives and other utilities within six (6) weeks of the start of construction. At the pre-construction conference, FPL shall provide the Customer with an estimate of the date when service may be provided.
10. This Agreement is subject to FPL's Electric Tariff, including but not limited to the General Rules and Regulations for Electric Service and the Rules of the Florida Public Service Commission, as they are now written, or as they may be revised, amended or supplemented.
11. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the Customer and FPL.

The Customer and FPL will coordinate closely in fulfilling obligations in order to avoid delays in providing permanent electric service at the time of the Customer's receipt of a certificate of occupancy.

**UNDERGROUND ROAD/PAVEMENT CROSSING AGREEMENT**

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the Customer) and Florida Power & Light Company, a corporation organized and existing under the laws of the State of Florida (hereinafter called FPL).

WHEREAS the Customer has requested the pre-approval of the location and installation of underground distribution facilities to be located under a dedicated roadbed described as follows:

Project Name \_\_\_\_\_ Phase \_\_\_\_\_

**WITNESSETH**

That, for and in consideration of the covenants and agreements herein set forth, the parties hereto covenant and agree as follows:

**1. The Customer shall:**

- a) Install conduit and cable markers provided by FPL in accordance with the instructions and specifications attached to this Agreement,
- b) provide reasonable notification of the conduit installation date and allow FPL to inspect the conduit installation prior to backfilling the trench created for the underground distribution facility,
- c) at the request of FPL, correct any discrepancies found in the installation that are inconsistent with the instructions and specifications attached to this Agreement, or pay FPL the associated cost to correct the installation, and
- d) provide survey control points for FPL to stake the road/pavement crossing.

**2. FPL shall:**

- a) provide instructions and specifications for the installation of FPL-provided conduit,
- b) provide conduit and cable markers to the Customer for the installation of underground facilities at the specified road/pavement crossing,
- c) provide staking for the Customer at the specified road/pavement crossing,
- d) inspect the underground distribution facilities prior to the backfilling of the trench to insure proper installation of said facilities, and
- e) apply a credit in the amount of \$ \_\_\_\_\_ in the event that the Customer has made or has agreed to make a contribution in aid of construction for other underground distribution facilities associated with this Agreement .

3. This agreement is subject to FPL's General Rules and Regulations for Electric Service and the Rules of the Florida Public Service Commission.

**IN WITNESS WHEREOF** the parties hereto have caused the Agreement to be duly executed to be effective as of the day and year first written above:

**APPLICANT:**

**UNDERGROUND FACILITIES CONVERSION AGREEMENT (NON-GAF)**

This Agreement, is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between \_\_\_\_\_ (“Applicant”), with an address of \_\_\_\_\_ and FLORIDA POWER & LIGHT COMPANY (“FPL”), a Florida corporation with an address of P.O. Box 14000, 700 Universe Boulevard, Juno Beach, FL 33408-0429.

WHEREAS, the Applicant has requested that FPL convert certain overhead electric distribution facilities located within the following boundaries (the “Conversion”):

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

(collectively, the “Existing Overhead Facilities”) to underground facilities, including transformers, switch cabinets and other appurtenant facilities installed above ground as set forth in Attachment A hereof (collectively, the “Underground Facilities”).

NOW THEREFORE, in consideration of the foregoing premises and the covenants and agreements set forth herein, and other consideration the sufficiency of which is hereby acknowledged, the parties intending to be legally bound, hereby covenant and agree as follows:

1. **Avoided Storm Restoration Cost (“ASRC”) Eligibility Criteria.** The Applicant represents and warrants that it meets, and is capable and willing to enforce, the applicable eligibility criteria for the Conversion (select one of the following ASRC Tiers):

**ASRC Tier 1:**

- a. In order for the Conversion to incorporate a sufficient amount of overhead facilities to provide electrical continuity, the Conversion must include a minimum of approximately 3 pole line miles or approximately 200 detached dwelling units within contiguous or closely proximate geographic areas (the “Conversion Area”). The Conversion may be completed in mutually agreed upon phases, with the project size minimums applying to the aggregate project – provided that any necessary subsequent phase begins within a 1 year period from completion of the prior phase and the minimums are met within, at most, 3 phases; and
- b. The Applicant must require all customers within the Conversion Area who currently have overhead service directly from the Existing Overhead Facilities to convert their service entrances to underground within 6 months of completion of the Underground Facilities installation or each phase thereof; and
- c. If the Applicant requests that facilities be placed in the ROW, the Applicant must be willing and able to execute a right of way (“ROW”) agreement with FPL or secure a ROW agreement through the appropriate local government(s) with FPL; and
- d. For any affected laterals, the complete lateral must be converted, including all stages of any multi-stage lateral; and
- e. There are no state or federal funds available to the Applicant to cover any portion of the cost of the Conversion.

Special Circumstances. Conversions which do not meet the Tier 1 project size minimums described in section 1.a are eligible for the ASRC in the following special circumstances:

- i. An island or peninsula where 100% of the Existing Overhead Facilities are to be converted; or
- ii. When the aggregate size of the first 3 phases of a project would satisfy the minimum size criteria but, for mutually-agreed engineering or logistical reasons, those phases are non-contiguous; provided that (a) the next (4th) phase must be adjacent to one or more of the first 3 phases such that the combined contiguous area meets the minimum size criteria, and (b) this 4th phase begins within 1 year from completion of the 3rd phase.

(Continued on Sheet No. 9.721)

(Continued from Sheet No. 9.720)

- ASRC Tier 2.** All eligibility criteria remain the same as Tier 1 with the exception that the Conversion Area must only include between approximately 1 to 3 pole line miles or a minimum of approximately 85 detached dwelling units within contiguous or closely proximate geographic areas.
- ASRC Tier 3.** A Conversion Area that is less than 1 pole line mile within contiguous or closely proximate geographic areas. Additionally, Tier 1 requirements for project completion timing in paragraph 1.a., as well as, paragraphs 1.b. and 1.d. do not apply.

- 2. **Contribution-in-Aid-of-Construction (CIAC).** The Applicant shall pay FPL a CIAC as required by FPL’s Electric Tariff and Section 25-6.115 of the Florida Administrative Code.
  - i. CIAC (excluding ASRC) \$ \_\_\_\_\_
  - ii. ASRC \$ \_\_\_\_\_
  - iii. **CIAC Due** \$ \_\_\_\_\_

In the event the actual cost of the Conversion (excluding ASRC) exceeds the estimate, the CIAC (excluding ASRC) shall be adjusted by the lesser of (a) the difference between the actual cost of the Conversion and the estimate, or (b) 10% of the CIAC (excluding ASRC) identified above. The ASRC shall also be adjusted accordingly and the Applicant shall pay FPL the resulting difference in the amount of the CIAC Due.

- 3. **Applicant-Installed Facilities.** The Applicant may, upon entering into an applicant-installed facilities agreement satisfactory to FPL, construct and install all or a portion of the Underground Facilities. Such work must meet FPL’s construction standards and FPL will own and maintain the completed facilities. The Applicant agrees to rectify any deficiencies, found by FPL, prior to the connection of any customers to the Underground Facilities and the removal of the Existing Overhead Facilities.
- 4. **Compliance with Tariff.** The Applicant agrees to comply with and abide by the requirements, terms, and conditions of FPL’s Electric Tariff.
- 5. **Timing of Conversion.** Upon compliance by the Applicant with the requirements, terms, and conditions of FPL’s Electric Tariff, this Agreement and any other applicable agreements, FPL will proceed in a timely manner with the Conversion in accordance with the construction drawings and specifications set forth in Attachment A hereof.
- 6. **Relocation.** In the event that the Underground Facilities are part of, or are for the purposes of, relocation, then this Agreement shall be an addendum to the relocation agreement between FPL and the Applicant. In the event of any conflict between the relocation agreement and this Agreement or the Electric Tariff, this Agreement and the Electric Tariff shall control.
- 7. **Term.** This Agreement shall remain in effect for as long as FPL or any successor or assign owns or operates the Underground Facilities.
- 8. **ASRC Repayment.** If the Applicant does not satisfy the relevant eligibility criteria, the Applicant shall repay the ASRC within 30 days of written notice from FPL of such failure. Additionally, if at any point within 30 years of completion of the Underground Facilities installation, the Applicant elects to have electric service within the Conversion Area supplied by a provider other than FPL, the Applicant shall repay FPL a pro-rata share of the ASRC. The pro-rata share (which shall reflect partial years) shall be determined as follows:

$$\text{ASRC} * [(30 - \text{years since the Underground Facilities completion date}) / 30]$$

Non-governmental Applicants, whose CIAC includes a Tier 1 or Tier 2 ASRC, shall provide, at the time of execution of this Agreement, either a surety bond or irrevocable bank letter of credit (the “Security Instrument”) in a form acceptable to FPL evidencing ability to repay the ASRC. This Security Instrument shall remain in effect until such time as all customers within the Conversion Area are converted. The Applicant may provide either an amended or replacement Security Instrument in a form acceptable to FPL at any time to reflect the pro-rata adjustments to the ASRC amount. If, upon notice of cancellation or prior to expiration of the Security Instrument, a replacement Security Instrument in a form acceptable to FPL is not provided by the Applicant to FPL, FPL will require the third party issuing the Security Instrument to pay the full balance due in accordance with this Agreement in cash.

(Continued on Sheet No. 9.722)

(Continued from Sheet No. 9.721)

- 9. **Termination Prior to the Conversion Completion.** Failure by the Applicant to comply with any of the requirements, terms, or conditions of this Agreement or FPL's Electric Tariff shall result in termination of this Agreement. The Applicant may terminate this Agreement at any time prior to the start of the Conversion and the CIAC paid by the Applicant will be refunded to the Applicant; provided however, that the refund of the CIAC shall be offset by any costs incurred by FPL in performing under the Agreement up to the date of termination.
- 10. **Assignment.** The Applicant shall not assign this Agreement without the written consent of FPL.
- 11. **Adoption and Recording.** This Agreement shall be adopted by the Applicant and maintained in the official records of the Applicant for the duration of the term of this Agreement. This Agreement also shall be recorded in the Official Records of the County in which the Underground Facilities are located, in the place and in the manner in which deeds are typically recorded.
- 12. **Conflict between Terms of Franchise Agreement.** In the event of a conflict between the terms of this Agreement and any permit or franchise agreement entered into by Applicant and FPL, the terms of this Agreement shall control.

IN WITNESS WHEREOF, FPL and the Applicant have executed this Agreement on the date first set forth above.

**UNDERGROUND FACILITIES CONVERSION AGREEMENT –  
GOVERNMENTAL ADJUSTMENT FACTOR WAIVER**

This Agreement is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between \_\_\_\_\_ (“Local Government Applicant”), a Florida municipal corporation or county with an address of \_\_\_\_\_ and FLORIDA POWER & LIGHT COMPANY (“FPL”), a Florida corporation with an address of P.O. Box 14000, 700 Universe Boulevard, Juno Beach, FL 33408-0429.

WHEREAS, the Local Government Applicant has requested that FPL convert certain overhead electric distribution facilities located within the following boundaries (the “Conversion”):

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(collectively, the “Existing Overhead Facilities”) to underground facilities, including transformers, switch cabinets and other appurtenant facilities installed above ground as set forth in Attachment A hereof (collectively, the “Underground Facilities”).

NOW THEREFORE, in consideration of the foregoing premises and the covenants and agreements set forth herein, and other consideration the sufficiency of which is hereby acknowledged, the parties intending to be legally bound, hereby covenant and agree as follows:

1. **Governmental Adjustment Factor Waiver (“GAF Waiver”) Eligibility Criteria.** The Local Government Applicant represents and warrants that it meets the following eligibility criteria for the Conversion:
  - a. In order for the Conversion to incorporate a sufficient amount of overhead facilities to provide electrical continuity, the Conversion must include a minimum of approximately 3 pole line miles or approximately 200 detached dwelling units within contiguous or closely proximate geographic areas (the “Conversion Area”). The Conversion may be completed in mutually agreed upon phases, with the project size minimums applying to the aggregate project – provided that any necessary subsequent phase begins within a 1 year period from completion of the prior phase and the minimums are met within, at most, 3 phases; and
  - b. The Local Government Applicant must require all customers within the Conversion Area who currently have overhead service directly from the Existing Overhead Facilities to convert their service entrances to underground within 6 months of completion of the Underground Facilities installation or each phase thereof; and
  - c. The Local Government Applicant must be willing and able to execute a right of way (“ROW”) agreement with FPL if the Local Government Applicant requests that facilities be placed in the ROW; and
  - d. For any affected laterals, the complete lateral must be converted, including all stages of any multi-stage lateral; and
  - e. The Local Government Applicant must demonstrate to the reasonable satisfaction of FPL that the sum of the GAF Waiver credit plus any federal or state funds that the Local Government Applicant is able to use to support the Conversion does not exceed the otherwise applicable CIAC as calculated before application of the GAF Waiver.

Special Circumstances. Conversions which do not meet the project size minimums described in section 1.a are eligible for the GAF Waiver in the following special circumstances:

- i. 100% of the Existing Overhead Facilities within the Local Government Applicant’s corporate limits are to be converted, but are less than the pole line mileage or dwelling unit minimums; or
- ii. A single lateral that serves at least one Critical Infrastructure Facility as determined by the appropriate local agency with the mutual agreement of FPL; or
- iii. An island or peninsula where 100% of the Existing Overhead Facilities are to be converted; or

(Continued on Sheet No. 9.726)

(Continued from Sheet No. 9.725)

iv. When the aggregate size of the first 3 phases of a project would satisfy the minimum size criteria but, for mutually-agreed engineering or logistical reasons, those phases are non-contiguous; provided that (a) the next (4<sup>th</sup>) phase must be adjacent to one or more of the first 3 phases such that the combined contiguous area meets the minimum size criteria, and (b) this 4<sup>th</sup> phase begins within 1 year from completion of the 3<sup>rd</sup> phase.

2. **Contribution-in-Aid-of-Construction (CIAC).** The Local Government Applicant shall pay FPL a CIAC as required by FPL’s Electric Tariff and Section 25-6.115 of the Florida Administrative Code with the Otherwise Applicable CIAC amount reduced by the GAF Waiver.
- i. Otherwise Applicable CIAC           \$ \_\_\_\_\_
  - ii. GAF Waiver                               \$ \_\_\_\_\_
  - iii. **CIAC Due**                               \$

In the event the actual cost of the Conversion exceeds the estimate, the Otherwise Applicable CIAC shall be adjusted by the lesser of (a) the difference between the actual cost of the Conversion and the estimate, or (b) 10% of the Otherwise Applicable CIAC identified above. The GAF Waiver shall also be adjusted accordingly and the Local Government Applicant shall pay FPL the resulting difference in the amount of the CIAC Due.

3. **Applicant-Installed Facilities.** The Local Government Applicant may, upon entering into an applicant-installed facilities agreement satisfactory to FPL, construct and install all or a portion of the Underground Facilities. Such work must meet FPL's construction standards and FPL will own and maintain the completed facilities. The Local Government Applicant agrees to rectify any deficiencies, found by FPL, prior to the connection of any customers to the Underground Facilities and the removal of the Existing Overhead Facilities.
4. **Compliance with Tariff.** The Local Government Applicant agrees to comply with and abide by the requirements, terms, and conditions of FPL's Electric Tariff.
5. **Timing of Conversion.** Upon compliance by the Local Government Applicant with the requirements, terms, and conditions of FPL's Electric Tariff, this Agreement and any other applicable agreements, FPL will proceed in a timely manner with the Conversion in accordance with the construction drawings and specifications set forth in Attachment A hereof.
6. **Relocation.** In the event that the Underground Facilities are part of, or are for the purposes of, relocation, then this Agreement shall be an addendum to the relocation agreement between FPL and the Local Government Applicant. In the event of any conflict between the relocation agreement and this Agreement or the Electric Tariff, this Agreement and the Electric Tariff shall control.
7. **Term.** This Agreement shall remain in effect for as long as FPL or any successor or assign owns or operates the Underground Facilities.
8. **GAF Waiver Repayment.** If the Local Government Applicant does not satisfy the relevant eligibility criteria, the Local Government Applicant shall repay the GAF Waiver within 30 days of written notice from FPL of such failure. Additionally, if at any point within 30 years of completion of the Underground Facilities installation, the Local Government Applicant elects to have electric service within the Conversion Area supplied by a provider other than FPL, the Local Government Applicant shall repay FPL a pro-rata share of the GAF Waiver. The pro-rata share (which shall reflect partial years) shall be determined as follows:

$$\text{GAF Waiver} * [(30 - \text{years since the Underground Facilities completion date}) / 30]$$

(Continued on Sheet No. 9.727)

(Continued from Sheet No. 9.726)

- 9. **Termination Prior to the Conversion Completion.** Failure by the Local Government Applicant to comply with any of the requirements, terms, or conditions of this Agreement or FPL's Electric Tariff shall result in termination of this Agreement. The Local Government Applicant may terminate this Agreement at any time prior to the start of the Conversion and the CIAC paid by the Local Government Applicant will be refunded to the Local Government Applicant; provided however, that the refund of the CIAC shall be offset by any costs incurred by FPL in performing under the Agreement up to the date of termination.
- 10. **Assignment.** The Local Government Applicant shall not assign this Agreement without the written consent of FPL.
- 11. **Adoption and Recording.** This Agreement shall be adopted by the Local Government Applicant and maintained in the official records of the Local Government Applicant for the duration of the term of this Agreement. This Agreement also shall be recorded in the Official Records of the County in which the Underground Facilities are located, in the place and in the manner in which deeds are typically recorded.
- 12. **Conflict between Terms of Franchise Agreement.** In the event of a conflict between the terms of this Agreement and any permit or franchise agreement entered into by Local Government Applicant and FPL, the terms of this Agreement shall control.

IN WITNESS WHEREOF, FPL and the Local Government Applicant have executed this Agreement on the date first set forth above.

**Long-Term Rental Agreement for  
 Distribution Substation Facilities**

This Agreement is made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the "Customer"), located at \_\_\_\_\_ in \_\_\_\_\_, Florida, and Florida Power & Light Company, a corporation organized and existing under the laws of the State of Florida (hereinafter called the "Company").

**WITNESSETH:**

**WHEREAS**, the Customer has requested to rent from the Company certain distribution substation facilities consisting in summary of \_\_\_\_\_ hereinafter collectively called the "Facilities") located at \_\_\_\_\_ for the purpose of \_\_\_\_\_ and

**WHEREAS**, the Company is willing to rent such Facilities upon the terms and conditions specified herein;

**NOW, THEREFORE**, for and in consideration of the mutual covenants and agreements herein set forth, the parties hereto covenant and agree as follows:

1. In order to be eligible for service under this Agreement, the Customer agrees to rent distribution substation facilities from the Company. If a Customer is currently renting distribution substation facilities under a Facilities Rental Agreement (Tariff Sheet Nos. 9.750 and 9.751), the Customer may enter into this Agreement for the rental of distribution substation facilities, but not for other distribution facilities.
2. The Company will make the Facilities available to Customer on terms consistent with this Agreement, provided, the Company will continue to own, operate and maintain the Facilities.
3. As consideration for making the Facilities available to Customer, Customer shall pay to the Company a monthly rental charge calculated by multiplying the in-place value of the Facilities, as determined pursuant to Paragraphs 4 and 5 of this Agreement, by the applicable Monthly Rental Factor set forth in Tariff Sheet No. 10.015 (Appendix A), attached hereto and made a part of this Agreement, or any successor or substitute schedule which may become effective by filing with or otherwise approved by the Florida Public Service Commission (hereinafter called the "Commission"). Based on the in-place value of the Facilities and the Monthly Rental Factor in effect at the initiation of this Agreement, the monthly charge for the rental of Distribution Substation Facilities to be paid by Customer to the Company is \$\_\_\_\_\_. This monthly rental charge may change from time to time upon modification of either or both the Monthly Rental Factor set forth on Appendix A (or any successor or substitute schedule) or the in-place value of the Facilities in accordance with Paragraph 5.

(Continued on Sheet No. 9.731)

(Continued from Sheet No. 9.730)

4. The in-place value of the Facilities is \$\_\_\_\_\_. This initial in-place value of the Facilities is based upon the agreed replacement cost of the Facilities as set forth on Appendix B, which is attached to and made a part of this Agreement. Regardless of the initial in-place value of the Facilities shown on Appendix B, the in-place value of the Facilities may change consistent with the terms and conditions of Paragraph 5.
5. Changes in the in-place value of the Facilities shall alter the monthly rental charges set forth in Paragraph 3 and such changes shall be utilized in the calculation of any applicable Termination Fee as specified in Paragraph 6; however, changes in the in-place value of the Facilities shall not otherwise alter the terms of this Agreement. Changes in the in-place value of the Facilities shall be made as follows and shall be memorialized on a revised Appendix B:
  - a. When mutually agreed, additional facilities (hereinafter called "Additional Facilities") may be installed and the in-place value set forth in Paragraph 4 shall be increased by the installed cost of such Additional Facilities.
  - b. When mutually agreed, a portion of the Facilities or Additional Facilities may be removed and the in-place value set forth in Paragraph 4 shall be adjusted to reflect such changes. The Company may require a contribution by the Customer to compensate for the undepreciated portion of the Facilities or Additional Facilities to be removed, less salvage, plus removal costs.
  - c. When requested by the Customer, and when mutually agreed, the Facilities or Additional Facilities may be modified by the Company. In the event of such a modification, the in-place value set forth in Paragraph 4 will be adjusted in accordance with the procedures stated in Paragraphs 5a and 5b, above.
  - d. When the Facilities or Additional Facilities are replaced or modified at the Company's option, no change in the in-place value will be made.
  - e. After the Initial Term and upon each successive five (5) year extension (as such is set forth in Paragraph 6), the in-place value set forth in Paragraph 4 shall be adjusted to reflect the net-book value of the Facilities. In addition, if Facilities are replaced due to mechanical and/or electrical failure at any time after the Initial Term, the in-place value set forth in Paragraph 4 will be increased by the installed cost of such replacement facilities and reduced by the previously established in-place value of the replaced facilities.
6. The term of this Agreement (the "Initial Term") shall be 20 years, and thereafter this Agreement will continue in effect for successive five (5) year periods (each such five (5) year period an "Extension") unless terminated by either party upon ninety (90) days' advanced written notice. If Customer elects to terminate this Agreement during the Initial Term or prior to the end of any Extension, Customer shall be responsible for, and shall pay to the Company, a Termination Fee calculated in accordance with Tariff Sheet No. 10.015, set forth as Appendix A, as currently approved or as may be modified from time to time by the Commission.
7. On the termination of this Agreement, and in the event that the Customer fails to make rental payments in a timely fashion, then and in each of those events, at the option of the Company, the Facilities may be removed by the Company.
8. This Agreement may be assigned only with the prior written consent of the Company.

(Continued on Sheet No. 9.732)

(Continued from Sheet No. 9.731)

- 9. Subject to section 2.7 Indemnity to Company, or section 2.71 Indemnity to Company – Governmental, FPL’s General Rules and Regulations, the Customer shall indemnify, hold harmless and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss, damage or injury to persons or property, in any manner directly or indirectly connected with, or growing out of, the transmission and use of electricity on the Customer's side of the point of delivery as such term is defined in Rule 2.3 of the Company's "General Rules and Regulations for Electric Service."
  
- 10. This Agreement supersedes all previous agreements or representations, either written or oral, heretofore in effect between the Company and the Customer, made in respect to matters herein contained and, when duly executed, this Agreement constitutes the entire Agreement between the parties hereto.

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed the day and year first above written.

**APPENDIX B**

**Description of Rented Distribution Substation Facilities**

---

**Reserved for Future Use**

**Reserved for Future Use**

**FACILITIES RENTAL SERVICE AGREEMENT**

This Agreement, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between \_\_\_\_\_ (hereinafter called the Customer) located at \_\_\_\_\_ in \_\_\_\_\_, Florida and Florida Power & Light Company, a corporation, organized and existing under the laws of the State of Florida (hereinafter called the Company).

**WITNESSETH**

**WHEREAS**, the Customer has requested to rent from the Company certain electric facilities described in the document attached and made a part of this Agreement hereinafter referred to as the "facilities" located at \_\_\_\_\_ and used for the purpose of \_\_\_\_\_ and,

**WHEREAS**, the Company is willing to rent such facilities upon the terms and conditions specified herein,

**NOW THEREFORE**, for and in consideration of the mutual covenants and agreements herein set forth, the parties hereto covenant and agree as follows:

1. The Company will provide, install or otherwise make available, own, operate and maintain the facilities described in this Agreement.
2. The Customer shall pay to the Company, as consideration for furnishing the facilities, a charge in accordance with the Company's Contract Provisions - Various (Facilities Rental Service) in its Electric Tariff and any successor or substitute schedule, as changed, modified, or supplemented from time to time by a legal effective filing of the Company with or by order of the Florida Public Service Commission.
3. The in-place value of rental facilities will be based upon the agreed replacement cost of the facilities. However, when the in-place value has been previously established in an existing Rental Agreement, the in-place value of this Agreement will be based on that previously determined value, subject to the terms and conditions in Paragraph 6.
4. The in-place value of the facilities is \$\_\_\_\_\_. The in-place value of this Agreement may change from time to time in accordance with the provisions in Paragraph 6. The Customer has elected to pay for these facilities in this Agreement by either paying:
  - a. a Monthly Rental Fee of \$\_\_\_\_\_, or
  - b. a Lump Sum Rental Payment of \$\_\_\_\_\_ and  
 (one time payment)  
 a Lump Sum Maintenance Payment of \$\_\_\_\_\_, or  
 (payable every five (5) years).
  - c. a Lump Sum Rental Payment of \$\_\_\_\_\_ and  
 (one time payment)  
 a Monthly Maintenance Payment of \$\_\_\_\_\_.

(Continued on Sheet No. 9.751)

(Continued from Sheet No. 9.750)

5. The term of this Agreement shall be:

Five (5) years from the service date and thereafter will continue in effect until terminated by either party upon ninety (90) days written notice.

Any addition to existing facilities, as provided in Paragraph 6, may require a new term of five years based on the changes in the facilities' in-place value.

6. Valuation of changes in facilities shall be as follows:

- a. When mutually agreed upon, additional facilities may be installed, and the in-place value in Paragraph 4 increased by the installed cost of the additional facilities.
- b. When mutually agreed upon, a portion of the existing facilities may be removed and the in-place value in Paragraph 4 shall be adjusted to reflect such changes. For Customers paying a monthly rental fee, the Company may require a contribution by the Customer to compensate for the undepreciated portion of the facilities to be removed, less salvage, plus removal costs. This option is available only for Customers paying a monthly rental fee.
- c. When requested by the Customer, and when mutually agreed upon, existing facilities may be modified by the Company. The in-place value in Paragraph 4 will be adjusted in accordance with the procedures stated in 6a and 6b above.
- d. When facilities are replaced due to mechanical and/or electrical failure, the in-place value in Paragraph 4 will be increased by the installed cost of the replacement facilities and reduced by the previously established in-place value of the replaced facilities.
- e. When facilities are replaced or modified at the Company's option for Customers paying either a monthly rental fee or a lump sum, no change in the in-place value will be made.
- f. In those instances, where upon mutual agreement between the Company and the Customer, when the Customer is transferring from a monthly rental to a lump sum, the in-place valuation of the facilities may be adjusted to reflect the undepreciated value of the facilities.

7. This Agreement may be assigned only with the prior written consent of the Company.

8. On the termination of this Agreement, and in the event that the Customer fails to make rental payments in a timely fashion, then and in each of those events, at the option of the Company, the Facilities may be removed as soon as practicable by the Company.

9. This Agreement supersedes all previous agreements or representations, either written or oral, heretofore in effect between the Company and the Customer, made in respect to matters herein contained, and when duly executed, this Agreement constitutes the entire Agreement between the parties hereto.

**IN WITNESS WHEREOF** the parties hereto have caused this Agreement to be duly executed in triplicate the day and year first above written.

\*Meter enclosure must be approved for use in FPL service area. Current list of approved enclosures available upon request. Socket configurations are shown on reverse side of this form.

For overhead service, minimum attachment height is to be 12 feet above grade. For underground service, minimum cover is to be 24 inches (maximum 36 inches). FPL specifications and requirements must be adhered to and are available upon request. Upon timely completion of the above required items and agreement between you and our Representative, service may be provided approximately the week of \_\_\_\_\_ or as mutually agreed upon. Changes to type service requested, failure to comply with above requirements, or delays to FPL's construction schedule may affect proposed date of service.

(Continued on Sheet No. 9.761)

GENERAL NOTES ON SOCKET BLOCK CONFIGURATIONS

**Configuration #1** - Primarily residential applications. Limited to 200 amp **demand**. (See Note #1\*)

**Configuration #2** - Modification of Configuration #1 by adding a 5th terminal in the 9 o'clock position. To be used with network meters. Limited to 200 amp **demand**. (See Note #1)

**Configuration #3** - For one phase or network service requiring bypass device. Limited to 200 amp **demand**. (See Note #2)

**Configuration #4** - For three phase service. Limited to 200 amp **demand**. (See Note #2)

**Configuration #5** - For one or three phase service. Limited to **400 amp demand**.

**Note #1** - May be used for very small commercial applications, such as bill boards and parking lot lights.

**Note #2** - All three phase and all commercial installations shall have a meter socket with the approved bypass jaw tension/release device (excluding Configuration #5 applications and commercial applications referred to in Note #1).

METER ENCLOSURE INSTALLATION CHECKLIST (for further details, refer to FPL Electric Service Standards)

Meter enclosure is on FPL's current list of approved enclosures and is approved by FPL representative before installation. Enclosure is U/L approved with catalog number stamped on the enclosure.

Enclosure is mounted securely to wall using four mounting bosses. Enclosure is level in both the vertical and horizontal planes. Enclosure is mounted so that center of the meter is 5'0" to 6'0" above final grade. For free standing installations (such as pumps), the minimum height may be reduced to 3'0".

Enclosure cover is in place, sealable, and free of dirt, stucco, etc. Inside is free of debris, paint, overspray, etc.

If more than one enclosure at this location, all meter cans and their covers are marked (address or unit number) with permanent marker or paint.

All lugs, if applicable, for both load and line side, have been installed by customer (FPL conductors, if any, will be connected by FPL, on top). Customer's service entrance conductors are terminated in the enclosure (bottom). Washers are installed between the nut and the lug, **not** between the lug and the block.

For 120/240 volt, 3 phase, the hi-leg (208v to ground) is connected to the right position (**not the center**) in the enclosure.

(Continued on Sheet No. 9.763)

(Continued from Sheet No. 9.762)

**Riser Installation Checklist (For “downpipes” housing FPL #1/0 or #4/0 TPX Service Cable)**

Service riser must be two (2) inches inside diameter and may be galvanized, IMC or PVC. EMT may not be used. If schedule 40 PVC is used, a portion of the riser and the first attached bend at the bottom of the riser must be encased in two (2) inches of concrete from twelve (12) inches below final grade to twelve (12) inches above final grade. Concrete encasement is not required if schedule 80 PVC is utilized for both the riser and first attached bend.

Riser pipe is customer provided and installed, FPL will supply and install the bend. The customer may install the FPL provided schedule 80 bend if they desire.

With FPL approval, slight variances in customer's down pipe size may be accepted if suitable adaptable fittings are also provided by the customer, e.g. two and one-half (2 ½) inch down pipe is acceptable if an adapter to FPL two (2) inch conduit is provided.

Down pipes do not enter the center of an enclosure. Customer load wires exit on opposite side from down pipe or from the center of the enclosure. If two load conduits are used, they are kept to one side (opposite side from down pipe) of enclosure allowing space for FPL's cables.

Down pipes may extend below final grade and the attached bend must be aimed towards the source of FPL service. Centerline of the finished down pipe and bend, when aimed at the source of FPL service, will be no less than twenty-four (24) inches below final grade, and no more than thirty (30) inches below final grade. For a permanent structure such as a patio or A/C slab located at the base of the down pipe, a 24” radius, 90 degree bend must be installed by the customer (provided by FPL) and conduit must be extended twenty-four (24) inches beyond the structure (slab), is plugged at the end and is left exposed (uncovered).

Down pipes are securely strapped to the wall at two places - near the enclosure and near final grade.

FPL trench line is within six (6) inches of final grade, clear of below grade debris and other obstructions (mounds of dirt, paving, landscaping, sodding, debris, building materials, machinery, tree stumps, sprinkler systems, large rocks, etc.)

Grounding bushing installed where metallic down pipe enters enclosure through concentric or eccentric knockout.
